Miss Hattie Coleman of Grants Pass who has been teaching at Fishtrap, was the guest of Miss Whitelaw last night. In honor of her presence, a small company assembled to sing and have a good time generally. Miss Coleman is on her road home, thereby depriving Coos county of some good musical talent; but she talks of returning in April.

Mrs. S. A. Ward, our harness maker, killed a monster brown bear at his place down the coast a week ago Saturday. He found it where he went to gather some huckleberries, and he shot it. The first shot only irritated the brute and it made for him. Ves got in a second shot and tried a third, but found his gun empty. The bear passed uncomfortably close, but did not find his man who had adjourned. His eyes could have been lassoed with a grape vine. The bear was found dead soon after and Ves's eyes subsided.

A LISTENER.

Messrs. J. F. Tichenor J. V. Burke Geo. Guerin and Mr. Rounds left here yesterday morning for the mines on South Coquille. The two former gentlemen are just up from the city and are prepared to make some accurate tests.

Roll Long fell from the head of the stairs in the Seofield residence at Dora and paralyzed his entire body. Dr. Spoungle went to see him and has little hope of being able to save his life. The nature of the injury is not easy to define, but the Dr. is quite certain it is concussion of the vertebra, or a fracture of the third or fourth cervical vertebra. In the latter case there is no hope of his living.

I wish to call the attention of my many customers and the people in general, to the fact that I have just received and have on exhibition one of the largest stocks of clothing ever brought to this city, consisting of children's, boy's and men's suits and over coats, ranging in prices to suit all and in quality unsurpassed. Owing to rapid sales, I have greatly reduced prices, thereby bringing my goods within the reach of all. Quick sales and small profits is my motto.

N. LORENZ.

DR. J. D. SPOUNGLE.

Coquille people may congratulate themselves on having so skillful a doctor as Dr. Spoungle. His thorough knowledge of medicine and surgery has been fully demonstrated in many scores of cases of late, and just now, when we are threatened with a diphtheria epidemic, his skill must carry us through. The people have the utmost confidence in him which is better shown in the cards of thanks received from those who have been saved from early graves, one of which well merited compliments we give below and which appeared in the Bandon Recorder of the 31st ult.

I wish to return my sincere thanks to Dr. Spoungle, of Coquille City, Oregon, for his skill and kind and careful attention to me during my recent illness, caused from a severe injury in falling from a pile driver while employed by John W. Hume, as I consider it was due to his great skill and Mr. and Mrs. Hume's kind care that my life has been spared to me. I cheerfully commend him to suffering humanity and shall always remember him with the most kindly feelings. I also wish to thank Mr. and Mrs. J. W. Hume and others, who were so kind and attentive to me while injured.

CLEMENT ORTEIG, Astoria, Or., August 7, 1889.

The Fair.

The fair which opened at Halls Prairie yesterday morning is poorly attended, the result, mostly, of general apathy of the farmers and stockmen of the county, and partly owing to the diphtheria scare. It is thought that the attendance will be good the last three days, commencing to-morrow, owing to the fact that the fair is in the eyes of the people, and suggests that it be turned into a jockey club.

THE EXHIBITS.

In pavilion and stock are grand indeed, many are pronounced the finest ever seen by even the oldest settler. Notably among these are those of J. W. and G. W. Wimer, W. P. Mast, W. H. Harris, Fred and Henry Schroeder, G. R. Edmunds, and a number of ladies. A cheese made the day before it was brought on the grounds, by J. W. Wimer, was the finest without exception that we have ever seen. He had worked day and night almost to get his factory ready to place a sample of product on exhibition, and is to be congratulated on his success, and the efficient work being done by Mr. Roberts, his cheese maker, who lately came from Missouri. He also had on exhibition a two-year-old Short-horn Durham cow that has not a superior in an animal of a year over her age on the coast. Men who have visited the fair in the east say that she discounts any thing they have ever seen. Mr. W. has also an English Yorkshire sow and litter of pigs. They are splendid swine, their peculiarity being that they seldom root, but are grazers instead, and are small boned. They are always fat and mature early.

George W. Wimer had his fine Red Short-horn Durham bull, Red Rose Prince one of the best imported bulls ever brought to the coast. It is a treat to see this bovine monster who is but three years and eleven months of age. He took premium at the State fair. Another exhibit of Mr. Wimer is Willamette Chief, a four months old thoroughbred Berkshire pig, for which \$40 was paid at Salem recently. He is certainly the finest specimen of hog ever brought to Coos county. Mr. W. also had a splendid 4 month's old colt on exhibition.

Uncle Billy Mast has his usual collection of large vegetables.

As fine peaches as ever grew in America were the exhibit of Capt. W. H. Harris of South Coquille.

J. A. Hauson's exhibit of wood turned work is much admired and shows much skill.

Mrs. A. G. Aiken has a magnificent display of millinery showing up to good advantage.

Mrs. Boutell and Miss Annie Leneve of this place have each a fine display of fancy work.

Up to 4 o'clock p. m. yesterday not a sheaf of grain of any kind was on exhibition except a couple brought in by Henry and Fred Schroeder. This is a shame. Even the exhibits that are there in this line were not selected with regard to quality, but merely to encourage those who it was supposed would have some really meritorious exhibits on hand.

Private School.

ACCIDENT.—Provit E.—Dean, elder brother of the HERALD proprietors, met with a sad accident while falling a tree near Hon. J. H. Robert's place last Tuesday. He and Edward Jenkins had just sawed down a big maple and as it fell he walked backward, watching for falling limbs. The displacement of air caused by the falling of the big tree caused an old dead stub some 20 feet away to fall, coming down behind. This he did not see and the noise of the tree he had just cut prevented his hearing the falling stub which came down glancing the side of his head and shoulder and knocking him down catching his feet, inflicting a compound dislocation of right ankle joint called by surgeons a "Potts fracture" as the small bone of the leg is always broken in this dislocation. We are informed by the attending surgeon, Dr. Spoungle, the chances are decidedly against "saving" the foot. As yet the patient is resting easy and doing very well.

Prevention and Anticipations. Editor HERALD:—I notice by "poster" that the residents of your beautiful city are in fear of a visitation of that much dreaded and fatal epidemic, diphtheria. A meeting of the citizens was called for the purpose of coming to some conclusion. Also regards to the best method of keeping this much dreaded disease from your midst. Mr. Editor, as a stranger, I would suggest that each and every person see that the premises on which he lives be kept perfectly clean; also that out closets be purified with common lime, and that the children be bathed every morning either by sponge or plance as the case might be. To the parents of children I suggest that they buy at the drug store one ounce of rolled sulphur and one-half ounce gum camphor. Have the druggist compound them thoroughly; put the mixture into a small sack or bag made of unbleached muslin, in size one and one-half by two inches. Suspend this package from the neck to the chest. I think by using this precaution you need have no fear.

MORE ANON.

The citizens of Myrtle Point appointed a committee last Saturday evening for the purpose of collecting a fund and employing some man and woman to go to Sam Smiths whose family is afflicted with the diphtheria. A purse of \$18.25 was raised by Capt. Harris and G. W. Majory, Jr., who were the committee. Mr. Majory and Mr. Dodge came down to this place Sunday for the purpose of getting our citizens to act in concert with them in the matter, but in consulting with Dr. Spoungle, Smith's physician, and other citizens, it was found that the move was not necessary as the doctor thought the danger was over. Mr. Dodge took the funds back and the committee will refund it to those who contributed.

Linkville Or., Sept. 6, About two o'clock this morning fire was discovered near Forlies' saloon in this city. The flames spread rapidly until almost the entire business portion of the town was destroyed together with a number of dwellings.

The burned district extends from Linkville bridge to the United States signal office, one side of which was burned out.

The estimated loss is \$200,000. It is settled beyond doubt that the fire was the work of an incendiary.

The W. C. T. U. of this place will meet at the M. E. church to-morrow afternoon Wednesday at 3 o'clock sharp all the ladies are cordially invited.
