#### DALLAS, SATURDAY, SEPT. 11, 1869.

STRANGE FREAK .- Mr. Vineyard, our efficient agent, informs us that Mr. Merwin of Independence, about ten days since, caught a and took it home with him for a pet. Mrs. Merwin suggested to her worser half that it be committed to the mercies of the family "Tabby"-which at the time was suckling a seemed delighted with the entire performance. which reflected much credit on teachers as well breed of youthful "Taboys" and "Toms,"-as as the pupi's. OUR CONTRIBUTORS .- Last week a gentleman of this county sent us a communication (which we published over the signature of "Wheat") with a request that we draw attention to the sweeping accusation of fraud on the part of all the warehousemen in this region, to which we were an entire stranger, we could not do so. conscientiously, so left the letter make its appearance solely on its merits. As will be seen by reference to another column, the warehousemen of Independence reply to "Wheat," furnish facts and figures to sustain their position, and court investigation as to the truth of their statements.

HONTICULTURAL .- There lays on our table a fine specimen of the white turnip, of less than three months growth, which weighs five pounds and measures a little over 221 inches in circumference. Had it been allowed to mature. there is no telling how large it may have been. This fine vegetable was raised by Mr. Lindsey Robbins, at his home farm, about two miles east of Dallas.

We were also shown some very fine squashes raised by Mr. Liggett, which girthed 38½ inches by Gen. Applegate, after which business was one way and 361 the other, and weighed 25 lbs each. after considerable discus-ion, then as a whole,

These specimens are not so bad for neglected Webfoot.

WHO IS TO BLAME ?- We have heard numer- bers will proceed to permanent organization ous complaints of late about the condition of a portion of the county road between Eola and Salem. MEANNESS .- As our readers generally are aware, we stated in our first four or five issues of the TIMES that we would forward the paper gratuitously for one month to most of the old subscribers of the Polk county paper, so that they might judge of its character, and instructed those who did not wish to continue their subscription to so inform their postmaster and we would crase their names from our books. Our agent presented a bill to one Wiswell, who keeps a livery stable near the ferry landing in Salem, this week, which he positively refused to pay-asserting as a reason that he had not ordered it. The same might be said by twothirds of our subscribers if they were dishonest. Mark it: Wiswell took the TIMES from the Post Office regularly since the 1st of May until this week, and appropriated it to his use, but now refuses to pay for the same. This man Wiswell will bear watching.

BE DECENT .- The Baptist church has been thoroughly cleaned and overhauled during last week, and the Deacons request that gentlemen who attend the services conducted in their edifice will observe decency by NOT spitting tobacco juice over the backs of the pews and on the floor. THE BOOT ON 'TOTHER LEG .- We have been informed that our item in reference to the killing of a panther last week by Bill Cook was incorrect. Charles Kennedy killed the varmint and Cook only put a ball through the panther's head after he had dropped dead-fearing the vital spark was not entirely extinguished. We have only to state that the hunters themselves are our informants in each case, which resolves the matter simply into a question of veracity between them.

MONMOUTH ACADEMY. - This institution openec for the Fall session on Monday last, under the presidency of Professor Campbell, with thirty-three students. As no public notice had been given of the commencement this is considered a very favorable beginning, particularly when it is understood that most of our young men are yet busy in the harvest field. Before the commencement of the next term public announcement of the fact will be made.

POMOLOGICAL .- Mr. Burt. Simpson and lady laid us under obligation night before last for a fine lot of delicious fruit-grapes, apples and pears. The latter were of the most toothsome we ever enjoyed. Thanks, kind friends. May

who went through the eastern portion of the county this week, reports that the grain that stood out during the late rain is not damaged as much as former reports would lead us to believe. He says that very little of it will be found unmerchantable-that the farmers generally exaggerate their losses by the late Webfoot visitation.
