Do you have a feeling of undue fullness in the stomach, belchings, or sour or bitter risings? These are but a few of the symptoms of the diseased stomach.

The worst thing which can be done for the stomach in such a case is to take some tablet or powder which merely gives temporary relief from discomfort. The best thing to do is to begin the cure of the disease by beginning the use of Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It makes the "weak" stomach strong, and puts the body in a condition of vigorous health.

The Shipmaster's Cow. A certain farmer is telling mean things about a Rockland shipm "The shipmaster," he says, "bought a cow of a man down my way; good critter-nothin the matter with But it seems the captain's wife one day thought the milk tasted funny and segested that p'raps she'd been eatin spruce boughs; said the milk tasted like spruce. And what does he do but go out in the pasture to watch the cow, to see what she did cat. The row was layin down, chewin her cud, and he went erlong and run his finger in her mouth to see what she was eatin. Then he was mad. He put a rope in. on the cow and started off with He met a neighbor, who says, 'Where are you goin with the cow?' Goin to take her back to the feller that so her to me. He's cheated me, and I

won't stand it.' "The man wanted to know what was the matter, and he went on to about it and says: 'She wasn't eatin boughs, but she was chewin gum; that's what's the matter with the milk and makes it taste like spruce. And, he says, 'that ain't all. She's so addicted to the habit that she's worn all her

teeth out. She ain't got an upper tooth in her head. Back she goes, quick.'
"Of course, the man told him that it was all nonsense—that cows never had no upper teeth. But he didn't believe a word of it and went on and had a tarnal row with the man that sold him the cow. Guess he was never satisfied about it or knew what a darn he was makin of himself."-Rockland (Me.) Opinion.

Generous Great Britain. Britain's "earth hunger" is a col sneer on the continent, but look at what we have given away without the least reason! We took the Ionian islands in 1809

and handed them over to Greece for fraulein, this is a beautiful nothing about 50 years afterward. The silver brook, with golden Corsica shows George III as its king. Tangier came to us by the marriage of Charles II. We abandoned it at the end of 22 years. We took Cuba in 1762 and handed it

back to the Spaniards, after holding

it for 10 months. We took the Philippines and returned them to the same country for £800,000-which was never Here is a short list of other places which we once held and gave up without compulsion; Minorca, Sicily, Sardinia, Buenos Ayres, Montevideo, Java,

Pondicherry, Celebes, Moluccas, Elba and about 50 other places. We took Cape Colony in 1795, but gave it up again to the Dutch. In 1806 we took it again-and kept it.-London

Standard. The Coughing Bean To the ordinary housemaid the fall-

ing of a house plant into a viol paroxysm of coughing is naturally poets. I know a man who engaged a disconcerting. Yet there are plants poet and gave him \$3 a week to keep which will do this when the broom the office clean and run errands.—Philadelphia Press.

This singular plant is the "coughing bean," known to the botanist as the Eutada tussiens. It is a native of Judge (to female witness) — Your warm and moist tropical countries and cannot and will not stand dust. When dust settles upon the breathing pores in the leaves of this plant and chokes for ten days. When dot first Saturday night comes, I like to draw fife dollar from der partnership, but Mr. Walkover says:

"Not dis week, Hans. Our money whas in der bank, und I lose my check-book. You go by der grocer and butch."

Sound Argument.

"In the leaves of this plant and chokes the leaves, and when it gains sufficient strength forcibly "blows off," clearing the pores of dust and making a sound exactly like coughing. At the same time the leaves tremble and the plant to the leaves tremble and the plant to the force." the same time the leaves of this plant and chokes in the leaves are leaves, and when it gains sufficient strength forcibly "blows off," clearing the leaves, and when it gains sufficient strength forcibly "blows off," clearing the leaves of this plant and chokes in the leaves are leaves, and when it gains sufficient strength forcibly "blows off," clearing the leaves, and when it gains sufficient strength forcibly "blows off," clearing the leaves are leaves are leaves and the leaves of the leaves are leaves. time the leaves tremble and the paractually "gets red in the face," through the sinking of the green chlorophy grains and the appearance or red paticles on the leaves. This plant sometimes used as a house plant as a paracture of the paracture o sweeping the room sets it coughts the intense astonishment of per not familiar with its peculiarities.
