

The Cannery-Union Situation.

The fight on the price of salmon was kept up between the canneries and union fishermen on this river until the latter bought the Mount Hood cannery—now the Union Packing company—when Mr. Hume of the English Flag company saw he was done for, and at once came up to union prices and wanted a division of boats. He, through friends in the union, had a special meeting called for Friday at which the union agreed to stick to the union cannery after being assured that it would take all the fish caught by union men, and pay 40 and 70 cents for the same. To make sure that all fish could be cared for ample salting houses for all emergencies have been leased. Now comes the English Flag company through its book-keeper, Mr. Laws and offers 45 and 60 cents for fish—simply to make a break in the ranks of the union. Once that done, that company would do as it did two years ago—turn off half the boats (and that half include all home boys) limit the boats to 40 fish and put the price to 17 cents. If the boys are foolish enough to be gulled by such flattering offers, they will pay dearly for it.

Designing persons are giving currency to the report that the sale of the cannery to the union is all bucon be, but we have the utmost confidence in Robt. Ballard and Edward Fahy who did the business and assures the union, to whom they dare not prove traitors, that the sale is genuine. Some pretend to say that the cannery is not worth the price paid—\$7000—but Mr. Danilson says it is a bargain at that figure, and he put up the buildings, put in the machinery and knows more about it than any other person. The machinery was purchased at about one-third the price that that new would have cost, and Mr. D. says that most all of it is as good as new.

Parker's Mill.

A visit to the Coquille Mill and Tug company's mill at Parkersburg will convince anyone that that is one of the institutions of the river that has come to stay, and of which our people may justly be proud. It is one of the most complete to be found anywhere, being perfectly arranged for good work and profit-making, and its management has been all that could have secured the success that it has enjoyed. The company has its own schooners and tug, and its mill is located at a most advantageous point on the river, with fine boom privileges. There seems to be less waste of timber than is ordinarily seen at mills. Short lumber is turned into broomhandles, lath, etc., and much of the slabs and offal is sold to local boats for steam wood. The company keeps a supply of goods and it is said by employes that the prices are as reasonable as those of any store on the river. Capt. Parker (for whom the village was named), the builder of the mill and its shipping crafts, and one of the principal owners, is to be congratulated on his enterprise, and consequent success.

A horrible affair is reported from the neighborhood of Guide Rock, Kansas. One John Baker while feeding a threshing machine was accidentally cut on the hand by a boy who was cutting bands. In his rage he seized the boy and deliberately fed him into the threshing machine, feet first. The boy's screams attracted the attention of the other hands, but before they could interfere the boy's body had half disappeared in the machine. The enraged men seized Baker and hanged him to the strawcarrier.

The papers publishing the amount the "widow" of Mr. Orteig is to recover from an insurance policy on his life had better wait till he dies. It was \$70,000 that was received by the Wimers for their mines, instead of \$7,000.

The Coquille City brass band has been engaged to play for the G. A. R. encampment. Don't fail to go to the district fair. A good time is assured. Take something for exhibition. Will Martindale has improved sufficiently of late to be moved to the residence of Mrs. Anderson. The cottage lately completed near the Universalist church by A. L. Nosler, is to be occupied by Rev. W. B. Smith. Mr. Viles who purchased the Grube timberland a few days ago is still looking for some good tracts, and will be here for several weeks. The 25, 26, 27th, are dates for the G. A. R. reunion, encampment and big time at Bandon. Go and witness the festivities and take in the beach. See posters next week. Capt. Harkins in company with Fred Schetter, Esq., of Empire, City was in town yesterday. The captain is looking around with a view to building a steamer to run to this river. If he concludes to build one, it is the intention to hurry it to completion and run it so as to catch the winter trade. J. W. Wimer returned from Josephine county Sunday accompanied by his brothers, George and Adam, the former having recently purchased the Kronenberg place. The latter is engaged in the saw-mill business, and is down on a visit, only, but we opine he is good for Coos county, and we will await and welcome his coming. The Recorder seems to think that the retention of Gilstrap as manager of the lower cannery, indicates that the sale to the union is not bona fide, though it publishes that ten cents is to be deducted from each fish which is to go towards paying for the cannery. Would the Recorder turn off all former hands and take possession, paying up in ten cent installments? There were two parties to the contract. The many friends of the former Mrs. T. S. Rodabaugh were pleased to see her back here last week, after an absence of about eleven years. She lives in East Portland where she has a pleasant home near her daughters Josie and Jennie, whom many of our readers will well remember. She is visiting her sister, Mrs. Albert Graham, on upper river, and with her, visited their old friends in this place Saturday. The most destructive fire both to life and property that has occurred for many years in the city of Baltimore, broke out on the morning of the 2nd inst. Seven fine iron and brick front buildings besides nearly a whole row of other houses, were totally destroyed. The falling of a wall of one of the large buildings covered nine of the firemen seven of whom were killed instantly, the other two being extricated alive but seriously injured. The California Lumber Co., through its manager D. H. Bilb, secured the contract to furnish piles for the city of San Francisco. The getting out of the piles will furnish employment for a large number of men during the winter, when logging camps are shut down, and will be financially quite a benefit to the bay. The company has also contracted to supply a large amount of lumber, and the new mill at Porter starts work under very favorable auspices.—Coos Bay News.

The most alarming and violent attacks of Billions Colic or Cholera Morbus can be promptly relieved and cured by taking Chamberlain's Colic, Cholera and Diarrhoea Remedy. Sold by J. H. Nosler, Coquille City; also by W. L. Dixon, Myrtle Point. THOSE EMIGRANTS—who are daily arriving will find after looking well around and pricing lands from first hands and trying all the agents who disclaim any interest in selling lands, but work for accommodation, that by calling on Sherwood & Sanford who work for pay instead of glory they can secure bargains that beat them all, as we handle lands and other property for those who are anxious to sell and price accordingly.

Bandon. Mrs. K. K. Caldwell died Saturday night, about 2 o'clock and will be buried in Bandon cemetery on Monday at 2 o'clock, the funeral services to take place at the graveyard.

The S. M. E. church closed their quarterly meeting at this place Sunday night, Bros. Swafford and Craig officiating.

Rev. Swafford purposes to lecture in the Bandon schoolhouse Friday night the 14th, at half past 7 o'clock.

D. Sponogle visited Bandon Wednesday evening and Dr. Leneve was called to see Mrs. Caldwell on Saturday, but came too late to do her any good.

It is said that Friday was the warmest day of the season in the mountains south east of here. The thermometer was up to 94 in the shade, at Clark & Dwyer's place.

Pat. Dwyer has gone to New York to visit his relatives, and will not return until just before or after the Nov. election.

Company K. enlivened the street today with their bright, blue uniforms. They are a goodly looking set and a jolly lot of boys.

John Smith.

W. Shone, of Eureka, California, has just purchased the Judge Nosler ranch eight miles down the river. The price paid was \$1600. This place contains 40 acres of good hill land and 83 acres in the bottom with one-fourth mile river frontage. This is the foundation for one of the finest dairy ranches in Coos county and Mr. Shone has invested well. The sale was made by Sherwood & Sanford who are using all commendable means to let outsiders know that Coos county offers as good a field for the investment of capital as any county on the Pacific coast. Those who have property for sale will do well to place it in the hands of these gentlemen at once, as they have the best opportunity to see all who come here with intention of buying.

Married.—At the residence of the bride's parents at Empire City, by Presiding Elder J. W. Craig, Rev. W. B. Smith and Miss Ada F. Lamb. The bride is the eldest daughter of our worthy county clerk J. J. Lamb, and is one of the most estimable young ladies of the county. She has been a teacher in our public school this season and is especially liked in Coquille City, but not less so in other parts of the county than the most favored. We are much pleased to say, too, that the groom is a most excellent young man, and is much devoted to the cause, the expounding of which, he has chosen as his lifelong calling. May peace, prosperity, and happiness be theirs. Cake acknowledged.

Six section hands were killed near Boonville, Mo., on the 1st inst. by a freight train jumping the track when they were at work.

For the Summer Complaint use Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is perfectly safe for children of any age. Sold by J. H. Nosler; also by W. L. Dixon, Myrtle Point.

LOST.—A promissory note bearing date of Oct. 20, 1887, for \$150 in favor of the undersigned, from Levi Snyder with N. Lorenz as surety has been lost, and I hereby warn all persons to not purchase said note.

A. L. NOSLER, Coquille City, Or. Sept. 10, 1888.

READY WITNESS.—Any one who has ever tried Chamberlain's Colic, Cholera and Diarrhoea Remedy or seen it tried for cramping pains in the stomach or bowels, Cholera Morbus or Diarrhoea, is ready and willing to recommend it. It always cures quickly. Sold by J. H. Nosler, Coquille City, Coos county, Oregon.

Baker City was visited by a \$250,000 fire.

Chinese Bill Passed.

Washington, Sept. 3.—Scott, of Pennsylvania, introduced in the house, without objection, to-day, bills supplemental to the bill to execute certain treaty stipulations with the Chinese, which provides that no Chinamen who shall hereafter depart from the United States shall not return thereto after the passage of the bill, also no certificates shall hereafter be issued the Chinese laborer and all now in force shall be declared void. All parts of the act to which this is supplement is repealed. The house passed the bill without division. The senate unanimously decided to take up the bill and are now considering it.

Fire at San Diego.

San Diego, Cal., Sept. 4.—Fire broke out this morning in Klauher & Levi's general merchandise store in Barkertown block, the most substantial in the city. The flames spread on both sides and the whole block is now burning. There is no water a hand and the block will probably be a total loss. The fire is now under control. Loss fully \$200,000, upon the stock and \$45,000, on the building. Insurance on the stock \$125,000, and on the building \$30,000.

It is rumored that several firemen were buried in the ruins, as the roof fell very suddenly. Labores are now digging out the ruins as rapidly as possible.
