Dr. M. M. Murphy successfully removed a respectably sized tumor from the beaming countenance of one of our well-known Coquille river young ladies, one day last week. As the doctor got such a good seal on his work that future admirers will hardly be able to trace the location of the former intruder, we refrain from giving names. Find out where it was yourselves, boys.

**An Obscure death—Investigation Required.**

We learn in a roundabout kind of a way, as nobody seems to know anything definite about the occurrence, that an old man named James Jamieson, who lived with the gang of Indians that infest Randolph and vicinity, and who earned a good livelihood by sawing wood, was found drowned in the slough at Randolph late on Thursday night or early on Friday morning. It appears that the old man was seen at 7 p. m. on Thursday evening alive and rumor has it that some Indians found his body floating in the slough late that night or early next morning and tied it up, when some Indian women came and took it away. Now, this is an improbable story. It is well known that a body will not float so soon after drowning, and such an improbable rumor, coupled with the fact that the man was known or was supposed to have had \$800 saved up, none of which appears to be forthcoming, gives this matter a dark look, suggestive of foul play, and it is somewhat surprising that more accurate details are not forthcoming. We can make no charges at present in this particular instance, but the Indians at the mouth of the river have been in bad odor for a long time, and it is the general verdict that Randolph and vicinity would be better for their rona than their company. We trust that a full investigation of facts will be made and that the details of this matter will be brought to light.

**DIED.**—At Norway, Oct. 12, 1887, Hester Juliet Nelson, daughter of Mrs. Anna Nelson and the late Oden Nelson, aged one year, nine months and four days.

The weeping mother has the heart-felt sympathy of the entire community.

But a few short months have vanished since a father from us torn; Ere that grief we could have banished Now we lose the youngest born.

For it seems to be but yester Since our father took his flight; Now on wings our little Hester Follows to the realms of light.

Did he miss thee, little daughter? Did he call thee from his grave? Did he beckon o'er the water? Did he bid thee cross the wave?

Yes, he beckon'd—for he miss'd her— Beckon'd from the other shore— Go and dwell with father, Hester, In that bright land evermore.

**In Memoriam.**

**DIED.**—Sept. 7th 1887, at Rosalia, Whitman county, W. T., of that dreaded disease consumption, Sarah A., wife Joseph P. Davis, and daughter of Mr. and Mrs. Wm. Cribbins, of Angora, aged 23 years, 3 months and 12 days. She was an affectionate daughter, a devoted wife and a loving mother, and a faithful Christian. She was a favorite with all; none knew her but to love her. She bore her sufferings with Christian fortitude, always murmuring, "thy will be done, not mine." She leaves a husband, two children, a father and mother, four sisters and three brothers and many friends to mourn her loss, but weep not for she is not dead, but sleeping. She will soon waken to welcome us on that immortal shore.

Dear Sarah is in Heaven, She has entered the open door, Where bright angel ones are waiting On that bright immortal shore.

It was hard to part with her, But the parting will soon be o'er. For we hope again to meet her On that bright immortal shore.

A. FARRER.

**Notes From the Sea-side.**

Dr. Holman, of McMinnville, has cast his lot among us. Anyone wanting work done in the dental line, would do well to call upon him.

A new schooner in this trade, called the Rosaris, sailed from San Francisco, Oct. 1, for this river.

Last Tuesday, was the hottest day that we have experienced this season, being 2 degrees hotter than at any other time. It was then prophesied that it was a "breeder" of a bad storm. But up to this writing, we have had but one slight shower.

Mr. J. D. B. Lee, of Myrtle Point, has been shipping to this part of the river, a first class article of hay, this last week.

The wild geese are flying high. A light shower Thursday evening.

Weather warm and cloudy. No news of importance to report.

B. B. Fetters and Ed. Neely went to Sumner to-day with a four-horse wagon load of eggs. They will return with their winturs supply of groceries shipped direct from San Francisco.

Mr. Neely raised some oats this year which is the largest we have ever seen, a sample of which will be sent to the HERALD office the first opportunity. We would also report how large some of the potatoes are, raised in this section but we are afraid it would be called a "campaign" lie by people in other states.

If the time for holding the Coos county fair was changed to October allowing our crops time to mature we could then have something for exhibition that would be a credit to our country.

We have heard it very frequently suggested by strangers traveling over the country, that sign boards at the cross roads would be an accommodation to newcomers. Where is our supervisor? We will furnish a brush if he will scratch around and get the paint and a board or two.

The merchants here are all busy and rejoicing.

Mr. Wm. Volkmar, our worthy tinner, has been adding some more work to his dwelling, in the way of putting rustic on and painting. This gives it a very neat appearance. This is a flat roofed house, the first in this part of the country.

On Wednesday, October 12, 1887, Mr. Samuel Adams and Miss Martha Coy, and also Mr. Charles Dye and Miss Mary Buell, were joined in the holy bonds of matrimony. Peace and happiness to their memory. **A TIGHT PLACE.**—Last week Mr. M. Wickham who works in the mill at this place, got his leg caught by a moving log and pretty thoroughly crushed. At present he is getting along fine and will soon be all O. K.

**GIVE US A REST.**—There was rather more noise and racket than was necessary for sleeping purposes on the corner Second and Elliot St. on last Saturday night. It is a good plan to put such things off till the next day.

**OUR NEIGHBORS.**  
(Gold Beach Gazette.)

A. M. Gillespie arrived at Crescent City a few hours too late for the steamer, and not to be delayed he took the stage for Grants Pass, where he boarded the cars, and "got there just the same."

The "Big Sun Flower" can now be seen in our office. It measures 18 inches across and was left by Porter Zahniser who brought it from Tho's Smith's ranch. It is not the best looking, but it is wider across the face than any sunflower we ever met.

Business was booming about the cannery for a few days last week. As high as four thousand salmon were caught in one day, and about eight thousand in three days. As is usually the case this immense run lasted but few days, when they slacked off again. Taken altogether the present season has been the average in quantity of salmon caught.

[Coast Mail.]

Reports from the Siuslaw indicate an almost limitless supply of silver salmon on that river. When Capt. Campbell left, on Monday of this week, there were about 7000 fish lying on the wharf in front of Kyle & Bergeman's cannery and the boats were also filled. The canneries have been compelled to shut down on fishermen, as they were unable to take care of the catch. The Umpqua fisheries are also supplied with all the fish they want.

J. F. Hall passed his examination before the supreme court last week, and was duly licensed to practice as an attorney in all the courts of this state. His many friends will wish him the greatest success.
