Bread on the Waters. Hon. J. M. Siglin is in town. V. N. Perry is pilot on the Coos. A. P. Williams succeeds Hearst as senator from California. The Occident Water company are putting down more pipe in this town. S. H. Hazard, Alex Stauff and Sheriff Harlocker were in town Thursday. Five children were drowned in the river at Keokuk, Iowa, a week ago while in bathing. The trial of the Anarchists in Chicago is still progressing and startling evidence is being elicited. The postoffice at Reno was robbed a week ago last night of 20 registered letters and other valuables. Bud Tenneson was all excitement when he came to town the other day. His baby has three teeth. A. I. Bancroft & Co. will rebuild on the lot where their fine stationery house was burned in San Francisco. The O. R. N. & N company had plenty of iron on hand and the loss of the W. H. Besse cargo will not delay matters with them. It is conceded that the Pacific Bridge Company will get the contract to build the Sixes river bridge, their bid being the lowest. The robbers of the Minneapolis postoffice have been taken in by Pinkerton's, the selling of the \$15,000 worth of stamps giving the clue. Mrs. T. F. Lewis, who was visiting relatives and friends here last week has returned to her home at North Bend accompanied by her sister, Mrs. M. Way. During the visit of the Yankee Doodle band here last week Mr. Walsh a Roseburg press scribe and Mr. Wimberly of the Review made us a pleasant call. Columbia river cannerymen have concluded to fish through the close season, at which the people are kicking. The law will be enforced if they attempt it. The Oregonian is being foudled by a delegation of Chinese officials sent to the Northwest to see the extent of damage done the mongols by their forced exit from towns the past year. Johnny Leneve, our efficient postoffice clerk, has been quite sick since Saturday. He got too warm while working and has since had fever. His brother George is laid up also with flux. They are both improving. Ayer's Sarsaparilla is designed for those who need a medicine to purify their blood, build them up, increase their appetite, and rejuvenate their whole system. No other preparation so well meets this want. Its record of forty years is one of constant triumph over disease. For its soothing and grateful influence on the scalp, and for removing and preventing dandruff, Ayer's Hair Vigor has no equal. It restores faded or gray hair, to its original color stimulates the growth of the hair, and gives it a beautiful glossy and silken appearance. B. F. Parsons, the sewing machine repairer, went to the bay yesterday, and will do the work to be found there and then return to the river. He is a good workman. Give him your order. Samuel Hill the great sewing machine man of San Francisco compliments Mr. Parsons very highly, knowing him to be a fine workman. Mr. J. J. Birch is in this part introducing the Laundry Queen washing machine, which is claimed to be the best out. It is taking the lead in other parts of this state and our people will doubtless do well to test the merits of it and profit by it. Mr. Birch whom you most all know is a gentleman in whom you can rely, and what he tells will be the naked truth, and in any dealings with him you will find in him all that the word gentleman implies.

Paddle your own Canoe. There is considerable travel through this place of late. Miss Lehman and Miss Beyers begin school here next Monday Aug. 16. Collector Zumwalt, of Port Orford, made this place a flying visit last week, remaining here one night. The steamer Coos got on a small snag and is being overhauled this morning. She will be in running order to-morrow. Messrs. J. B. Dully and S. B. Sherwood, of Sumner, were in town yesterday en route to the Halls prairie race track. John Carnell and family arrived here last week from Carnell, Modoc county, Cal., with the intention making this their home. Miss Rhoda Dean arrived here too late yesterday for the funeral of her brother, Mrs. L. D. Belien, another sister is expected here today. The Successful House-Keeper is without doubt the best book of its kind out. Mr. James Huddleson will take your order for it and fill it promptly. A protracted meeting by the Methodist and Baptist churches is in progress at the Pioneer church below Lampey creek. Plenty to eat is kept on the grounds. Willie Dean, whose death announced in another column, was a good boy and his death is deplored by a host of friends. He was born near Rolla, Mo., April 12, 1866 and was therefore nearing his majority. The two schooners that cleared from this place Saturday took upwards of 350,000 feet of lumber from Lyon's mill. The lumber for the most part was first class, but the chances are that little of it will be so graded. The lumbering business is poor taking into consideration the stealage. The race between Clamdigger and Billy Berry has been postponed till the fair. Ten per cent. of the stakes goes to the society at other times than during fair, and in the above case it would amount to \$100 which was considered too much by the racers. Remember the change. Johnny Scott has been laid up with a sore hand here for a couple of weeks. One thumb is about the worst mangled of anything we have seen. Only for coming across him while the doctor was dressing it we should have known nothing about it. He is not a grunter a small edger saw can't keep him down long. The death of Miss Edith Morris youngest daughter of Hon. Wm. Morris was a shock to her many friends. Her funeral here at 2 o'clock yesterday afternoon was largely attended the steamer Coos making a trip up the river to bring down the immense crowd. Miss Morris was 17 years old and was a favorite among her acquaintances. Her bereaved parents, brothers and sisters have the sympathy of the whole community. [Gold Beach Gazette.] Capt. Strahan received a fine otter boat per tug Pelican, and will engage to some extent in otter hunting. One of Asa Carey's children was seriously injured last week by a horse falling on her. The schooner Merriam made an effort to get out of Smith river last week but struck on the bar. She was floated off and back into the river the same day, where she still remains. A. M. Gillespie's large new scow met with an accident Friday last that caused serious damage, if it does not result in her total ruin. She was loaded with cord-wood, and was run alongside the wharf, between the cannery and store. The tide receding, left her lying across a sand ridge, and the result was, she broke about mid-ships. The scow was lately built, for the purpose of carrying tan-bark, a large quantity of which is now on the bank of the river waiting her arrival.

A MUSICAL TREAT. Advent of a Company of Roseburg Musicians--They astonish the Natives. The Yankee Doodle Band from Roseburg favored the music-loving people of our city, last Tuesday afternoon and evening, with a musical concert and variety entertainment which was highly appreciated by the lovers of music and minstrelsy. Their street parade in the afternoon, which was conducted with military exactness, awakened the enthusiasm, and challenged the admiration of all who gazed upon the ranks as they marched, finely uniformed, through the principal streets of the city, to the time of a superb quickstep; a beautiful composition and arrangement, which was brilliantly played. Before marching to the hall, they played a few fine selections at the junction of Front and Main streets, after which the boys were "at rest," so to speak, until evening. A conspicuous figure which attracted much attention, was that of one of our former Coos county boys, Mr. Fred Zigler. It was not alone the tall commanding figure and military bearing that was particularly attractive, but rather the masterly manner in which he handled his instrument. In the execution of some of his difficult baritone solos, he was grand, considering the fact that he has very recently taken up the study of music, and more recently that speciality. The open air concert in front of the hall in the evening was a pleasant surprise to those who were heartily pleased with their former efforts. It was simply grand. A large audience greeted their performance with well merited expressions of delight. One selection in particular—an overture—was rendered in magnificent style; each part being admirably sustained throughout. One of our townsmen who heard the celebrated "Alvin Joslin" ten thousand dollar band in Portland last winter, declares that the music played by the Y. D. band here, was fully equal to that played by the "Alvin Joslin" professionals, although that celebrated band is composed almost entirely of solo players. With a little strengthening of some of the parts, and a careful avoidance of some errors that amateur players habitually fall into, the Y. D. boys under the tutelage of Prof. Gilham, will have attained a degree of proficiency second to no band in the state. A variety entertainment was given in the evening in the hall by the members of the band, to a good sized audience, the major part of which enjoyed the fun. The local hits were immense and produced much merriment. The orchestra work inside the hall was interfered with to a great degree, on account of the steaming condition of the atmosphere in the worst of ily ventilated halls. The violin strings were continually breaking or "fraying out," which rendered impossible any successful attempt to keep the instruments in harmony. The opening overture, however, taken from the "Mikado," was exceedingly well rendered; that piece being performed before the instruments were seriously affected. Taking it altogether our people were immensely pleased, and the most sincere praises were bestowed particularly upon the musical part of the programme. We hope the boys from Roseburg are satisfied with their excursion, and we trust that this, their first visit to our part of the coast, will not be their last one. In a Snow Storm. Mount Washington, N. H., Aug. 3.—A northwester, blowing at the rate of sixty miles an hour, set in at nightfall yesterday. Snow began to fall at 2:30 this morning, and at 5:30 the ground was covered to a depth of one and one-half inches. The wind is blowing eighty miles an hour, and windows are thickly covered with frost. The thermometer yesterday registered 85 degrees in the valley, but now marks 28 degrees here. An old-Time Treasure Cache. Some gentlemen who were standing near the smelter at Meadorville a day or two ago saw a man at work digging a hole at some distance across the flat. After watching him awhile and wondering what he was up to (for there was no probability that he had discovered a mine in the locality in which he was at work), they went out to satisfy their curiosity by ascertaining what he was hunting for. When they reached him they found he was an old man. He had dug a hole about six feet deep and was just beginning to pick up gold nuggets from the bottom of the excavation and toss them into a cigar box. The visitors supposed that the old man had struck rich placer diggings, or at least that he had struck a "pocket," that seemed to be panning out pretty big. On inquiry, however, he explained that about twenty years ago he had buried a quantity of nugget gold there and had never before had an opportunity to come after it. He had just now arrived in the country recognized the spot where his cache was, and had proceeded to open it. He soon finished his work, took the cigar box partially full of gold under his arm and walked off with it. He had at least several thousand dollars worth of the nuggets. He did not give his name, but the conclusion naturally arrived at is that he is an old-time road agent who has been "detained" in some other country longer than he desired and that his first move on gaining his liberty was to come after his share of the proceeds of some early day treasure-box robbery.—Butte Inter-Mountain. The Bartholdi Statue. New York, Aug. 4.—The 3rd of September is the day fixed for the formal unveiling of the Bartholdi statue of Liberty but the progress of the work is so slow that the expectation will have to be abandoned. Only the first series of plates constituting the statue up to the knees, are in position and riveted together. Not more than twenty men are at work. The face of the statue is placed on the ground, where visitors inspect it at close quarters and scratch their names on the copper surface. At the present rate the statue may be completed in six months. The work of putting the surroundings in order and finishing the grounds inside the fort, according to the original plan, will require at least one year. War Probable. New Orleans, Aug. 3. A Mexican man-of-war which has been in this port for several months for repairs has been ordered to leave for Vera Cruz. There the ship will await further orders. The officers of the ship say that all the Mexican men-of-war have been called home since the Cutting and Rasures matters have assumed so threatening a shape. The Mexican counsel refuses to talk but other Mexicans are inclined to the opinion that war is possible. They comment severely on the action of the house committee in instructing Secretary Bayard to again demand the release of Cutting, and say the demand will be again refused. Blue and Gray. Tyler, Tex., Aug. 4.—Extensive preparations are being made by ex-federal and ex-confederate soldiers to participate in a grand reunion in this city on the 25th and 26th of August. The citizens are subscribing liberally to make the pleasurable enterprise a complete success. The ex-soldiers anticipate with keen enthusiasm another occasion for handshaking and war talk and well wishing among the comrades and enemies of a quarter of a century ago, who are now commingled in brotherhood. The stage route from Empire City to Drain's, is now in fine condition. Passengers put through to the railroad the same day, without extra charge, when requested. Fare to Portland by this route, only 14.40. ff.

A petition is in circulation for a county road between Ellensburg and Port Orford. The Gazette says: "This is a move in the right direction, and it is to be hoped that every settler along the route will lend their aid to the undertaking." Did it never occur to you, Brother Sutton, that it is often the case that "every settler" is full more anxious to lend "their" aid in matters of that kind than that of his own. Hip, Hip, Hurrah. Congress adjourned on Thursday Aug. 5, at 4 p. m. and the president has signed the river and harbor bill, and others appropriating \$365,000,000. It is a good joke on the senate, working hard to make the river and harbor bill objectionable to the president and he signing it at last. The thing will work on the back action principle. News by the Man about Town. IS STILL CHIEF.—The Olive house, since its change of proprietor. ENLARGING.—Some one must be doing a driving business at Mr. Boyrie's place on 5th st., judging from the sounds that come from that part early and late. A HEAVY BUSINESS.—The corner grocery must be doing a heavy business in spruce gum, if one could judge by the number who got loaded up at that place during the early part of last week. LOOK OUT.—As there has been but little summer rain so far, the forests are liable to be fired, and an incalculable amount of damage done. Everybody ought to be very cautious about letting fire get away from their control, hunters ditto. SAILED.—The schooners Gem and Lizzie Prien, were towed below on Saturday by the tug Katie Cook, both loaded with lumber at Lyon's mill. Two scows loaded with brick at the yard were also taken below by the steamer Coos the same day. For the best meals and at any hour go to the Olive hotel. For real good bargains, go to Noster's drug store in this place. He is selling goods extremely cheap, and keeps nothing but the best. When visiting Coquille City stop at the Olive hotel. Mrs. Olive is sparing no pains to render comfort to guests of this deservedly popular house. The splendid steamer Coos will run regularly hereafter between this place and Bandon, leaving Coquille City at 7 A. M., and returning leave Bandon at 2 P. M. See ad. ff. Steward & Paden will hereafter have a big supply of choice sausage on hand on Wednesday of each week, and will promptly fill orders from all parts. Send in your orders. n50. For Sale. Several articles of household furniture, consisting of tables, a kitchen cupboard, bedroom secretary, &c. Having purchased the above at a great sacrifice for cash, they can be bought at a bargain. Call and see them at my residence on Elliott St., opposite school house. S. W. Harrington. ff. DIED. At her home, two miles south of Coquille City, Aug. 8, Miss Edith Morris, daughter of Hon. Wm.
