

Wants to Build a Woolen Mill Here.

We are in correspondence with parties who wish to come here to start woolen mills. One of the parties we are personally acquainted with and a better man can't be found, and the other is recommended to us by Mr. Jonathan S. Bailey who formerly lived here, and who intends returning as soon as he can shape his affairs for moving. Both are experienced in the business, and one of the parties is running a small mill at the present time. They want to know the price of wool here, and the probable amount that could be secured at some suitable point on this river. The quality of the water for washing pleases them very much, since it has no lime to trouble, like it does where they are. From the way they write we should not be surprised to see one or the other here yet this season, and in the event one of them comes, we hope our people will give him fitting encouragement. There is not, in our opinion, but a single industry that would be of greater benefit than a woolen mill, or one that would prove more profitable to its owners in this valley. The sheep industry is assuming great importance in Southern Coos and Northern Curry, and the bulk of both counties would be available on this river—in fact most of it is shipped from here now.

The prices of wool given us by one of the parties where he is, exceeds that here by nearly one-half, and the price of the fabric produced 40 per cent. lower than the same article here. When we take these items, the poor water and dear fuel there into consideration, we can see at a glance the necessity of a mill here. And, too, the quality of the wool here is far superior to that obtained there, and the product would be correspondingly so.

The only regret we have in the matter is, that neither of the parties is able to put up a big mill, since the profits on a big plant are much larger in proportion than that of a small one. In fact that is the cause of the parties, desire to come west, being in old settled states where mills of colossal proportions are crowding them with their competition. This may be overcome by finding partners, or possibly some parties here might take stock. There is flattering prospects for so doing.

We are pleased to see "Enterprise" come to the front in advocacy of a pork-packing establishment. Read his communication. There is no doubt such an enterprise would pay, but we fear we can have no concert of action in the matter. Several parties with whom we talked before were anxious to see a move in the matter, and, too, wished to take stock in the concern; but there was no one who felt enough interest in the matter to give it his personal attention. In matters of this kind people often hold themselves in readiness to help, and are anxious to see a move made, but wait continually for some one to come around with book soliciting subscriptions. In the event of all doing so there is nothing done. The proper way to do is for a person who takes interest in the matter to shape his business so he can make that a speciality. He could see the people at the different points and get assistance, and in a short time have his industry moving. Our friend "Enterprise" would be a suitable person for the undertaking, and as he can see pay in it, let him make the move. If we mistake not, he is a noted hand in the curing and handling of pork. He has a good place, and can sell it for means to help start the enterprise or he can see it to clover and keep a supply of hogs which will require little attention. What say you, Mr. Enterprise?

Hon. C. B. Watson has been appointed deputy district attorney at Astoria.

We are indebted to Mr. Wilmarth, agent for the State Insurance company, whose home is at Vancouver, W. T., for the following figures on the late vote on the whisky question in that territory: For local option, 11,535; against local option, 12,022. One hundred precincts voted for local option, and 46 against. Official figures will, it is thought, reduce the excess of those voting against, to less than four hundred, which would be considered small when the vote aggregates 23,557. When it is taken into consideration that the brewers of San Francisco had notices in the shape of posters hanging about over the territory announcing the fact that they would boycott Washington Territory hops if the people did not vote down local option, and used all the means they could muster to that end, the friends of the temperance cause have good reason to rejoice; and the enemies may look well to the future with alarm. With the present rapid growth of the prohibition party we should judge that Washington would be unanimous in about two years.

The 21st annual announcement of the medical department of the Willamette University, is before us, in the shape of a neat little pamphlet on the front page of which is a fine lithograph of a magnificent building that will be completed and put in readiness for the commencement of the 21st annual course of lectures which begins Oct. 12, '86, and continues for six months. This is a worthy institution, and turns out some of the most successful doctors that are to be found on the coast. Drs. Tower and McCormac of this county are graduates from it.

The Review's Oakland correspondent speaks of a party of 16 persons, headed by P. B. Beckley who left that place on Monday for this place with the intention of rusticiating "in the suburbs of Coquille City." If the P. B. in Beckley's name stands for piebald, and he had anything to do with the parties who infested the barns out back of town during the past few days his person will be made to conform to his cognomen if he falls into the hands of our muchly-named marshal, S. P. C. Johnson.

Capt. Marshall of the steamer Arcata has been deprived of his license as captain owing to the wrecking recently of that boat. The decision says that he gave orders while below deck several times to change the course of the vessel, when he should have been on deck.

The short run of salmon in the Columbia and the Sacramento rivers is having a salutary effect on the market. The price is likely to nearly double that of two years ago, and the fisheries of Coos county will make a good thing of it this season.

Norman L. Monroe has challenged Jay Gould to a Yacht race, the loser to pay \$100,000 to the poor of the city of New York. If the challenge were in the shape of a proposition to rob the poor of New York, Jay would accept with alacrity.

Chicago was startled the other day at the finding of a dynamite bomb. It was the proper caper to become startled last May when these death-dealing instruments were being exploded. The recent find was lying quietly in a barrel.

The most notable improvement in any of our exchanges has been with the Grants Pass Courier. It has dropped its patent outside, and is a real live, interesting paper. Success, Bro. Wimer.

Baker City has 16 saloons. If the prohibs get in their work there will be rattling of dry bones in that town. Baker's dozen went last long then.

It is a conceded fact that gold grows, and that the supply will be kept up by a new crop for all time to come.

Silver certificates of \$1, \$2 and \$6 will soon be issued by the government.

A terrible rain and hail storm visited Pittsburg, Pa., a few days ago doing great damage.

The transcontinental railroads are all crowded with G. A. R. excursionists to San Francisco.

The Chinese Government has issued a decree against the use of opium in any form among its people.

Miss Tot Cutter, one of San Francisco's most popular young ladies was drowned a week ago while bathing.

Col. A. Belton in the Chicago mail service is short in his accounts to the government of probably a hundred thousand dollars.

A gold nugget weighing 115 lbs, and which sold for \$26,000, was picked up by two Chinamen at Dutch Flat a few days ago. It was in an old deserted placer mine.

It turns out now that in the court martial that sit on Fitz John Porter a single vote was lacking to condemn him to be shot. This is told after so many years by one of the tribunal.

At Amsterdam the people rioted because the police forbade the practice of suspending eels by a string over the canal and shooting at them. The military was called out and had to shoot 27 persons dead and wound many more.

A hail storm visited Grafton, D. T., a few days ago which caused the loss of half a million dollars, and some loss of life. The stones were the size of hen's eggs, and devastated a section of country 5x30 miles.

The remnants of a man was found on the rear brakebeam of a train going into Denison, Texas. He was trying to steal a ride and his clothing got foul and he fell off. He was whipped into shreds, and his head, except one ear, was all gone.

[Gold Beach Gazette.]

The schooner Merriam is bar bound in Smith River.

The fishing season has closed. The catch was smaller than last year.

Sheep shearing has about closed for the season. The clip has averaged very good.

R. D. Hume talks of taking three of his horses to the Coos County fair. If he does it will require some fast running to beat them.

A. H. Moore having purchased suitable machinery at Smith River for a sawmill for the Salmon Mount, in mines did not go to San Francisco as was his intention. The machinery will be conveyed to Port Orford per tug Pelican.

Chinamen have almost monopolized the blackberry picking in this vicinity. The berries are picked by them as fast as they ripen and sold at about fifty cents a gallon. Berry picking has been the favorite pastime of women and children heretofore but now they are ruled out and must give place to the heathen.

[Coast Mail.]

The new tug was successfully launched at North Bend, on Friday.

Rev. J. C. Canterbury will remove his family to Marshfield and reside here.

Anton Wirth is bringing cauliflower to market here that will astonish the beholder.

Salmon have begun to come into the bay. Fishermen caught a few last Sunday night.

David McIntosh and Alfred Butler are making preparations for a fishery at Pierce's point on the bay. They have driven numerous piles and have sent to San Francisco for wire to construct a trap that will fool the wisest salmon of them all.

The American bark W. H. Besse owned by Capt. Besse one of the founders of the Oregon Southern Improvement company at Empire City, was wrecked and became a total loss on the Columbia river bar on July 23. She had \$70,000 worth of rails and spikes, and the vessel was valued at \$50,000.

HALL'S HAIR RENEWER.

The great popularity of this preparation, after its test of many years, should be an assurance, even to the most skeptical, that it is really meritorious. Those who have used HALL'S HAIR RENEWER know that it does all that is claimed.

It causes new growth of hair on bald heads—provided the hair follicles are not dead, which is seldom the case; restores natural color to gray or faded hair; preserves the scalp healthful and clear of dandruff; prevents the hair falling off or changing color; keeps it soft, pliant, lustrous, and causes it to grow long and thick.

HALL'S HAIR RENEWER produces its effects by the healthful influence of its vegetable ingredients, which invigorate and rejuvenate. It is not a dye, and is a delightful article for toilet use. Containing no alcohol, it does not evaporate quickly and dry up the natural oil, leaving the hair harsh and brittle, as do other preparations.

Buckingham's Dye FOR THE WHISKERS

Colors them brown or black, as desired, and is the best dye, because it is harmless; it produces a permanent natural color; and being a single preparation, is more convenient of application than any other.

PREPARED BY R. P. HALL & CO., Nashua, N. H. Sold by all Dealers in Medicines.

FOR SALE.

\$2000, one-half down: A good farm of 87 acres good land improved, situated at the junction of South and Middle forks of Coquille river. Call on D. McNair, adjoining the premises.

Coming, Coming, Coming!!!

COQUILLE CITY!

The coming Town of S. W. Oregon!

Few towns possess the natural advantages that Coquille enjoys, and which will, in the near future, cause it to blossom as the rose. It has a beautiful and pleasant site, being situated, for the most part, on a level plateau on the sunny side of the Coquille River, thirty miles from the Pacific ocean, which is reached every day by a four-hour steam ride. Coquille City is at the center of the converging wagon road system of Coos County, and is at the head of deep-water navigation, and in the central part of a vast body of rich, river bottom land, which is the source of all true and enduring prosperity. The country round about is filled with precious metals, minerals and coal to an unparalleled extent, and is covered with a variety of timber that for quantity and quality is not excelled by that of any place on the Coast, if, indeed, equaled. As a dairy and stock raising country, and a sanitarium for those seeking health, it is bound to rank. The fishing industry will prove an important factor, while the lumber factories, completed, in course of construction, and contemplated, will give the county a buzzing hive of industry and wealth. Coquille City is in the center, is the most eligible and will enjoy all. Its school, church, and society advantages are second to none in the county. Building material is cheaper at this point than at any other in the county. It has the advantages of a corporation, and is to soon have a mountain stream of water run through it for protection against fire. Property reasonable.

J. A. DEAN, AGENT, Coquille City.

M. J. McDONALD, PROP., San Francisco.
