Lou Drew, five-year-old daughter of D. Drew of this place, fell from a woodshed Sunday evening, which came near proving fatal. She sustained bad bruises and cuts about the head and face.

In the one mile dash race at the state fair Repetta entered by C. J. Matlock of Pendleton won easy by a length. Repetta is a half-sister to a colt owned by W. A. Dozier of this place—the finest colt we believe there is in Southwestern Oregon.

Drs. Downing and Leneve have had a very complicated case of obstetrics at Mr. Dozier's. The child 2½ feet in length and weighing 14 lbs, died in birth. Mrs. D. is alive and improving, but not out of danger.

"My daughter has taken the medicine faithfully, according to directions, and her health and spirits are now perfect. The humor is all gone from her face. I wish every anxious mother might know what a blessing Ayer's Sarsaparilla is in such cases."

J. M. Arrington has sold his interest in the stage line between this place and the bay to his partner, Fred Jarvis, for \$800. Mr. A. is going into the mercantile business in the postoffice building in Marshfield. May success attend him.

A drunken woman attracted all the howling curs in Marshfield the other night, while they paid no attention to a number of intoxicated men, and the Mail concludes that the dogs thought the woman was "off" while the men were in their normal condition.

Mr. Valentine Gant called on us Thursday. He informs us that he is about purchasing more land in Tulare county, Cal., but that he will likely reside here most of the time, owing to his having better health here and to our pleasant climate. We should be sorry, indeed, to lose him.

The steamer Ceres had the misfortune to sink at her moorings at Norway last Tuesday night. At 10 o'clock she was all right and no cause is given. From what we can learn the boat was not leaking. A delay of two days was the result of the mishap, and the boat was again on her route, as good as ever.

Sufferers from the effects of quinine, used as a remedy for chills and fever, should try Ayer's Ague Cure, a powerful tonic bitter, wholly vegetable, without a particle of any noxious drug. The late lynchings all over the country of murderers and thieves, and intimidating and driving out of Chinese, exemplifies the natural results of laxity in courts, and non-observance of existing laws of the country. Until we can punish a Sprockles and enforce a plain statute it will ever be thus.

What ever else may be said of Portland capitalists they have lately shown a disposition to develop the black sand mines of this part of the coast. For years none but San Francisco men paid any attention to Coos county, and to-day nine-tenths of the business is done by non-residents of the state, but then we are pleased that Portland's business men have found out that there is such a place as Coos county.

Bad luck—One of the bachelors at the "hall" had an unlucky day last Wednesday, as one of his horses was drowned in the river just above town. It seems the animal (which was running in pasture) had gone down to get a drink at a place where the bank was very steep, and had slipped into the stream, and was unable to regain a footing on the bank, was drowned. The owner, Mr. T. V. Nichols, arrived just too late to save it.

Mr. Lawrence, the carpenter, who worked for D. Linn of Jacksonville, shot himself in the head with a pistol on Tuesday night and died Wednesday. Phleidealer.

A Card of Thanks.

The citizens of Coquille City will please accept our heart-felt thanks for their kindness shown us during my wife's sickness during the past two days. Words cannot express my gratefulness toward Drs. Leneve and Downing, in whose hands none need fear in the most complicated cases, where human efforts are possible to relieve.

W. A. Dozier.

Card of Thanks.

I wish to return my sincere thanks to the S. W. O. A. society for kindnesses shown me at the late fair, where I had the misfortune of getting my shoulder broken, also for other valuable considerations for which I shall ever feel grateful. And especially do I feel grateful to all connected with the Olive hotel in Coquille City. Their kind care and that of Mr. W. A. Welsh is such that I can never forget.

Yours gratefully,
 T. W. Crook.

 At Blanco Drug Store, Marshfield. n6 3m

A country had of probably forty summers called at our city market a few days ago for the purpose of selling some beef. The shop was presided over by a temporary hand, who thought he was not vested with power to buy, and so informed the vender, whereupon the latter, to initiate the shopman further in the mysteries of butchery, gave him a stunner in the left ear that shook the shop from center to circumference. This was enough, and in less time than it takes us to write it, the country gentleman had changed base about three times, and while begging to be let alone seemed to be possessed with the idea that the streets of Coquille City needed plowing and was using his nose for that purpose. He did not sell his beef.

Private advices from San Francisco, just received from a gentleman formerly a resident of Curry, are to the effect that the outlook for a railroad connecting with the valley is more favorable now than at any previous period; that a foreign association of minded men are interested in the matter, that the scheme is being diligently and intelligently worked up by a gentleman familiar with the proposed route; and that parties deeply interested in the outcome of Port Orford, (whose names we are not at liberty to mention) are assisting in its consummation with good effect. —S. W. O. Recorder.

Commentated.

ED. HERALD:—While we do not question the right every man has to consult his own interests in every branch of business that he follows, yet the question comes to our mind: Is it morally right to shut our eyes to all other interests but our own? Sacrifice every other object save self-interest? Now right here we wish to say, that while any community has, in the ascendancy, the above state of affairs, it is a draw back—not only to its own inhabitants, but to every person over which it exerts an influence, and all who may seek homes in such neighborhoods are compelled to leave in disgust, effecting injury on themselves, and on all left behind. Mark well what we say, and watch the consequences.

Coming, Coming, Coming!!!
COQUILLE CITY!

The coming Town of S. W. Oregon!

Few towns possess the natural advantages that Coquille enjoys, and which will, in the near future, cause it to blossom as the rose. It has a beautiful and pleasant site, being situated, for the most part, on a level plateau on the sunny side of the Coquille River, thirty miles from the Pacific coast, which is reached every day by a four-hours' steamer ride. Coquille City is at the center of the converging wagon road system of Coos County, and is at the head of deep-water navigation, and in the central part of a vast body of rich, river bottom land, which is the source of all true and enduring prosperity. The country round about is filled with precious metals, minerals and coal to an unparalleled extent, and is covered with a variety of timber that for quantity and quality is not excelled by that of any place on the Coast, if, indeed, equaled. As a dairying and stock-raising country, and a sanitarium for those seeking health it is bound to come to the front rank. The fishing industry will prove an important factor, while the numerous mills and factories, completed, in course of construction, and contemplated, will make the whole county a buzzing hive of industry and wealth. Coquille City is in the center; is the most eligible and will enjoy all. Its school, church, and society advantages are second to none in the county. Building material is cheaper at this point than at any other in the county. It has the advantages of a corporation, and is to soon have a mountain stream of water run through it for protection against fire. Property reasonable.
