WOMEN OPPOSE WOMEN. The State of Affairs Said to Exist In

the Government Service. "Why is it that women are practically debarred from receiving promotions to the higher places in the government service?" asked a government clerk of a quarter of a century's experience. The question was put to several ladies in the treasury department. Before any one of them had time to reply the questioner proceeded to answer his own interrogatory.

"It is because they are held back by "Some time ago a lady in one division know of was so favorably regarded that she would have been made chief of that division, but as soon as her prospects became knewn her fellow clerks of the same sex became indignant and united in a protest. They declared that they could never work under her; that they would a thousand times rather have a man than a woman to 'boss' them. They wouldn't allow her to 'lord it over them.'

"That is only a sample of many cases. Women can be depended upon to antagonize women under such circumstances. Not only did they do so in the case I have cited, but they actually gave the marble heart and the ley hand to this woman after they de-"I Don't no," maw says, "I Have feated her prospects of a promotion.

troit News. A Candle Trick.

Let a candle burn until it has a good long snuff; then blow it out with a sudden puff. A bright wreath of white smoke will curl up from the hot wick. Now, if a flame be applied to this smoke, even at a distance of two or three inches from the capelle, the flame will run down the smoke and rekindle the wick in a very fantastic manner. To perform this ceremony nicely there must be no draft or "banging' doors while the mystic spe!l is rising.

Two Towers.

Students of architecture may have often wondered why the two towers of Notre Dame at Paris were not of the same size. It appears that when the cathedral was built it was the cathedral of a suffragan bishop, who was not entitled to two towers of equal beight, and for centuries the bishop of Parls was suffragan to the bishop of

If another senator had a bill, all he had to do was to go and whisper in Ezekiel's ear, and he would vote

One day, however, Ezekiel came into the senate with hair cut and a clean shave. He sat upright in his seat and began to slaughter right and left. State Senator George F. Wright looked across to where the senator from Johnson was sitting and inquired what change had come over the senator from Johnson county. The other senator replied that the appropriation bill for the state university had now passed both houses, and the senator from Johnson was going to make up for

Clarke kept on punching heads until the senator from Jefferson, Moses A. McCoid, rose and solemnly introduced a bill for an act entitled "An act repealing the appropriation for the state university." A broad smile passand the room, and everybody except the senator from Johnson saw the joke. But the spirit of levity pass-ed away from Senator Clarke. He at once assumed his humble attitude, and the other boys voted him as usual during the remainder of the session.-Des.

Icehouse Fires. Curiously, an icehouse is the most. likely place in the world for a fire. Insurance rates are so high on ice sheds as. to be almost prohibitive of any policies being taken out. Spontaneous combustion is responsible for the fires in ice sheds according to some authorities. When a layer of ice is melted around the top and sides in summer, an immense amount of heat is set free. When conditions are exactly favorable. spontaneous combustion takes place. Others. believe that a zone of warmth and moist tre is created by the melting ice and that this attracts lightning. In any case an icenouse is a beautiful place for
