DALLAS, SATURDAY, FEB. 5, 1870.

MONETARY.—Legal Tenders are buying in San Francisco at 82 1/2; selling 83@83 1/2. Portland quotations 82 and 83. Gold in New York 121 1/2.

U. S. INTERNAL REVENUE.—Persons who have been so fortunate as to realize over \$1,000 in greenbacks during the past year, had better make their returns soon, before another per centum is added, and fork over 5 per cent of the overplus to some Radical tax collector, to be distributed among those patriotic individuals who invested in Government bonds, and pay no tax themselves. The first of March is the limit within which returns must be made. Whoever heard of internal revenue returns in the good old days of Democracy? No inquisitive official pried into poor men's private affairs in those days; but they were left to enjoy the fruits of their labor.

WOLF.—There is great excitement among the aborigines of Soap Creek over the monster captured there last week. Several correspondents give accounts of the creature, each bringing forth some new marvel in its conformation. He is reported as being about six feet high, striped like a zebra, scaled like a crocodile, adorned with a lion's mane, a camel's back, and a dog's tail, and having about as many legs as a centipede. One writer says he has seen the terror of the Soap Creekists for about 40 years, which may be true, but is open to doubt. He is also said to be the panther that killed a tame deer down there a few weeks back. Altogether, he must have been a most extraordinary animal, and we should very much like to take a glance at him, to satisfy our curiosity as to the truth of the many wonderful statements which have been made regarding him.

POETICAL.—We have received two poetical effusions for publication, but the editor being absent, and poetry being too lofty a science for us to pass judgment on, we defer their publication till a more critical eye has analyzed them. One thing we can say without fear of contradiction, these poems have at least the merit of originality, and the inspired authors may some day—if they pay more attention to orthography and measure than they do to jingle and slang phrases—make their mark in the poetical world. Let them remember "Indecent words admit of no defence. Decency is want of sense."

CHEEKY.—The San Francisco Chronicle, following in the wake of similar publications in the East, sends us its prospectus of a column and a half for publication, and requests us to give it editorial notice, all for the boon of an exchange. Does the Chronicle do business in this way? We do not, and we consider the Chronicle's proposition impudence personified.

RELIGIOUS.—The meetings at the Christian Church last Saturday evening and Sunday, conducted by Prof. Campbell, were well attended—in fact the church was crowded at each meeting, and the sermons delivered were well received. The Professor is a solid speaker, and appeals rather to the understanding than the feelings of his hearers. Mr. Campbell is in possession of the word sectarian, though he makes some bold assertions which those of us who have been trained in the straight-jacket of denominational prejudices, may find hard to swallow. We are sorry that business engagements prevented him from protracting the meeting.

PLEASANT.—The past week has been the finest weather we have had this winter. We hear that the roads have improved wonderfully in consequence. Slight frosts make the nights and mornings cool. Farmers are busy.

SUNDAY SCHOOL.—We learn that a new Sabbath School was organized at the Christian Church last Sunday. This a worthy object, and we hope it may prosper.

GENEROUS, VERY.—We have received several Eastern cheap publications, with lengthy prospectus attached, which the generous owners want us to publish in the TIMES, offering as a consideration to place us on their exchange lists. Not much, gentlemen; we wouldn't exchange the TIMES even with you. And to think of filling our paper with your swindling advertisements—to the exclusion of the general news—we couldn't think of it. We have no space for humbugs.

LECTURE.—Rev. Mr. Adams gave a lecture on Wednesday night in the Methodist Church, in the interest of Christian union and Bible distribution. The church was well filled and the lecture quite interesting. We noticed the old failing repeated, however, holding an audience after the subject ceased to interest them.

PREACHING.—Rev. Mr. Baxter will preach at the Methodist Church South this (Saturday) evening and to-morrow morning and evening.

ALMANAC.—We have received a copy of the Philadelphia Daily Ledger Almanac for 1870. It is a neatly gotten-up pamphlet of 56 pages, containing valuable information, and reflects great credit on its publisher, Mr. G. W. Childs. No less than eighty thousand copies have been given gratis to the subscribers of the Ledger. Mr. Childs is a man of business talents, and a philanthropist whose good deeds and charitable donations to the poor of Philadelphia have given him a fame far greater than that he has acquired as a newspaper man. Success to Mr. Childs and the Ledger.

BE CAREFUL.—We are informed that a gentleman who went out duck shooting the other day came very near bagging some larger ones than he thought for. He took a shot down a hedge-row, and was surprised to see two young ladies spring up and start for home on the keen jump. The affair was quite an accident. We asked him if the young ladies looked "skered." "No," said he, "they weren't skered, but they looked kinder discouraged."

GRAMMATICAL.—The Statesman and Mercury are involved in a bitter grammatical discussion, where the letter S forms the sum of difference. Greek literature has been invoked and is slashed about furiously by the contestants, pro and con, to the great vexation of those of their readers who are not so fortunate as to be posted in the classics. Bro. Upton seems to have the best of the fight so far. Gentlemen, can you not find some weightier subject to ventilate your scholastic accomplishments, and at the same time interest those of your readers who have passed the tender age of ten years.

GUESS WE WON'T.—A subscriber, whose time has expired, writes us to stop our paper. If he means for us to discontinue his copy, we are willing to comply; but to stop our paper, we think is asking a little too much.

CATS.—Cats may be very useful for domestic purposes, and even in printing offices where Rats abound, but in our office they are a nuisance. Last night, on opening the door, we found one dancing quadrilles on our set-up matter. We would thank our neighbors to keep their felines out of this office.

Considerable money is being wagered on the success of the enterprise, and a lively interest is manifested by the business men of the valley.

Mr. R. J. Ladd, of Portland, met with a terrible accident last week. His arm got entangled in the machinery of the saw mill of Messrs. Rogers and Stimson, and was literally crushed to pieces. The arm had to be amputated, and Mr. Ladd's recovery is considered probable.

NORTHERN IDAHO.—A correspondent of the Walla Walla Union, who writes from Warrens Diggins, Jan. 8th, says the winter so far had been mild, the miners were busy in stripping top dirt, drifting out pay dirt, and cutting tail races to be ready for the early Spring mining season. Quartz miners were also busy, and the ores were generally yielding good products. The Rescue Company have a tunnel 200 feet deep, and will have 250 feet more to run before they strike the ledge, but they expect to have it completed by Spring. Muncey & Co. were to start to crush 50 tons of Charity ledge ore in a few days; Hutton & Co. had struck the Scott ledge in a wider and richer place, put on extra hands, and were getting out lots of splendid ore. And Frank Shisler and G. Gamble had put on a gang of men to sink a tunnel to their claims on the south side of the Rescue ledge.

The new diggings struck last Fall about ten miles above Warrens, prospect well, and a good season is expected next year.

The mines on the South Salmon, ten miles below Warrens, prospect exceedingly rich. One miner, named Brantly, says \$5,000 could not buy his chance for next summer's mining.

The miners have concluded to let Chinamen work the old diggings around Warrens' next season, and these offer a good field for 1,000 Chinese miners.

Trade and everything looks flattering in Northern Idaho generally.

SCROFULA is a taint or infection in the human organism which weakens the vital forces, and disorders or disarranges the functions of the whole system. Its taint or infection is most usually hereditary in the constitution, but it may also arise from habits of life, unwholesome food, etc. In its progress, it shows itself in an ulcerous or tubercular form. It induces those other diseases, such as consumption, ulceration of the liver, stomach and kidneys, salt rheum, dropsy, etc. The best remedy ever yet discovered is "Dr. Walker's VERIFIABLE VERMIGRA BROTHERS." It will cure the disease if not too far advanced, and will eradicate the cause.

WALTHAM WATCHES

Let every one who wants a Watch read this carefully.

Especially if in some remote, out-of-the-way place.

Now that the railroad is open, we propose to give the residents of Oregon the opportunity of getting single genuine Waltham Watches at Lowest New York Wholesale Prices!

We sell more Waltham Watches than any other establishment in the country, either wholesale or retail; we send great numbers to every section of the country by Mail and Express, carefully packed and in perfect running order. Our plan is this: You want a watch, and see our advertisement; now, we want you first to write to us for our Descriptive and Illustrated Price List; we will send it, post-paid, return mail. It explains all the different kinds, tells the weight and quality of the cases, with prices of each; you then make a selection of the kind you prefer, and send us your order. We will then send you the watch by Express, with the bill to collect on delivery. We give instructions to the Express Company to allow you to open the package and examine the Watch; if it suits, you can pay, and take it; if not, you are under no obligation to receive it and if it is taken, and afterward does not prove satisfactory, we will exchange it, or

REFUND THE MONEY.

As an indication of the Prices, we will quote our Watch from our list. The P. S. HARTLEY, Lever Movement, with Extra Jewel, Chromolite Balance, Patent Pinion, Patent Dust Cap, and all the other late improvements, in a Solid Gold Case.

\$28 in Greenbacks, or about \$20 in Coin.

All the other kinds, both gold and silver, in the same proportion. Do not order a Watch till you have sent for a Price List, as it contains a great deal of information regarding these watches that will enable you to make an intelligent selection. Don't forget, when you write, to state that you saw this advertisement in the POLK COUNTY TIMES, and you need not put in stamps for return postage. Address in full,
