TUESDAY, OCT. 7, 1884.

WIT AND HUMOR.

An Austin school teacher, who is simultaneously an Irishman, has been very much annoyed by the absentee. He created a slight flutter of excitement among the elder pupils by saying in a very impressive manner:

"Children, I want yez to understand that from now on the absentees must sit on the front bench, so I can know right off who they are, and apply the corrective."—Texas Siftings.

"I see your daughter, Melviny, has opened a cigar and tobacco store," remarked a mercantile agency man to Mr. Hipstart. "Yes," answered the old man, "she wanted to earn something, so I thought that the best business for her."

"I would like to get her rating; I guess she'll be good for her contracts." "Oh, yes," answered Hipstart, "perfectly good; the fact is, I intend to back her." And the guileless old man yet breathes, for a wonder.—Atlanta Constitution.

A young man had his girl out carriage riding the other evening and the horses took fright and ran away. In turning a corner the vehicle was overturned and the young lady was pinned to the earth, the body of the carriage lying heavily across her waist. She was rendered unconscious. When she was relieved from her perilous position she slowly opened her eyes as consciousness returned, and finally gasped: "Don't squeeze me—quite so hard—next time—John."—Exchange.

It was growing very late, but the young man showed no signs of a disposition to take his leave. After relieving herself of several yawns the young lady said: "You have been reading about the Greeley expedition, haven't you?" "I have. Why?" "And you have thought so much about it that you fancy you are now in the Arctic regions yourself." What makes you think so?" "Because you seem to be under the impression that you are in a region where the nights are six months long." He took his hat.—Somerville Journal.

They were sitting together on the sofa in their parlor conversing in a low tremulous voice. They had only been married a short time. He seized her hand and said with a voice full of emotion: "Bride, do you know that it was your innate modesty, your apparent indifference, that made me resolve to win you at all hazards?"

"Yes, George, the apparent indifference game is what captured you. You are the first one I tried it on. I slipped up on three or four occasions by gushing too much before it occurred to me to change my tactics. I wish it had occurred to me sooner," and she sighed heavily.—Texas Siftings.

"Say, old man," said the thirsty man to the boss, "that barkeeper of yours gave me nothing but foam for a glass of beer. He'll hurt your business."

"Hurt my business," echoed the proprietor; "why, he is my foam most man."—Washington Hatchet.

"Did ye hear that Patsy Mulcahy had got a job in the college brass band?"

"Ye don't mean Patsy that came from the old county last year?"

"It's that same."

"An' he plays in a band?"

"He does."

"I don't believe it."

"Well, I believe me own earsight. Didn't I hear him toot on a silver bugle meself?"

"Ah, git out! They wouldn't let a man wid an Irish accent play in an American band."

"Yis, but they do let Patsy play."

"Well, thin, he must have had that brogue of his naturalized."—Texas Siftings.

Manuring Fruit Trees.

It is singular how long some fallacies retain their hold, even after they have been disproved by facts, and of these, one of the most mischievous is the belief that fruit trees and bushes are liable to injury rather than benefit from the application of manure. All sorts of diseases, such as canker and other ailments to which fruit trees are liable, are set down as the result of applying manure to the roots; whereas, in nine cases out of ten, it arises from poverty of the soil, causing the roots to run down into the bad subsoil. I am continually hearing complaints from owners of fruit trees as to their unsatisfactory condition, and on examination have invariably found scarcely any surface roots or fibers of any kind, nothing but large, tough-like roots, that run down into the subsoil. On inquiry I have usually found that manuring or top dressing had not been practiced for many years, their owners having come to the conclusion that such practices were dangerous.

In the fruit-growing parts of Kent, where large orchards of standard trees planted on grass land is the rule, it is a well established fact that if the grass is cut for hay and carried away, the trees soon become unfruitful and die out; while, on the contrary, if the grass is fed off, so that the nutriment is returned to the roots in the shape of manure, the trees keep fruitful and healthy. I have seen some of the most moss-grown, miserable specimens of starved orchards restored to fruitful condition by making the ground beneath them the winter quarters of sheep and pigs, feeding them at the same time as if they were in the farmyard with roots and corn.

The finest old specimens of apple and pear trees are generally those in an orchard next to the homestead that is used as a run for calves, sheep, pigs and poultry, the whole year round. In these orchards the turf is short, and being full of nutriment the trees keep healthy and prolific for an indefinite period. Ashes, garden refuse, or any kind of road scrapings, or even scavengers' rubbish, may be utilized for increasing our supply of orchard fruits. They should be spread roughly on the surface in winter, and in spring burrowed and rolled down firmly. The result will soon be a marked improvement in the size and quality of the crop. Difference of opinion prevails as to pruning or nonpruning trees, some adopting one system and some another; but, be that as it may, I never knew fruit trees continue to yield good crops for any length of time unless the roots were supplied with manure in some form or other.—Cor. London Garden.

A Stingy Man

Talking about stingy men," said the conductor of a Pullman car, as he sat in the smoking-room while the porter was doing the work, "the worst specimen I ever saw, came out of Detroit the other night. His wife, a great woman, was with him, and they took seats in the ordinary coach. Pretty soon he came back, selected a berth—a single upper—and then went back to his wife. Pretty soon he returned and went to bed alone. About an hour after this I was going through the train when the fat woman stopped me and wanted to know if I had any empty berths. I told her there were plenty of them, when she brought her lips together like a vise and clenched her hands as she said: 'I thought as much. Here, take my bag with you, and make me up the best section you have. I'll be back as soon as the train stops again.' You see that selfishness of a husband of hers had told her there wasn't an empty berth left, but he had found a chance to share a bunk with an acquaintance. He was the maddest man you ever saw next morning, when he had to hand over five dollars for her night's rest, in addition to the \$2.50 he had paid for his own. He gave the porter only two cents for shining his shoes, and scolded so the porter didn't dare kick for more. Oh, but he was a tough one."

Manuring Fruit Trees.

In summer, when the ground is dry, our wayward winds impressing it with what is most—what we should buy—Light caliche is a blessing. But, when the rain descends, and mud impedes promatulation. We need a boot both strong and good To reach our destination. Go to Dean & Huntington's—They will fit and please you; They keep every thing; From stout boots for winter; To light ones for spring.

FEED AND LIVELY STABLE

R. E. BUCK, Prop.
Coquille City, Ogn.
Hauling Done at Reasonable Rates. v1111f

J. P. HALL, Surveyor.

For COOS COUNTY, OREGON.
Office: With T. G. Owen, Esq., Marshfield.
Perfect maps of all surveyed and entered lands furnished on short notice. v1111f

A BARGAIN!

We have the selling of a half section of land, half beach and half of Coquille land near Coquille City. It would make a half dozen good little ranches, or a good dairy and stock ranch. The price is \$250 per acre.

City Brewery,

G. MEHL, Prop.
Coquille City, Oregon.
Orders promptly filled.
Please return kegs promptly after being emptied. v2111f

ROBINSON HOUSE,

COQUILLE CITY, OGN.
HAS
Recently been furnished with spring beds and other conveniences for the benefit of the traveling public.
Meals at all hours
25 CENTS.
BULLARD & DRANE, Props. v2111f

CITY DRUG STORE!

COQUILLE CITY OGN.
Dr. E. L. BARNHART
PROPRIETOR.
Dealer in drugs, medicines, chemicals etc. of the best quality, and all the time receiving fresh, everything usually found in a first-class medical dispensary. Prescriptions carefully compounded. v2111f

Bandon Hotel

(Bandon, Coos Co., Or.)
M. E. ANDERSON,
Proprietor.
This house has been elegantly furnished, and is at once the home of the tourist. The house is of easy access to the steamer landing. The table is supplied with best the market affords, and no pains spared to render comfort to guests. v2111f

DON'T READ THIS--DON'T

If you do, you will call at the wholesale and retail.
Gigar and Tobacco Store
OF
F. P. NORTON, Marshfield.
Where I sell goods at San Francisco prices. I will say to the public—those wishing job lots of cigars, that they can buy of me cheaper than they can from the city. Please give me a call before buying elsewhere. v2111f

STILL AHEAD!

AND DON'T YOU FORGET IT.
The people of the Coquille river should bear in mind, that as good Photographs as can be obtained on the Pacific coast, are made by G. H. RANSDELL, of Myrtle Point. Will soon have completed a floating ART PALACE
With which will visit every point on the river between Myrtle Point and Bandon, and be prepared to do San Francisco prices. Will be fully prepared to make Pictures in all styles known to the art, from the smallest Gem to a Photograph 17 x 27 inches. All he asks is for people to compare his work with that of others.
Mr. R. has become a permanent citizen of Coos County, and it is to the interest of the people to patronize home industry and thereby keep the money in the country. v2111f

NOTICE OF PUBLICATION.

Land Office at Roseburg, Oregon, August 22, 1884.
Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the County Clerk of Coos county at Empire City, Oregon, on Friday, November 7th, 1884, viz: Amos S. Masters' Pre-emption D. S. No. 4442 for the S W 1/4 of N E 1/4, S 1/2 of N W 1/4 and N W 1/4 of S E 1/4, Sec. 3 T 20 S R 12 W.
