The friendly fight between the Taylor brothers for gubernatorial honors in Tennessee, is evidence that there is no cause in this late day of reason and common sense for the usual amount of mudslinging. The American people should hail with joy this innovation of a decent political canvass.

He's coming—open the gates of the city. At last accounts he was stormbound at Langlois' ranch unstick and ready to move on, as soon as the storm king relaxes his grip. We refer to the jolly, joking jeweler, J. J. Wilson in all his obesity. He is coming prepared to do work in his line with neatness and dispatch at the lowest prices possible. Dr. Jay Tuttle, formerly of this county, delivered the oration before the K. of P. grand lodge at Portland last week. The Portland News says of him: The grand orator, Dr. Tuttle, of Astoria, was next introduced, and delivered a masterly oration on the principles of the Knights of Pythias. He spoke of Knights who had, martyr-like, sacrificed themselves to save fellow Knights. The speaker was eloquent and expressive, and was listened to with the closest attention.

The Fisherman's Rooster.

The fisherman's rooster is a queer looking bird; it has neither feathers nor wings.

The other night, while one of our lower river fishermen was lying by his camp-fire waiting for a drift, he saw an object on the bank which he took to be a large rooster. "Ah, he says; you are my meat. I will have a fine roast to-night." So he put after the bird with a club about three feet long, and he belted him over the back a few times, but didn't fetch his bird. So he set his foot on him, and then he discovered his mistake. It was a black bird, with white spots, rather a small head, a large bushy tail, and rather a bad smell. Pickhandle Billy.

The Coast Mail in fits of jealousy makes a great deal of sport of the HERALD for reverencing old people with titles of "grandpa," "uncle," etc. The Mail doesn't fail to give the "Hon.," and the reason, with most papers, is for distinction, but with the Mail it must be for the purpose of gaining favor, or patronage. An item in either of the county papers relative to Grandpa Schroeder, Grandpa Weekly or Uncle Tom Norris would not be understood by using the names Henry, William, or Tom, since there are several of the same name. They are known by these titles given, by everybody. The Mail may prefer "Old Bob" and "Little Bob," but it should not find fault with a person for showing good breeding in doing reverence to the aged.

Mexican hostilities are still being shown American citizens along the border. A former San Franciscan tells the following: "I was born in San Francisco. My father is a native American; my mother a California Mexican. I was arrested at Paso del Norte on a charge of being drunk, though I never touch liquor. I was tried and sentenced to a month's hard labor on the roads. I made my escape and was followed to this side, captured and taken back. They shot at me and clubbed me with a pistol. They put their feet on my neck and beat my head with a rock." Brown shows evidence of rough treatment. Consul Brigham is preparing a report on his case to be forwarded to Washington, says a dispatch.

Slashing Fine Girls.

Throughout the length and breadth of this free country young women who cowhide young men appear to find fame in their fury and honor in their whips. But we may as well tell the girls in all frankness that they should not judge by outward appearances. In reality there is not a particle of sincerity in the applause that is won in this violent manner.

When a young man has had the honor of a thrashing from a beautiful young woman he gains a certain distinction as a masher which he pays for by being laughed at. Rat the lady is laughed at, too. It is a big joke all round with a square show for gossips. The successful use of the whip is something that is beyond the reach of the girls. To attempt it is dangerous; first, because it is an unwomanly and rowdylike act, and secondly, because the girls who try it, as a rule, are not good girls.

No doubt Miss Decker of Totenville, R. I., who recently slashed the stenographer, Hartley, forms a beautiful exception to this rule. The cowhide makes plenty of fun sometimes; occasionally it brings on a heap of trouble. But there are two things it can never do. It cannot better a good reputation and it cannot restore a lost one.—Salem Statesman.

Joe Hudson and Mat Goodman are engaged making shingles in this town. Carpenters give them credit for making the best shingle ever made on the river. There are no faulty ones to be found among their make.

The first quarterly meeting of the M. E. church South for 1886-7 will be held at Brown's school-house South Coquille, Bandon circuit, Nov. 6th and 7th, 1886.

Alle Same Melican.

New York, Oct. 12.—Two hundred members of the Chinese Laundryman's Union held a meeting last night to discuss the cutting of rates on shirts and collars. They propose to organize a permanent union and make rules to prevent unfair competition in the future. It is understood that the rules to enforce obedience to the new orders will be so stringent and effective that they will bring the most obstinate Chinamen to terms. Should the off-ender refuse or fail to pay a fine of \$100 for opening an opposition laundry, he will be thoroughly boycotted by the Chinese community in New York.

Don't Snub.

Don't snub a boy because he wears shabby clothes. When Edison, the inventor of the telephone first entered Boston he wore a pair of yellow linen breeches in the depth of winter.

Don't snub a boy because his home is plain and unpretending. Abraham Lincoln's early home was a log-cabin.

Don't snub a boy because of ignorance of his parents. Shakespeare, the world's poet, was the son of a man who was unable to write his own name.

Don't snub a boy because he chooses a humble trade. The author of Pilgrim's Progress was a tinker.

Don't snub a boy because he stutters. Demosthenes, the great orator of Greece, overcame a harsh and stammering voice.

Don't snub a boy because of his physical disability. Milton was blind.

Don't snub a boy because of dullness in his lessons. Hogarth, the celebrated painter and engraver, was a stupid boy at his books.

Don't snub any one. Not alone because, some day, they may far outstrip you in the race of life, but because it is neither kind nor Christian.—Christian Advocate.

Portland is to be congratulated on her chief of police. Parish is the name and his praises should be sung throughout Oregon, as the only man with courage enough to vigorously prosecute gambling. He gets enough in the way of fines and forfeits to pay the police force double. If he will vigorously prosecute all irregularities as he has gambling, he can soon dispense with half of his force and make it self-sustaining.

The papers just now are discussing the questions of hard times, their cause, remedy, etc. They all seem to overlook what we think is the most potent factor in producing stagnation and dull times—i. e. buying largely of what is not needed and which all would be better without, and supporting an army of manufactures of these unneeded wares.

Eastern Oregon Railroad.

San Francisco, Oct. 11.—The Bulletin to-night again asserts that the Southern Pacific will turn off to Eastern Oregon, and not soon form a Portland connection. It asserts that the road will head off the Oregon Pacific and that will be a terrible blow to that road. If the Oregon & California chooses to build across Siskiyou, connection may be made.

If you are feeling depressed, your appetite is poor, you are bothered with Headache you are fidgety, nervous, and generally out of sorts, and want to brace up. Brace up, but not with stimulants, spring medicines, or bitters, which have for their basis very cheap, bad whisky and which stimulate you for an hour, and then leave you in worse condition than before. The commercial pulse is indicated in the East by the iron trade. On this coast if there may be anything taken as a standard by which commercial prosperity can be computed we can doubtless look for it in the shipping. By this we are justified in the assertion that we have materially improved in the past twelve months, as will be shown by the following S. F. dispatch of Oct. the 11: At present there are 109 vessels in port, 58 chartered and 51 disengaged. The chartered tonnage aggregates 85-520 tons, against 31,340 at this time last year. The disengaged tonnage is 67,279 tons, against 83-163 at this time a year ago. Nearly all the chartered vessels are engaged for the grain carrying trade. During two days last week over 40,000 tons of coal arrived in this port; said to be the largest amount that ever arrived in that length of time.

A Terrible Gale at Galveston.

Galveston, Oct. 12.—A terrific gale is blowing from the north, and the water on the bay side of the city is washing over the docks; on the gulf side the water is rolling several squares into the city against the gale. Steamships, sailing vessels and barges are pounding heavily against the wharves, and the loss to shipping will doubtless be heavy. The gale is steadily increasing and telegraph communication with the main land will doubtless be cut off by morning.
