A short time ago Mr Brown who is looking after the powder, tools, etc, at the quarry, ascertained that a number of kegs of powder, several cases of giant, and a few coils of fuse were missing. A certain party was suspected of knowing its whereabouts, and he was informed that if the missing articles were returned within a certain time it would be all right, but if not, there would be trouble ahead for somebody. As the property was returned we suppose the matter will be dropped, but the incident shows that there is at least one person in that vicinity who is unworthy the confidence of his neighbors. The quession may be asked whether such a persen should be let off in that way. The proper place for him is behind a barred door for six months.

With the construction of more sawmills, shipbuilding is almost certain to become an important industry on this river, as there is an abundance of the finest timber in the world for that purpose to be easily obtained here, and the mills can furnish steady employment for the vessels to carry lumber.

#### BAILROADING PATENTS.

A single firm of Patent Lawyers, CA Snow & Co, of Washington, D C, have in the last year procured 1,630 patents for their clients, many of them for rejected inventions. O A Snow & Co have been accused of railroading patents shrough the Patent Office, but they insist that this locomotion is better than ox-carting them for by the latter process the inventor often dies before he

FIDDLE CREEK ITEMS

BY ONE WHO KNOWS.

Here we are after a long time of rain, water and mud, again on the dry land and in the sunshine, and happy are that a few days more of our faithful labor will let us out to civilization- as we have almost completed down Fiddle creek a fine trail- which we can soon turn into as good a road as there is in Douglas county. When we get out we hope Douglas county will take us in, but if they will not, then we hope the good people of Lane county will. Now all who wish to come this way need not be afraid of the creek or the mud for they can come and go at all times, and they through may be sure that we will treat them well for we will soon be civilized.
