

Our President, Mr. Cleveland Married to Miss Fulsom.

Washington, June 2.—Miss Folsom arrived safely in Washington shortly after 5:30 this morning, and was met by Col. Lamont. There were very few persons in the Baltimore & Ohio depot when the train arrived, although it was broad daylight. The train was composed of four cars and President Robert's private car, the latter being occupied by Miss Folsom and party. While Col. Lamont was hurrying down the platform, Benjamin Folsom stepped out on the rear end of the car. He was dressed in a mixed suit of brown, with a white derby, and carried a white spring overcoat on his arm. Miss Folsom presently alighted. She was dressed in black, and wore a wrap of the same color to protect her from the morning air, with a stylish hat trimmed with white and black ribbons, and black kid gloves. She is of medium size, and her manner shy and restless. She was escorted by Col. Lamont to a carriage, and driven direct to the White House with Mrs. Folsom who was dressed in black and looked a little tired, and Mrs. Rodgers, of Syracuse. There was a little delay owing to the number of English looking hat boxes and shawl straps and other bundles, which had to be looked after. There was a slight mist falling when the train arrived. Later on the clouds broke away, and there is every prospect now of fine weather.

The White House is entirely closed to visitors to-day, and the usual afternoon reception by the president is omitted. Several express wagons unloaded numerous packages of various sizes at the main entrance, and were at once removed from sight. Some were addressed to the president, some to Miss Folsom, some to Col. Lamont and one to Mrs. Grover Cleveland. Most of them are probably wedding presents.

Promptly at 7 o'clock the president, with Miss Folsom leaning upon his arm, entered through the northern doorway, and advanced toward the center of the oval-shaped blue room, and there stood facing the ground of palms, ferns and flowers. Dr. Sunderland, assisted by the president's brother, Rev. Wm. Cleveland, stood facing the bride and groom.

THE INVITED GUESTS.

Who witnessed the ceremony were Mrs. Folsom, mother of the bride, Rev. Wm. Cleveland, Mrs. Hoyt, Miss Cleveland, Secretaries Bayard, Manning, Endicott, Whitney, Post-master-General Vilas and their wives. Secretary Lamar, Lamont and wife, Benjamin Folsom, Mr. and Mrs. Rogers of Seneca Falls, N. Y., Mrs. Carman and Miss Huddleston, of Detroit, Mr. and Mrs. Harmon, of Boston, Miss Nelson of New York, and Mrs. Rissel, wife of the president's former law partner.

Immediately after the entrance, Dr. Sunderland advanced and proceeded with the marriage ceremony. After prayer, Dr. Sunderland made a brief address, after which bride and groom joined hands and the usual questions were asked and responded to. The president then placed the wedding ring upon the bride's finger. Dr. Sunderland pronounced his sanction, concluding with benediction.

Mrs. Folsom was first to congratulate her daughter and son-in-law, and congratulations from others quickly followed.

The company soon afterward repaired to the family dining room, the president and his bride leading.

The president was attired in a full evening dress suit, with turn down collar, plain white lawn necktie, enamelled shirt studs and cuff buttons to match.

The bride wore an enchanting dress of ivory satin. Excepting the engagement ring, a sapphire

with two diamonds and a simple wedding ring, the bride wore no jewelry whatever.

The guests were exquisitely attired, some with diamond ornaments. The Marine band, at proper intervals, discoursed sweet strains.

The decorations in the Executive Mansion, with the exception of the blue room, were similar to those used on the occasions of state or private receptions. The florist's art was mainly exercised in the blue room, where the decorations on every side were of the most elaborate nature. The main table decorations in the wedding supper room was a full rigged ship composed of pinks, centameas, egara, delphiniums, roses and pansies, bearing the name "Hymen." It rested upon a mirror, representing a lake, which gave it the appearance of a floating ship. It was a three-master. Flying on the center spar was the United States flag, while the other two carried white flags with the monogram "C. F." wrought in gold.

The president's gift to the bride was an elegant diamond necklace with stones in the gold and extending all round the neck. A large number of presents were received at the president's mansion to-day. Members of the Cabinet gave individual presents. Some of them were quite elaborate. In accordance with the special desire of the president, a list of the presents will not be made public.

During the progress of the ceremony salutes were fired, bells were rung and Mendelssohn's Wedding March and other appropriate selections were played on chimes of bells in the Metropolitan Church.

Soon after partaking of the wedding supper the president and his bride excused themselves, quietly entered a carriage and were driven rapidly to a special train in waiting on the Baltimore & Ohio road. They at once entered President Garrett's Boudoir car, "My Maryland," and at 9:50 p. m. left for Deer Park where for the remainder of the week they will occupy a cottage specially fitted for their accommodation near Deer Park hotel.

The only invited guests who were not present were Miss Bayard and Attorney-General Garland.

Previous to leaving the president directed Sec. Lamont to have all the cut flowers used in decorating the mansion distributed among the city hospitals.

Cumberland, Md., June 2.—A special train bearing President Cleveland and his bride passed through here at 2 o'clock this morning.

For unmitigated cheek the American Congress takes the cake. That grand body is now all "fried" up because the executive has refused to give his signature to some pension bills after he had been refused evidence of the justice of the claims. They seem to think it is none of the president's business so long as the committee is satisfied. In this the president would be a machine on the automatic principle indeed. The very idea of his signature being required is evidence that he should know and judge of the merits of the documents he has to sign.

A San Francisco dispatch says the local sugar market is an enigma, but the author of the assertion is doubtless ignorant of the probable action of congress on the Hawaiian reciprocity treaty. Only a few weeks ago we read a private letter saying that old Spreckles was in Sandwich islands making the local planters come out with money to defeat any legislation on the treaty. Soon after this, we saw by the press that he was ready at Washington for a big fight. His tracks have been visible ever since that time. A few days ago San Francisco was flooded with island sugar, and now the word comes that the price there was never so low before. It is all too thin. Congressmen who would be influenced by such stuff need not have such bait as this; they could be bought for \$25, and this would have been a cheaper route to reach them.

GENERAL NEWS.

John Kelly, the Tammany boss is dead.

Dayton, (W. T.) is building a new court house.

The special tax on oleomargarine makers will be \$600. It ought to be \$6000, at least.

The recent boiler maker's strike in San Francisco, did not raise much of a din; they are so addicted to it.

In Washington Territory saloons have to keep a list of all habitual drunkards. The list is small, or would be for Oregon.

On the 16th inst. there will be a line of clipper ships put on between the Pacific terminus of the Canadian Pacific and Yokohama.

The war on passenger and freight traffic has been renewed, and while the rates has not got so low as they were, the prices to and from San Francisco with the east are reasonable.

The Presse, the organ of Count Von Taaffe president of the council, says: "Russia may well count the number of her enemies before thinking of war with Turkey."—Ah! Taffie(y).

Some extensive California wine companies are treating their wine to the lightning or electric magnetic induction process. If it will compare with some modern whisky, it is to be hoped they will run the business single gared.

Dr. Bowers, the San Francisco wife murderer, has been sentenced to be hanged. To this he objects, and prefers to be put on slow poison—phosphorous—to show that the symptoms are different from those of his wife who, it is claimed, he poisoned with that drug.

Honey Crop.

Los Angeles, May 31.—The honey crop of Los Angeles county is estimated at nearly a thousand tons, according to the best posted apiarists, and unless some calamity interferes the wine and raisin crops will likewise be very large.

Levante.

San Francisco, May 31.—Captain J. B. Fairfield, who went on a yacht race on the 16th inst., has not been seen since. It is generally believed that he lost heavily on the race and shipped for a foreign port.

Ballooning.

San Francisco, May 31.—The great balloon trip across the continent was abandoned this morning, and the gas was let out of the balloon. No reason was given.

Oleomargarine Bill Passed the House.

Washington, June 3.—The oleomargarine bill passed the house to-day by a vote of 177 to 101. It imposes a special tax on manufacturers of \$600; on wholesale dealers of \$480; or retail dealers \$48 per year. Provisions are also made for the proper stamping and labeling of every package of oleomargarine. A penalty is prescribed for the purchase or reception for sale of oleomargarine which is not branded.

Convention of Knights.

Cleveland, May 31.—At the morning session of the Knights of Labor it was resolved to appoint and send to Washington a special committee of three to look after the labor legislation now pending in congress.

The committee on legislation presented the following proposition in the nature of a demand on congress, which was ratified by the convention:

First—That patents to the public land be given to actual settlers only.

Second—That all land owned by individuals or corporations in excess of 160 acres, whether improved or unimproved, be taxed full value of improved lands.

Third—Calling for the immediate forfeiture of all land grants if the conditions of the grant have not been complied with.

Fourth—Asking that patents on land where the conditions have been complied with, be issued forthwith, and that taxation take effect at once.

Fifth—Calling for the removal of fences from the public domain.

Sixth—That after 1890 the Government, by purchase or by right of eminent domain obtain possession of all lands now held by aliens.

Seventh—That after 1886, aliens shall be prohibited from acquiring land.

Eighth—Asking for the abolition of all laws requiring property qualifications of voters.

Ninth—Requesting the passage of a law levying a graduated income tax.

Tenth—Protesting against the cutting down of appropriations for labor bureaus.

Eleventh—Asking for the passage of bills approved by the congressional labor committee.

Twelfth—Asking for the passage of a law prohibiting the employment in mines, shops and factories of minors for more than eight hours per day. In this connection the following resolution was adopted:

Resolved, that we will hold responsible at the ballot box all members of congress who neglect or refrain from voting in compliance with these demands.

The committee on strikes and boycotts presented a report recommending all authority to order boycotts and strikes be invested in a committee.

As the hour for noon recess had already arrived, the report was laid over until the evening. At 1 o'clock recess was taken.

Surface Indications

What a miser would very properly term "surface indications" of what is beneath, are the Pimples, Sties, Sore Eyes, Boils, and Cutaneous Eruptions with which people are annoyed in spring and early summer. The effluvia accumulated during the winter months, now makes its presence felt, through Nature's endeavors to expel from the system. While it remains, it is a poison that festers in the blood and may develop into Scrofula. This condition causes derangement of the digestive and assimilatory organs, with a feeling of emaciation, languor, and weariness—often lightly spoken of as "only spring fever." These are evidences that Nature is not able, unaided, to throw off the corrupt atoms which weaken the vital forces. To regain health, Nature must be aided by a thorough blood-purifying medicine; and holding this to be so effective as

Ayer's Sarsaparilla,

which is sufficiently powerful to expel from the system even the taint of Hereditary Scrofula. The medical profession endorse AYER'S SARSAPARILLA, and many attestations of the cures effected by it come from all parts of the world. It is, in the language of the Hon. Francis Jewett, ex-State Senator of Massachusetts and ex-Mayor of Lowell, "the only preparation that does real, lasting good."

PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists: Price \$1; Six bottles for \$5.

INTERESTING BOGS. Mr. Hiram Plank, formerly a resident of the Coquille, but whose present address is Red Bluff, Cal. has books which every agent should handle. They are very cheap, and will sell rapidly. Write to him at once.

For Sale!

Cottage Saloon, Coquille City, Oregon. Fine Wines, Liquors, Cigars and Cider for Sale. G. A. Brown, Prop. v4n18f

Coming, Coming, Coming!!! COQUILLE CITY! The coming Town of S. W. Oregon!

Few towns possess the natural advantages that Coquille enjoys, and which will, in the near future, cause it to blossom as the rose. It has a beautiful and pleasant site, being situated, for the most part, on a level plateau on the sunny side of the Coquille River, thirty miles from the Pacific ocean, which is reached every day by a four-hour steamer ride. Coquille City is at the center of the converging wagon road system of Coos County, and is at the head of deep-water navigation, and in the central part of a vast body of rich, river bottom land, which is the source of all true and enduring prosperity. The country round about is filled with precious metals, minerals and coal to an unparalleled extent, and is covered with a variety of timber that for quantity and quality is not excelled by that of any place on the Coast, if indeed equaled. As a dairy and stock-raising country, and a sanitarium for those seeking health it is bound to come to the front rank. The fishing industry will prove an important factor, while the numerous mills and factories, completed, in course of construction, and contemplated, will make the whole county a buzzing hive of industry and wealth. Coquille City is in the center, is the most eligible and will enjoy all. Its school, church, and society advantages are second to none in the county. Building material is cheaper at this point than at any other in the county. It has the advantages of a corporation, and is to soon have a mountain stream of water run through it for protection against fire. Property reasonable. J. A. DEAN, AGENT, Coquille City. M. J. McDONALD, PROP., San Francisco. v4n21f

MYRTLE DRUG STORE. Myrtle Point, Ogn. W. L. DIXON Proprietor. DEALER IN

Drugs, Medicines, Paints, Oils, Candies, Cigars, Tobacco, Fancy Articles, Stationery and the finest quality of School Books. Agent for the leading sewing Machines, Mason & Hamlin organs, &c. Old Wines and Liquors of the best quality. Prescriptions carefully compounded LIVE and LET LIVE. v1n3 f
