

The present rate-war from Pacific coast points seems to be on the Jew plan—get all they can, but not at the expense of losing a sale.

Dr. Josseylin, who is imprisoned in San Francisco for the murder, by malpractice, of Miss Sadie Lawson, is an old one, and it would be to the credit of San Francisco if he were given a sentence commensurate with his existence.

Women suffragists of New York are determined to vote at the November election, and have secured the names of fifty prominent lawyers who attest the fact that there is nothing in the constitution of that state prohibiting them from doing so.

Even Old Claus Spreckles is turning off Chinese and substituting white men. Verily the Chinese must go, but their employers deserve little credit for dispensing with them, when they only do so because it is cheaper to hire white men, or to regard lost patronage.

If justice ever overtakes a man in San Francisco, that uncommon adjunct of criminal courts is called on to take a rest, to give the culprit time to "gather himself." John Hauehan's trial for assault and murder of his wife has been postponed thirty-two times and the end is not yet. San Francisco ought to take a judicial puke.

A dispatch says that "Dooney" Harris was sentenced to San Quentin from San Francisco on the 28th ult., for a term of 7 years. It turns out that he had been subsequently tried and sentenced for another offence, and that for a like seven years and that each begins as soon as he reaches the "pen." This is all right; it would be unjust to require him to find a substitute.

The Recorder, published at Denmark, contains a good article on the resources of Curry county, the whole of that part of the paper printed at home being devoted to it. The article, which appears in its entirety on the first page of to-day's HERALD, is fair and well written. Persons desiring copies to send to their friends should write Mr. Upton, Denmark, Curry Co., Oregon.

The prospect of the completion of the Panama canal is more hopeful than the reports of a short time ago would lead one to believe. The hardest part of the work is done and excavations are going along on the entire line from one ocean to the other. There are 12,000 laborers employed, and enough money on hand to prosecute the work for three years more. It is now thought that it will be completed by 1892. Health there is good for that part; and infact not much behind many parts of the United States.

A very important decision has been made by Acting Secretary Muldrow. It involves, says the report, the constitutional provision that "full faith and credit shall be given by each state to the acts, records and judicial proceedings of every other state," carrying out the doctrine that where the courts of one state having jurisdiction render a judgment, that judgment is conclusive of all matters determined therein, and is binding on the courts in every other state. Muldrow extends the exposition of the doctrine to the executive departments. The decision is said to be an able one, and is understood to be a reversal of one rendered by Carl Schurz.

Wiggins' predictions seem to have had a good effect on the disturbing elements. On the 29th ult. the whole of the Southern States, Mexico, South America and Southern Europe were to be terribly agitated by earthquakes, and swept by cyclones. While it is a fact that up to, and on, the 27th and 28th, earthquakes terrorized the people of the south, on the fated day—the 29th—every thing was calm and serene. Here we will remark that this Canadian crank ought to be crucified, in that he takes advantage of the superstitious of the country to spread terror and dismay. There is no doubt that his foolish predictions have caused the death of many better persons than himself, among the negroes of the South.

Hon. W. F. Owens suicided at his home in Roseburg at 9 o'clock a. m. on Saturday a week ago. It is claimed that he failed for several thousand dollars and that this led to his taking his life; but many of his more intimate friends think that family troubles were the sole cause. The reports however show that he is short in his accounts. He was manager of the grange warehouse at Roseburg. In this capacity he did an immense business, and had the confidence of the people throughout the Umpqua valley. Mr. Owens, familiarly known as "Flem", was the leading spirit in the prohibition cause in Oregon, and in his death that cause has suffered what it could not from the death of any other man. As a citizen and neighbor he was one of Oregon's best men, and if failure came upon him, it will turn out to be the fault of some body other than himself.

Head Qr's Gen. Lytle Post, No. 27. Department of Oregon, G. A. R. Post order No. 5.

1. Comrade J. H. Nosler is hereby appointed adjutant of this post; vice, H. H. Nichols transferred. Comrade Nosler will report for and enter upon his duties at once and be obeyed and respected accordingly.

2. Comrade Q. M. W. Sinclair is hereby instructed to inform in writing all members of this post delinquent in dues or in arrears in the payment of dues for the period of six months that unless their dues are paid within sixty days, their privileges of membership will be suspended and be so reported to department headquarters unless remitted by two-thirds vote of the post. This pursuant to general orders numbers 2, dated, Madison Wis. Sept. 13 1886.

By order of A. H. Wright commander, J. H. Nosler, adjutant. Remember regular meeting of Post Wednesday evening.

Reform Convention.

San Francisco, Sept. 29.—A Charity and Reform Convention will be held in this city on December 9th. It will be composed of people from all over the coast, and will discuss the protection, training and reformation of children and youth; prison management and reform; education of the blind and deaf, drunk and feeble-minded; prevention and cure of pauperism; management of workhouses and almshouses and all other forms of charitable enterprise; care and cure of insane and of the necessity of charity organization in cities.

Another Riot in Belfast.

Belfast, Sept. 29.—There was desperate fighting to-day between Protestant and Catholic workmen at a foundry. The police interfered, whereupon the fighters joined in a common cause against the police and drove them from the scene. The police were reinforced by a troop of cavalry, which charged on the rioters and dispersed them. Scores of the mob were injured, some severely, and many of the police were wounded.

Charleston Terrorized.

Charleston, Sept. 27.—Five minutes past 5 o'clock this afternoon, another shock of earthquake—first heavy shock since September 21st—was felt here. The movement of the earth was evidently horizontal and the tremor was accompanied by the usual rumbling sound, which was distinctly heard several seconds after the movement had ceased.

Advices received from Savannah, Orangeburg and other points in this vicinity indicate the shock was very general throughout Eastern South Carolina and Georgia. Coming almost on the eve of the Wiggins day (29th), the shock has greatly demoralized the people here.

Charleston, Sept. 28.—No serious damage was done by the earthquake shock, and up to this hour (12:05 a.m.) there has been no recurrence of the disturbance. The last shocks have impaired confidence, especially among the negroes, who regard the tremors as the prelude to the great convulsion of the 29th, predicted by Wiggins.

A Marine Combat.

Page Minor, who arrived on the State of California last Saturday, gives the following description of a fight between a whale and a sword fish which occurred at sea on the afternoon of the 24th instant, and which was witnessed by nearly every one on board the State at the time.

"It was 3 o'clock on Friday afternoon when we witnessed a terrific combat between an enormous whale and a twelve-foot sword fish.

The leviathan and its active adversary were not more than fifty yards from the steamer when first observed. They had evidently been engaged in combat before sighted, as the whale was spouting furiously for a distance of thirty feet in the air. The huge black form arose in fitful motions as it dashed hither and thither in its endeavor to escape the long saw-like sword which projected from its enemy's upper jaw, and which glistened in the air like burnished steel. The body of the whale and that of the fish would be seen rolling, jumping and floundering in an indescribable manner. The whale churned up the water till it looked like yeast. Occasionally they would sink for a few seconds and again be seen a few yards away battling like tigers and agitating the water into whirlpools and concentric waves. Several times the sword fish wounded the whale, but the latter was unable to retaliate. As the fight progressed, many of the sea-sick passengers arose from their bunks to witness the novel marine struggle. Where all the people came from was a mystery. The porters, the cooks, the mates and sailors all came "aft" to see the sea combat, Marquis of Neptune rules, which was thrillingly interesting. For several minutes the vessel seemed to be under nobody's control. This was due probably to the fact that the peculiar agitation of the water caused her to swerve slightly from her course. As the State sped onward the fight was kept up as long as the combatants could be seen by the aid of powerful binocular glasses. The passengers were greatly disappointed because they could not see it to a finish"—Portland News.

The Captured Schooner.

Ottawa, Sept. 29.—The first demand for the release of the Canadian sailing schooner Onward, recently seized by the United States revenue cutter Corwin in the Alaskan sea, was forwarded to the colonial office in London to be laid before the authorities at Washington. A supplementary demand is to be made through the same channel, in which it is pointed out that in the convention signed at St. Petersburg between England and Russia, one of the articles of guarantee to British subjects, from whatever quarter they may arrive, was the right forever to enjoy the privileges of navigation and fishing in the Pacific ocean or any part thereof. From this point it is argued that the United States could not have received from Russia the right to exclusive navigation or to fishing or sealing privileges in Alaskan waters.

Drouth-Stricken People.

Abilene, Tex. Sept. 29.—The County Commissioners' court has been in session the past day or two examining applications from the drouth-stricken people of the county for assistance. They report that they find 226 families, embarking about 1,000 people, who are destitute and must be furnished with provisions. They report also that 350 families will have to be furnished with seed wheat, etc. This is official, the result of very careful investigation and shows more in this county than many supposed.

Constantinople, Sept. 27.—Tur-

key's agents abroad report that the peace of Europe is endangered by the present temper of the English and Austrian cabinets against Russia. The Turkish war department contemplates equipping and drilling 60,000 Turkish horsemen in the same manner that Russian Cossacks are equipped and drilled.

Surface Indications

What a miner would very properly term "surface indications" of what is beneath, are the Pimples, Sties, Sore Eyes, Boils, and Cutaneous Eruptions with which people are annoyed in spring and early summer. The effluvia matter accumulated during the winter months, now makes its presence felt, through Nature's endeavors to expel it from the system. While it remains it is a poison that festers in the blood, and is expelled into the skin. This condition causes derangement of the digestive and assimilatory organs, with a feeling of emersion, languor, and weariness—often lightly spoken of as "only spring fever." These are evidences that Nature is not able, unaided, to throw off the corrupt atoms which weaken the vital forces. To regain health, Nature must be aided by a thorough blood-purifying medicine; and nothing else is so effective as

Ayer's Sarsaparilla,

which is sufficiently powerful to expel from the system even the taint of Hereditary Syphilis. The medical profession endorse AYER'S SARSAPARILLA, and many attestations of its cures effected by it come from all parts of the world. It is in the language of the Hon. Francis Jewett, ex-State Senator of Massachusetts and ex-Mayor of Lowell, "the only preparation that does real, lasting good."

PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists: Price \$1; Six bottles for \$5.

To be Sold.

A Handsome residence together with 150 acres of land two miles from city. The house contains sitting room, dining room, four bedrooms, bath, parlor, etc. This was the original Bandon hotel. The barn 50x90 is strong and substantial. The lands are well adapted for cattle and sheep raising and all agricultural purposes. Adjoining the dwelling house which is situated on the renowned Bandon beach and overlooking the Pacific ocean is a vegetable garden, also a fruit and flower garden. Immediate possession will be given. Apply to A. Giroum, Golden Beach hotel, Bandon City, Oregon. v511f

COQUILLE CITY!

The coming Town of S. W. Oregon! Few towns possess the natural advantages that Coquille enjoys, and which will, in the near future, cause it to blossom as the rose. It has a beautiful and pleasant site, being situated, for the most part, on a level plateau on the sunny side of the Coquille River, thirty miles from the Pacific ocean, which is reached every day by a four-hour steamer ride. Coquille City is at the center of the converging wagon road system of Coos County, and is at the head of deep-water navigation, and in the central part of a vast body of rich, river bottom land, which is the source of all true and enduring prosperity. The country round about is filled with precious metals, minerals and coal to an unparalleled extent, and is covered with a variety of timber that for quantity and quality is not excelled by that of any place on the Coast, if, indeed, equalled. As a dairying and stock-raising country, and a sanitarium for those seeking health it is bound to come to the front rank. The fishing industry will prove an important factor, while the numerous mills and factories, completed, in course of construction, and contemplated, will make the whole county a buzzing hive of industry and wealth. Coquille City is in the center, is the most eligible and will enjoy all. Its school, church, and society advantages are second to none in the county. Building material is cheaper at this point than at any other in the county. It has the advantages of a corporation, and is to soon have a mountain stream of water run through it for protection against fire. Property reasonable. J. A. DEAN, AGENT, M. J. McDONALD, PROP., Coquille City. San Francisco. v412f

MYRTLE DRUG STORE.

Myrtle Point, Ogn. W. L. DIXON Proprietor. DEALER IN Drugs, Medicines, Paints, Oils, Candles, Cigars, Tobacco, Fancy Articles, Stationery and the finest quality of School Books. Agent for the leading sewing Machines, Mason & Hamlin organs, &c. Old Wines and Liquors of the best quality. Prescriptions carefully compounded. LIVE and LET LIVE. v1n3 tf
