

OUR NEW ACADEMY.

This enterprise has for a long time been uppermost in the minds of some of our teachers, and after a great deal of careful and thoughtful planning, is about to be carried to a successful issue.

This effort to establish a land mark upon which we will look with just pride, will undoubtedly meet with hearty endorsement and earnest support of the people of Southwestern Oregon.

One Hamblin is being tried (?) in the San Francisco courts for the murder of Massey. He was at one time sentenced to be hanged, but the lawyers have no trouble in inducing (another name for bribery) the courts to reconsider any action taken and the chances are favorable for his final acquittal.

Officials at Washington estimate that the revenue on oleomargarine will reach this year the enormous figures of \$1,000,000 or possibly half as much more.

The approach of winter in the East has so far shown no sign of effecting business, except where blockades are impossible to overcome.

There is no reason why there should be a single pound of onions imported from California to this county. It is doubtful if any part of that state can equal Coos county in the production of this vegetable.

It is said salmon have gone down in price from \$10.50 to \$7.50 per barrel. If this continues, many of our fishermen will have lost the difference in the above figures by their neglect or inability to get their fish on the market.

So far this winter we have not had much rain, yet the weather has been anything but pleasant a good share of the time.

A new route for the north pole is to be tried. It is across "Greenland's icy mountains," but we predict that the voyager will be able to "read his title clear" in "the sweet by and by" beyond "the river of Jordan" some time after the "mists have cleared away," and he is "plunging in a gulf of deep despair."

Baldwin Gardiner, of the Pacific Stock Board, San Francisco, de-camped for parts unknown the other day. It was found he was defaulter in a large sum—some half a million.

Coquille City Ordinances, Numbers Nine and Ten.

The following ordinances were passed to-wit:

Ordinance No. 9: An ordinance to tax brewers and the business of manufacturing of beer and malt liquors.

The people of the town of Coquille City do ordain:

Sec. 1. That no person or persons shall engage in or carry on in the town of Coquille City the business of brewing or manufacture of beer or malt liquors for sale without at the beginning of every three months paying into the treasurer of the town of Coquille City, the sum of thirty dollars (\$30) for the said term of three months, and the receipt for said sum, from the treasurer, shall be a license for the three months time named.

Sec. 2. Any person who shall carry on as agent or proprietor, the business of a brewery or manufacture of beer or malt liquor, for sale, without having first obtained the said license herein, provided for, shall be deemed guilty of a misdemeanor, and on conviction thereof, shall for each offense, be fined not less than ten nor more than fifty dollars and costs of prosecution.

Adopted Nov. 23rd, 1886.

Ordinance No. 10: An ordinance requiring a petition for liquor license. The people of the town of Coquille City do ordain.

Sec. 1. That any person wishing to sell spirituous liquors, in less quantities than one gallon, before proceeding to procure a license, shall at his own trouble and expense obtain the signatures of a majority of all the taxpayers in the corporation limits of the town of Coquille City, praying that the said license may be granted.

Sec. 2. That before proceeding to obtain the signatures of the taxpayers, he shall post notices, in three of the most public places in the town, stating that five days after date of said notice, he will apply to the board for a license to sell spirituous liquors in less quantities than one gallon.

Adopted Nov. 23rd, 1886.

J. H. Nosler, Recorder. C. W. Olive, Chairman.

The Exhibit Car.

Mr. D. S. K. Baick, who had charge of the Oregon exhibit car, has sent in his report to the Board of Immigration. He describes at length the trip, the ovations received, the line of travel, and concludes as follows:

"At least 200,000 people visited the car during a journey of about 7,000 miles, occupying seventy-four days. The car traveled mostly by night and was exhibited by day. Judging from conversations held with individuals, with agents of intending colonies that are being formed in various localities visited, the great desire manifested by thousands to sell out their property and come to Oregon, the number of letters at my office awaiting my return from people whom I met on the trip and their friends, seeking further information about prices of land, etc., I am forced to the conclusion that the result will be the arrival in Oregon early in the coming year of thousands of families, single men and women, seeking permanent homes and business connections of every kind."

Mr. Baick suggests that the people of every county in this state pass resolutions instructing their senators and representatives to vote for the maintenance of the State Immigration board, and advising the farmers to divide their farms.—Portland News.

Will Tenuison has 1000 cranberry plants growing at his place on Beaver slough. He is satisfied that the Beaver slough country is well adapted to the culture of this shrub. The growth this season was surprisingly large, and no plants died. He is not sanding his bog as most do, but is putting them out with much less expense, which Mr. Barr of Washington territory, one of the most successful cranberry culturists on the Pacific coast, thinks is preferable.

Coaled Letter.

Dunham & Co. are still running at the rate of about 500 cases of salmon per day. They have over now, and have shipped, about eight thousand cases.

Steamer about ready to put on the slough.

C. A. Hanseom has shut down his camp and has fulfilled his contract, but is still keeping 15 head of cattle at the claim, the claim and season being worked out at the same time. He has put in about fourteen and one-half millions off 160 acres of land (judged to be).

There were six women weighed here the other day and their aggregate weight was 1131 lbs. What small town can beat that?

We have a Sabbath school that has been organized about three months, called the Conledo Union Sabbath school, and it is quite well attended for so small a place.

News Along Coos Bay Wagon Road.

Considerable rain and some snow the past week.

Stages still go from Roseburg to Coos bay in spite of the mud.

Miss Emma Laird, of Laird's station, is in Douglas Co. visiting at her brother's, J. D. Laird.

DIED.—At Gurney's mill, Nov. 19, 1886, infant daughter of Delia and Voltaire Gurney.

Serious Blizzard.

Chicago, Nov. 23.—Dakota specials indicate the second blizzard of the season which started in early yesterday morning. Portland reports twelve inches of snow and drifting badly. At Jamestown the passenger trains are on time, but freights have been abandoned.

Aberdeen reports the Ellendale, Ipswich trains as snow bound. The supply of coal in the region is nearly exhausted. A serious blizzard prevails generally throughout Montana, Northern Dakota, and Minnesota.

The books of the late W. F. Owens have been found, and are now in the hands of the administrator, C. W. Johnston. These books will prove a great benefit to the administrator in the settlement of this estate, and without which he could scarcely have made satisfactory adjustments. Some of the cattle and sheep belonging to the estate was sold under a chattel mortgage last Saturday, and brought fair prices. Mr. Johnston is handling this business as well as could be reasonably expected in its confused state.—Review.

Surface Indications

What a miser would very properly term "surface indications" of what is beneath, are the Pimples, Sties, Sore Eyes, Bolls, and Cutaneous Eruptions with which people are annoyed in spring and early summer. The skin matter accumulated during the winter months, now makes its passage felt, through Nature's endeavors to expel it from the system.

Ayer's Sarsaparilla,

which is sufficiently powerful to expel "surface indications" of what is beneath, are the Pimples, Sties, Sore Eyes, Bolls, and Cutaneous Eruptions with which people are annoyed in spring and early summer.

PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists: Price \$1; Six bottles for \$5.

Coming, Coming, Coming!!! COQUILLE CITY!

The coming Town of S. W. Oregon!

Few towns possess the natural advantages that Coquille enjoys, and which will, in the near future, cause it to blossom as the rose. It has a beautiful and pleasant site, being situated, for the most part, on a level plateau on the sunny side of the Coquille River, thirty miles from the Pacific ocean, which is reached every day by a four-hour steamer ride.
