

W. H. WEATHERSON
Editor and Proprietor.

Florence, Oct. 25, 1901.

Our first correspondent tells what is being done about opening the road to Florence.

Considerable interest is being manifested as to what will be the result of placing stitchee in the road this season.

In previous years the stitchee has been mostly done with pit saws which furnished no advantage to the other as regards location, they pass it by and both drivers were taken up the river again Tuesday morning.

One trap which had been constructed a short distance above the jetty, was taken out a few days ago as the piles were getting out and the sand prevented the trap from giving satisfactory results.
