DIED OF DIPTHERIE.—Mrs. David Young, of Marshfield, died at that place Thursday evening last, of what the Dr's. there pronounce diptheria.

Some mail carrier needs bumping. Some days we get no paper mail and again when we do get it, it is wet, soiled and worn. No excuse for such.

The Union Pacific railroad will run its road on down to Astoria, at which that little city down by the sea struts about like a little boy with his first pants, and Portland looks down her nose.

A rich vein of silver has been found in New York, it is said, and indications that warrant the belief that Western North Carolina will yet rival California in rich gold mines. These stories come out annually, but they never materialize.

President Harrison placed his signature to the bill admitting Washington territory into statehood with a gold pen made from the ore of that territory, and the staff from its timber. The president will turn that pen over to the new state authorities.

The road from Figg's to Fishtrap only lacks a small amount of work at the Fishtrap end of being completed, and all that portion on Figg's side is said to be one of the finest pieces of road in the county reflecting great credit on Supervisor Hatch. Hurry up the other end.

Mr. T. A. Deroven, merchant, Deroven, Louisiana, says: "The St. Patrick's Pills went like hot cakes." People who have once tried them are never satisfied with any other kind. Their gentle action and reliability as a cathartic is what makes them popular. For sale by J. H. Nosler, Coquille City, and W. L. Dixon, Myrtle Point.

The government of Brazil has been overthrown by the people with a view to establishing a republic. The country was ripe for it, and even the emperor offered little resistance. There was two men killed in all the whole affair. This is the way to settle matters. The principal effect will be to raise the price of coffee during the excitement.

HAND HURT:—Will Sugg had the misfortune on Tuesday last to lose two fingers and the thumb of his left hand in a bolting saw in the mill at this place. He was pushing a bolt through that was somewhat crooked and which kept a vibrating motion. He was pushing hard, when the saw struck a crack in the bolt and his hand went on into the saw before he could check it. The two front fingers are off at the second joint and the thumb just back of it. Will is a poor boy as far as this worlds goods go, but is rich in that he has one of the best wives in the world. This insures good nursing and to provide against the loss of time and Dr's bills his friends made up a purse of upwards of $100., the Trombone band contributing $35.

THE STORY OF MAN.—The foregoing is the title of a book for which the lover of history is wild. It gives a history of the human race from the creation to the present time, embracing account of the origin of the races and their dispersion over the earth; pre-historic man; cave, lake and tree dwellers, etc.,and also all pre-historic animals, etc, It is the most fascinating book we have seen, besides it is worth its weight in gold to the school boy. He will never let up till he has read it, and it is gotten up in such a way that it will impress itself upon his mind. It is superbly illustrated. Rev. R. J. E. Campbell of Bandon is canvassing for the book, and we advise you to see him or write to him at once. He is also co-porteur for the Bible Society and you can get supplies in that line from him.

Mallards seem bigger, fatter and tamer this winter than usual.

If it turns out that Marshfield has had a case of genuine diphtheria, that town will likely be a veritable pest house for a while. We hope the dissenting Dr. is right.

Mr. Campbell, of the firm of Wimer & Campbell, has been suffering terribly with a sore and badly swollen hand for several days. It was feared that blood poison was afflicting it.

Mrs. R. O. Kirkpatrick of Big creek Middle Coquille has our thanks for some luscious strawberries. She has gathered these fine berries every day since May 1st, and the vines are yet full.

Uncle Sammy Robison of Fishtrap raised a squash this season that measures 6 feet 6½, and weigh 164 lbs. Only that it is starting to rot he would have put it on exhibition in the HERALD office.

Prof. Rork, who is speaking for the new union party—the prohis and K's of L. combined—will be in Coos county about Dec. 1st. It is worth your while to hear the professer if you never have, for he is one of the most logical and convincing speakers on the coast.

The project of building a large steamer for the river has fallen through. It is now suggested that an ocean steamer be built in its stead. There is not a doubt of its being a more profitable investment, and the benefits to accrue to the people of the river would be a hundred fold more.

The Southern Oregon State Board of Agriculture meets at Central Point to-day to vote on the site for the coming district fair. It is especially urged that a full vote be had and if possible bring the society to a knowledge of the fact that the interests of the district demand a change of the place each year alternating between the counties that keep up and support a local fair. Next year the fair should be held in Douglas county by all means.—Since writing the foregoing we learn that we (the editor here of) have been appointed by our local board a member to attend, but owing to the shortness of the time, it is impossible to get there in time, which we regret very much.

The governor for the port of Simon, Costa Rica, has received notice that Nicaraguan authorities are damming the head of the Colorado river so they may enter the sea via Greytown. A leading editorial in a Nicarangua daily says: We are in receipt of glad tidings from the seat of canal operations. The contradictory rumors set afloat by the enemies of the enterprise are all proven false. Houses, machinery and men are arriving at Greytown by every steamer, and the great work is now going forward in earnest, thousands of sturdy laborers are now employed on the first section, located two miles above San Juan del Norte, and everything is being pushed with a vim. A special agent of the canal company who has just returned to San Jose de Costa Rica from Managua and Greytown, reports all questions between the governments of Nicaragua and Costa Rica settled amicably, and that work will now proceed in earnest.

Winter Cholera.

A species of bowel complaint, known as "winter cholera," appeared in several cities in the Northwest last winter and is likely to be more general this season. Chamberlain's Colic, Cholera and Diarrhoea Remedy is a certain cure for it. For Sale by J. H. Nosler, of Coquille City, and W. L. Dixon, of Myrtle Point.

Schooner Fidelity Capsized—All Hands Lost.

Eureka, (Cal.,) Nov. 16.—The schooner Fidelity, L. H. Christopherson, master, was taken in tow by the tug Printer this morning. The tide was on the ebb and the bar was very rough. The vessel got over most of the large breakers on the bar when one caught and capsized her instantly. The masts snapped off as the vessel turned bottom side up. Not a living soul was seen after the breaker struck the vessel. Hans Peterson was steward and leaves a family in this city, as does Captain Christopherson. All the balance of the crew were new men. The schooner is a total wreck. She was owned here by Sweasey & Son, William Huntoon, William McDaniels, Captain McKinnon and Captain Christopherson.

The tug Ranger to-day shipped a heavy sea and the mate, John Rogers, was swept overboard and lost.

The Fidelity was a schooner of 182 tons net burden. Her dimensions were: Length, 106; beam, 30; depth, 8:5 feet. She was built at Eureka, Cal., in 1882, and W. J. Sweasey of that port was her managing owner. The amount of insurance on her could not be ascertained last evening. The Printer is a small tug which was recently in this port. She seemed hardly powerful enough to tow across a rough bar like Humboldt. She was probably towing across the bar; owing to the following sea was unable to keep a strain on the tow rope, and the schooner got into the trough of the sea and capsized.

Although no gales have been reported there seems to have been a rough sea along the northern coast. The Cosmopolis, which arrived yesterday, was delayed two days at Grays Harbor by a rough bar, and a private dispatch received from Grays Harbor says that the Argonaut had been detained there since the 12th inst. on account of the bar being very rough.
