> RADICAL PURPOSES. Thus Radical reconstruction proceeds. and it is the open and avowed purpose of Congress to admit these States thus in the hands and under the control of the negroes before this session closes .-

The great clime is presed now cach day and hour with fierce desperation. And who so blind as not to see the odious purposes? A Presidential election is at hand, and the first fruits of this ac cursed conspiracy are to be seventy electoral votes deposited for the Radical candidates by the hands of the negroes. The negroes of Georgia, in their dense barbarity, are to out vote the treemen of Indiana in the choice of a Chief Magistrate. The negro on the levees of the Mississippi is to drown the

North. I speak ad isedly. The Radical leaders, since the late e'ections, expect to carry but a few of the Northern States. They despair of controlling any longer the white vote of the country. They seek no longer to govern this great Republic by the white man's influence. They yield all that to the Demcratic party, and denounce a whi e men's party us an intolerable offense. The verdict of the Senate on the only article of impeachment that has yet been pronounced upon, has taken the Radicals completely aback. In spite of the scandalous intimidation practiced Senate chamber, in spite, too. of Ben. Wade's judicial and self electing vote a number of Republicans, sufficient to prevent conviction, have had the honesty and courage to vote according to dictates of their consciences. In their dire dismay at so unlooked for a result, the unjority of the court did not venture

to let a verdict be given on the remainuntil after the Chicago Convention apparently to try what influence that may have in convincing the minority of the President's guilt. The Radica Senators cannot forget their party tricks, even when they have to assume the role of judges. Congress has already shown its disregard for the sanctity of a court of justice by the infamous attempts of some of its members forming a correct judgment-the case has been already concluded, and there governing the Southern States left this the feast of good things t which is no reason why the verdict should be postponed, except to bring outside pressure to bear upon the Senators who have dared to vote according to their convictions. Such a gross prostitution of justice to party must meet the hearty condemnation of honest men of every shade of politics, and effectually stops the Radical boasting impartiality of the Senate. Still we do not believe that all the intrigues and rascality of the President's foes can prevent his tri umphant accquittal. The Radicals made a terrible blunder in commencing impeachment at all, but they are making matters a hundred times worse for thenselves by their present conduct. While the bost and most honest mem bers of their party have been ostracised by their more violent or less scrupulous co'leagues, the partp thus divided has now to commence the Presidential voice of the intelligent farmer of the campaign with the stigma of an unsucce-sful attempt to trample upon the laws of the country and the principles of justice, and with all the discourage. ment of a defeat. Not all the negro votes of the newly admitted States can prolong the Radical regime in the face of the reaction which the conduct of its representatives must excite through. out the nation.
