

CHURCH DIRECTORY.

Methodist services, by Rev. T. P. Haynes are held as follows: First Sabbath at North Fork 11 A. M. 2nd " " Lampey creek " " 3rd " " Fish Trnp " " 4th " " Coquille City " "

LOCAL ITEMS.

Mrs. A. G. Aiken is much improved.

The democrats are highly elated over last Tuesday's elections.

The HERALD office is not strictly designed for a smoking room.

The band has postponed its entertainment to New Year's eve.

D. T. Edmunds' school at Halls prairie begins next Monday, Nov. 16.

Ed. Weekly was in town yesterday looking out for absconding logs.

Sheriff Hacker put in the day Saturday collecting taxes at this place.

Clinton's camp closed down Saturday and his hands were in town yesterday.

The Annie broke her wheel rope here Sunday morning, and had some difficulty in landing.

Johnny Snyder's pleasant countenance was noticeable on the landing of the Annie Sunday morning.

George T. Moulton is A. L. Nosler's efficient clerk. George is a good salesman, and every body likes him.

President Cleveland has issued his Thanksgiving proclamation, and Thursday November 26th is set apart for prayer and thanksgiving.

Have you seen the November West Shore. We have not had time to read a word in it but the lithographs are worth the year's subscription.

Sheriff Hacker, accompanied by A. A. Lord, of Empire, passed through town last week in a fine lively rig. The former is collecting taxes, and the latter probably hunting a wife.

The following are local paragraphs from last week's Plaindealer: "Above the clouds," drummers are numerous, tramps are troublesome, business is good, more rain needed.

His friends were sorry to hear that Uncle Sam Dement, who is visiting California, was not expected to live a few days ago. One who has delicate health here has no business elsewhere.

The closing down for this season of the cannery last week was hard on the Chinese who had come only a few days before. It is to be hoped that white men will hereafter be employed altogether.

Several communications have to go over to next week. By some means several come down the river yesterday that could have come up the river last Saturday.

For nearly a week, with the exception of Sunday, it has rained most of the time. On Saturday the tide ran up a little while, but since that time there has been considerable freshet, the water running over the river banks in the lower places.

John Engleman, of Crescent City, California, has been in town a few days. He is looking for a location for business, we understand. He formerly lived here, and when a boy attended school at this place, Mrs. I. Hacker, wife of our worthy sheriff, being teacher.

J. A. Lyons, son of our mill owner, has been busy the past week in arranging a good lot of merchandise in the store of W. H. Carothers. He has other goods coming, and intends keeping, constantly, a good stock of general merchandise. His prices are very low. Call and see him.

If the price of salmon quoted by the Mail to be found elsewhere in this paper, is correct—and we believe the figures are correct—the two men who caught 150 barrels during the fishing season, of a little over two months, will get about a thousand dollars for their fish. It would seem from this that putting up fish in this way is not so unprofitable as many pretend.

Geo. McEwan's baby has been pretty sick for a few days but is better.

Mrs. Elliott had a sister from Kansas to come to see her a few days ago.

Miss Georgia Parker, of Parkersburg, is attending Prof. Miller's commercial college at this place.

R. H. Rosa was in town Sunday, and if his tongue had been run by a crank it would have got more rest.

The Myrtle Point brass band has decided to give a grand ball on Christmas night. Further notice hereafter.

A Large lot of Iron, Crockery, Terra cotta pipe, etc., etc, just received at the PIONEER HARDWARE STORE.

Frank Bunch and his two sisters, Miss Alice and Miss May, left this place last Tuesday to attend a Portland college.

Grass is growing splendidly here now, though it is getting cold in many other parts. Several states have had snow already.

J. A. Gray's lecture here Thursday night was a treat. As he was compelled to be at home on Saturday night, he failed to go to Myrtle Point.

The hard rains of the past few days caused the roads to pack—and put them in good condition for this season of the year. Travel will cut them up in a few days.

Joseph Johnson has purchased Jesse Leneve's butchering business in this place. He intends keeping a good stock of meat on hand. Give him your orders.

Avoid the harsh, irritating, gripping compounds so often sold as purgative medicines, and correct the irregularities of the bowels by the use of Ayer's Cathartic Pills, which are gentle, yet searching, in their action.

As a purifier, Ayer's Sarsaparilla acts directly and promptly. A single bottle will prove its merits. Many thousands of people are yearly saved from dangerous fevers by the exercise of a little timely care in cleansing the system by the use of this remedy.

Result of the Late Elections. New York elects Hill (democrat) for governor by about 11,000 plurality. The state legislature is republican on joint ballot by a majority of 36, in a total vote of 160.

In New Jersey the republicans have a majority of five in the senate, and four in the assembly, making a majority of nine on joint ballot.

In Connecticut the republicans have a majority of 12 on joint ballot, a republican loss of 71.

In Virginia Lee (democrat) is elected governor by about 25,000 majority. As far as reported the legislature is heavily democratic, that party having 62 out of 100 members of the house, and 23 out of 40 in the senate. Counties to be heard from will probably increase these majorities.

In Massachusetts Robinson (republican) is elected governor by a plurality of about 22,000. The World claims that the democrats gain fifteen members in the house and seven in the senate.

In Maryland the democratic state ticket is elected by about 30,000. The legislature will stand about as follows: Senate, republicans 6, democrats 20; house, republicans 16, democrats 101. Democratic majority on joint ballot, 99. A democrat will be the successor of United States Senator Gorman.

In Pennsylvania Quay (republican) for state treasurer, the only state officer voted on, is elected by probably over 35,000. All the changes in figures in that state show republican gains.

OUR NEIGHBORS.

Salt salmon were selling in San Francisco last week at \$6 @ \$7 for barrels and \$3.50 @ \$4 for half barrels.

Among the freight carried away by the steamer Coos Bay this week were 105 tons of coal from the Henryville mine, about 40 cords of

firewood, 200 barrels of salt salmon, and some stave bolts from Empire.

The officers of the steamer Coos Bay say the coal from the Henryville mine is far superior for steam purposes to any other coal yet used on that vessel. The round trip between this place and San Francisco is now made with from 38 to 40 tons of Henryville coal, whereas from 55 to 60 tons of other coal was formerly consumed. The demand for Henryville coal at San Francisco is said to greatly exceed the supply. This should stimulate the opening of the mine to its full capacity as speedily as possible.

At San Francisco extra choice California eggs are selling at 40 @ 41c; choice, 37 1/2 @ 39c; fair, 25 @ 30c; Utah, 32 1/2 @ 34c; eastern, 20 @ 25c, per dozen. Oregon is not quoted, because we cannot keep the home market supplied, and import instead of exporting eggs, yet we have an excellent climate for poultry of all descriptions.

[Gold Beach Gazette.]

Ira Dell Bray has returned from the mountains, and reports his summer's prospecting as follows: Three distinct ledges discovered, that will assay \$20 gold, \$5 in silver, surface rock. One lead assays \$30 in gold and \$6 in silver.

Fall fishing is over, the fishermen all being discharged on Tuesday. The cannery was shut down on Wednesday. The run of fish has not been so large as usual.

Fishing is in progress at Smith river and Chetco.

DIED.—Near Coquille City, Sunday morning, November 8th, James P. Schweers, aged 24 years, 7 months and one day.

James was a noble young man, loved by all who knew him—generous, kind and true. He has lived, since he was a small boy, in this community, and no one can charge him with a dishonorable act. He leaves a mother, brother and sister, who have the sympathy of the whole community in their sad bereavement. The funeral took place from his mother's residence, two miles north of town, at half past three o'clock yesterday afternoon, under the auspices of the Good Templar's lodge of this place of which he was a devout member.

ODDS AND ENDS.

Observances of the Man about town

DESERVED.—The bachelors' hall is almost deserted, as Mr. H. H. Nichols and family moved into a house one block north, and with him went nearly all that constituted bachelors' hall, as but two of the old grizzlies remain at the old unpainted "hall." Only two weeks of feminine rule, with white table fixtures, pleasant chat, bright eyes, white aprons, and all that goes to make up home, and now to be obliged to again resume tin plates, oyster-can cups, cheerless damp rooms on coming in from business, is almost too much, and the two old pickled crabapples left are almost sorry that they set so high a price on themselves, during their youthful days, as to prohibit sale in the feminine market. Should the old dried-herring appearance about the hall become unbearable, as it is quite likely to, for it seems to have been vastly enlarged and revised since the ladies moved, there is no knowing what the result will be, but we desist; the subject is too painful for contemplation.

STILL THEY COME.—A Kight was seen during the first of the week floating around over the streets of this city, and finally settled down in a small house not very far from the school house, and as this Kight has something of a retinue in his train, this will be quite handy. As he is a mechanic, and has come to stay, let us try and welcome him in a substantial way, if we have anything to do that falls in the line of his business.

SIGNIFICANT FACT.—We learn from good authority, that during the month of October, that there were nine more passengers over the road from Fairview, than during the other eleven months of the past year.

In Memoriam.

The spirit of little Floyd, son of Maggie and Jesse G. Bellin, of Angora, took its flight to the land where parting is no more, Oct. 23, 1885. Aged one year, nine months and nineteen days.

Little Floyd was so loving that he was the light and life of his home. The dearest child on earth.

One little plant just blooming fair, Could not stand the storm; Christ who loved him with a love so rare, Changed him to an angel form.

It was hard to give him up. No one who has not had the trial of it can realize how sad it is to go home and find a vacant place in the once happy family fireside circle. Parents do not mourn, for your little darling is not lost but only gone before.

Why then mourn for your precious darling? For he is so happy over there, And is waiting for the dear ones, In that land so bright and fair.

A Surprise Party. I dreamed—but that is nothing new; I've often dreamed before; An army unanimously grew, And made a dreadful roar.

I woke—what did my eyes behold? Great Scott! no vision there; This army was, with hunger bold, A multitude of fleas.

BORN.

At Marshfield, Oct. 31, to the wife of G. A. Bennett, a son.

Brother Gus, you have our congratulations; but to Master Mark Bennett we cannot say so much. You will be called all sorts of impious names before you reach your father's big editorial chair. We however, hope you may live to celebrate a hundred times, the occurrence of Halloween.

Fragrant for autograph album. How grand are the bold lofty mountains; How sublime the volcano's fire; Put to sip at the source of love's fountains, Is something we all most admire.

How refreshing the sweet scented rose is; How charming the clear, silent brook; But the pleasure's enhanced which encloses My name in this beautiful book.

Le Gareon.
