 A new lot of goods were received on the schooner which arrived last night, at Lyon's store, this place.
 Johnson and Rose, the market men, are daily receiving the finest of fresh meats. Give them your orders.
 The blue and the gray were to have observed Decoration day jointly yesterday at Little Rock, Arkansas.
 A Jacksonville, Ill., man has been sent to the penitentiary for 10 years for choking to death with a rope, his new born babe.
 Prof. D. L. Rood, of Newport, came over Saturday ostensibly on equine matters, but really, we think, on an electioneering lay-out.
 Mrs. Sall has been quite sick for several days from exposure, but is much better. She is at her father's, Mr. Knight, three miles below town.
 C. W. Hamlin, formerly of this place, had one of his feet badly crushed a few days ago at Tacoma, W. T. He was preparing to return here.
 Work is being done on the road leading up the river, and a bridge is to be put in just south of town near Chas. Collier's place. This is as it should be.
 Those who have superstitious notions about the finding of four-leaf clover, would doubtless go off at a tangent on the finding of seven-leaf clover, as did Mrs. S. S. McAdams a few days ago.
 Rev. J. C. Bunch returned from East Portland on Friday where he has been attending an Advent camp-meeting. His son Frank, who has been attending school there the past winter, returned with him.
 Barnett Owen, lately from Umatilla county, had the misfortune to get caught between two logs at Clinton's logging camp last Wednesday, and severely jammed, and had an ugly cut in his right leg. He is getting along nicely under the care of Dr. Leneve.
 S. A. Bennett, Johnny Scott, Chas. Wickham and Cash Goodman were up Saturday from Parkersburg and reported the mill shut down for ten days, while a change has been thoroughly advertised. The stage makes but one trip per day, leaving Utter City in the morning connects with the steamers at Coquille City at noon, and returns to Utter City in the evening.
 The candidates who have been "swirling round the circle," will probably wind up their grand march at Empire during court week. Some of them look flushed as if victory had already perched upon their banners; others bear a weary, careworn, dissatisfied expression, and look as though they had abandoned all hope, and with forced resignation, were awaiting the departure of the Salt river transport, in which they have already engaged passage.
 Among familiar faces we noticed that of Dr. Elgin in town Sunday. Circuit court is now in session, and Judge Bean is disposing of the business on hand with his customary dispatch.
 The schools being taught at Roy's school house and Halls prairie, by Miss Dewey and Mr. Thresher, respectively, are progressing in good shape.
 C. G. White of this place, started for California the latter part of last week, where he will remain the coming summer. His family remains here.

 Ayer's Sarsaparilla is a highly concentrated extract of Sarsaparilla and other blood purifying roots, combined with Iodide of Potassium and Iron. Its control over scrofulous diseases is unequalled by any other medicine.
 Mr. Hatch, of Ferndale, Humboldt county, Cal., accompanied with two other Humboldt's was looking at various parts of the river last week with a view to purchasing places. They were greatly pleased with this part and will come back and settle.
 Backache, stitches in the side, inflation and soreness of the bowels, are symptoms of a disordered state of the digestive and assimilative organs, which can be corrected by the use of Ayer's Cathartic Pills. As dinner pills, and aids to digestion they have no equal. They cure constipation.
 Harry Roberts is preparing to put in another brick kiln this summer. He will soon be ready to start work. We are informed that Sol McClosky and J. A. Waller are also preparing to make a kiln at Norway, and D. Giles another on Catechen creek. This would indicate that we will be able to get any amount of building material.
 Hon. J. H. Mitchell has our thanks for a copy of his able and aggressive speech on the Chinese immigration question delivered before the U. S. senate on April 28. It ought to put to shame those New York petitioners, who were urging the same protection and encouragement to come here that are extended to other foreigners, the speech being a reply to their memorial.
 Mr. Grant, a late arrival from Ohio, is engineer on Mr. Pegert's pile driver. He went down the coast on his arrival here, to see his cousin, J. A. Laughhead, when Mr. P. learned he was a first class engineer and sent for him. Mr. Grant has a patent of his own invention for moulding brick, a cut of which we have seen, that is certainly one of the greatest labor-saving machines out.
 Mr. C. W. Von Pegert, of Randolph, was doing the town last Saturday. He has just completed Persbaker's mill boom, which is said to be the best in the county. The boom timbers are as long as 136 feet, and some four feet in diameter. Mr. P. will probably be here this week, filling up a gap in the boom above Lyon's mill, after which he will go home and put in a boom at his own mill.
 The changes on the Coos Bay and Coquille City stage route, will be a source of inconvenience to the traveling public, and many disappointments will result until the change has been thoroughly advertised.  The candidates who have been "swirling round the circle," will probably wind up their grand march at Empire during court week. Some of them look flushed as if victory had already perched upon their banners; others bear a weary, careworn, dissatisfied expression, and look as though they had abandoned all hope, and with forced resignation, were awaiting the departure of the Salt river transport, in which they have already engaged passage.

 The sadly neglected appearance of our cemeteries must have been apparent to all yesterday during decoration exercises. Let us appoint a day and put the homes of our deceased friends in a respectable shape.
 Wm. Perkins, Jr., of Randolph, was up Saturday to consult a doctor, he index finger on his right hand having alarmed by him a gradual paralysis. For some time it has been becoming palsied till he has no use of it whatever. Not being at all sore, it is a singular case.
 A drunken row occurred in this place Saturday afternoon. The parties were fined \$5 and costs, each, which they paid. Mr. S. P. C. Johnson, our new marshal, got there in good shape. In capturing one of the parties he had to make a long chase, but he made it. He is rather too fat and we advise him to get a horse.
 The observances of Decoration day yesterday were grand, every body turning out to make it so. The speakers never did so well, and the band did its part in a very creditable manner. The procession numbered upwards of 300 people. Our limited space will not allow an extended notice, but next week we will give it due notice.
 Messrs. C. W. Von Pegert and Wm. Lyons will lay the keel in about two months for a steam schooner to run to this river. She will have a double screw, and will be 160 feet keel and 32 feet beam, drawing seven feet of water. This will be hailed with joy by the people of this river, who will give the boat a liberal patronage. Mr. Von Pegert is the right man for the undertaking; he never lets up when he once undertakes a thing.
 Just now the people of the bay are particularly favored in the matter of amusements. On Thursday evening last, the people of Empire City were treated to an entertainment gotten up for the benefit of the Sunday school. On Saturday evening, the Amphion Troupe gave an operatic entertainment, at Marshfield, for the benefit of the school house. Both were well patronized, which proves that times are not so hard but that people can spare money to spend in other ways aside from actual necessities.

 A new company has been organized, consisting of Geo. Forgy and Alf. Gaultlett, known as the Humboldt Commercial company, for the purpose of gathering the eggs of sea birds, from the rocks off Humboldt mountain. The tug Polheim took the company to the rocks last week, but after remaining a couple of days, it was decided that the egg season had not yet developed, and all hands returned to the river. Only a few dozen eggs were procured, although thousands of birds known as the Murr, so plentiful at the Fern Leone Islands, have located at these rocks.
Chinese Senators.
 Washington May 23.—The bill heretofore reported by Sherman, on Foreign Relations, supplementary to and amendatory of the Chinese immigration bill of 1884, was taken up.
 Hear opposed the bill. He said it was legislation aimed at men because they were laborers and belonged to a certain race, which was against the fundamental principles of this republic.
 Sherman said one who had watched the course of affairs on the Pacific Coast must come to the conclusion that it was the best and wisest plan not to open the doors to a race wholly different in every way characteristic of civilization. He was not sure but what some exclusion of other immigrants equally bad must eventually come for the sake of the American nation.
 Ingalls opposed the bill. He said it was a disgrace to the American nation, and would not pass without some debate.
 Teller said if the senator from Kansas supposed the advocates of the bill were afraid to discuss it, he did not understand their temper.
 The bill was postponed to a future day.
