Staver & Walker, the reliable machinery firm of Portland, have our thanks for a picture of Portland, East Portland and the Willamette river. It is by far the best view of Oregon's metropolis that has come to our notice. The two bridges are shown and indeed it is so accurate that one acquainted with the city can place his finger on individual places of business. In the center, below the main picture, is the picture of New Market block where the extensive business of this firm is carried on.

R. H. Rosa, the enterprising mill man of Bandon, was in this place Thursday.

The general activity in improvements all over town indicates that the year 1890 will see the busiest season ever witnessed in this county. Not only a few are making these improvements but nearly every property holder in the city is doing something to beautify his or her premises. There are several new buildings to be built this season yet and extensive preparations are being made for operations in the early spring on others. New buildings were erected all over town this summer and still there are quite a number of families wanting houses to live in. Every available room is at present occupied and the hotels have nearly all they can accommodate. An unusual busy season next year.
