**Coquille City Herald.**  
**UP-RIVER DEPARTMENT,**  
 ORVILLE DODGE, EDITOR,  
 Myrtle point, Coos County Oregon.  
 TUESDAY, JAN. 7, 1890.

Those excellent people, the Dunkards, are holding protracted meeting in town.  
 Dr. Brower is having excellent success and is in the saddle considerable of the time.  
 We were misinformed; Mrs. Wise does not wish a change of our public square. She wishes the present one improved.

The Coquille City HERALD is maintaining its usual popularity and is called one of the best local papers in Southern Oregon.

A. H. Fish and Mr. Otto of Myrtle creek came down Sunday. They report that stock are doing well notwithstanding the cold weather.

Rev. Wm. Pullen has had workmen clearing off a lot and is preparing to build soon near Maple and Fourth streets. He expects to establish a meat and produce market.

Taylor Johnson sold his lot on Spruce street last week to Joseph and Andrew Radabaugh for three hundred dollars. This is opposite Rackliff's store and a corner lot. A large meat and vegetable market will be opened as soon as a suitable building can be erected thereon.

D. F. Brady of Douglas county called a few days since. He is canvassing for a work that tells what the great minds of America have done during the last century, and he expects to take orders for Stanley's last works. These are very valuable books and should be in every library.

We have wondered for sometime where Miller & Smith, the butchers, get their fine beef, but the mystery was solved when we learned a few days since that they came from Levi Gant's splendid farm. This is one of the best grass producing places in Oregon, and is nearly all seeded down to the richest kinds of beef and milk producing grasses.

C. E. Schroeder has purchased three lots of J. C. Brown in the new addition to town, and will commence building immediately. Thus we see the choice lots in this desirable part of town are beginning to go. Alfred Schroeder has also about closed the bargain for a lot, and Sol Wise has taken a whole block. Now is the time to invest before they are all sold.

The usual large crowd that visits the post office at Wise & Bender's store Tuesday evenings for the purpose of receiving the Coquille City HERALD were agreeably surprised New Years eve while waiting for the obliging postmaster to distribute the mail, to each receive a present of a sack of flour, and those who smoked, a package of smoking tobacco. Sol Wise was the donor and he looked as happy as a big sunflower while dealing out the samples.

The "beautiful snow" made its appearance on the morning of the 3rd; only just enough to carpet the ground in the valleys. The Sugarloaf mountain and the hills that range along each side of the Coquille bottom looked grand and beautiful, clothed in the pure and sparkling christals dotted with the emerald hills of cedar and hemlock boughs. A grander scene scarcely ever met the eye than these snow capped hills and the Coquille valley presented as the mid day sun cast its golden rays across the romantic landscape.

J. H. Janssen who is opening a new hardware and furniture store opposite Lowellen's is displaying very fine goods. His assortment of all kinds of mechanics tools are the best we have seen lately. Novelties in furniture and house trimmings meet the eye on every hand. This fills a long felt want at Myrtle Point.

Judge George M. Dyer of Bandon visited Myrtle Point last week. Mr. Dyer has been one of Coos county's best judges. His liberal ideas in regard to county roads and other substantial improvements are well remembered and there are many monuments in Coos county that speak for him and his liberality in the way of bridges.

W. W. and F. J. Rushmore dealers in imported and American bred Norman, Percheron and Clydesdale horses from California are stopping at this place. They have a Clydesdale and Percheron stallion with them. These fine horses are attracting much attention from the farmers of this section and it is probable that a stock company will be formed to purchase one of these beauties, which will be a great advantage to the country. The Clydesdale weighs near 1800 lbs. and the Norman is nearly as large. They should be seen to be appreciated.

The celebration of the New Year has brought to mind many similar festivals that took place in years gone by. Not among the least of importance was one that occurred at Myrtle Point in the winter of 1860, in the building now known as the Lehnher house. Henry Myers was then a bachelor and owned the town site. He had given out that he would give a party and had invited all of the settlers on the Coquille but the weather was very bad at the appointed time and only Samuel Dement and Capt. W. H. Harris came, and they were obliged to come from their places seven miles above the point on foot. So there were only F. G. Lockhart, Mrs. Lockhart, Samuel Dement, the musician, Henry Myers and Capt. W. H. Harris present. Lockhart lived near Myers and he and lady called in and helped to watch the old year out and the new one come in. This was a pleasant gathering. Stories were told; incidents of their pioneer life were related until the birth of 1861; and then Mrs. Lockhart retired and the men enjoyed the remainder of the night, supping at some spirited refreshments from a demijohn that Myers had brought from the Johnson diggings. Mr. Harris and Mrs. Lockhart are the only ones of that jolly party that are now living. There has been many changes since then. At the New Year's ball this year were grave and intelligent young men at Myrtle Point that have been born or raised on the Coquille since 1860 and we see by referring to the above incident that the old stag-ers are passing away and that a new generation are taking their places.

We learned by the Oregonian the other day that the new disease la grippe or influenza had come over the big seas recently directly from the grand coasts of St. Petersburg and that it had attacked members of congress and other great men of our nation. This was a strange freak of nature, at least it occurred to us that way, and the paper dropped in our lap and we began to ponder. After a few reflections we concluded that if this monster disease had marked the most talented men of our nation as its victims, while it was swinging around the circle, that we had better look a little out. So we began to study up plans to keep the gripple from our door. We returned to our room and doubled the

blankets and crawled in. In the morning our nose was refusing us an easy draught of air and convincing proof was apparent that a severe cold had caught us in his gripple. Expecting of course that we were the first person attacked in town we concluded to notify the inhabitants of their danger, but on going down town it was found that the high and the lowly had all been suffering for several days with the disease. We did not see Frank Poore, however; so his barber shop was soon entered and when he said he had been over the complaint a week; that Bart Green, John Smith, James Brown, Hon. J. H. Roberts, Grundy Short, the printer, and the devil had it about the same time we collapsed, and have been confined to our room ever since. We have lost our "grippe" and the aspirations that have buoyed us up so long are all vanished and we conclude that it is the big bead that effects us instead of the dog-lasted, royal Russian influenza. It is well for the people of Coquille City to quarantine as the disease may attack the editor of the HERALD in due course of time and he may spread it around town.

Capt. W. H. Harris was passing through an old garden last week, which the late Chris Lehnher cultivated for vegetables a number of years, and found a silver piece that was coined before 1820 as that was, we believe, the last date that that denomination was coined. It is twelve and one-half cents or what was called a "shilling" in the northern and eastern states. The coin had been punctured and a short steel chain was attached to it. This, as the Captain states, reminds him of an incident that took place in 1854. The river bank caved off near the town of Norway and opened an old Indian grave, and the Coquille Indians found coins in that grave that were dated 1760. At that time there were over a thousand miners at Randolph and some of them got possession of the ancient coin by trading for them with the Indians.

It is reported that an immense cottonwood tree went down the Sacramento river past Colusa, last week during the storm. Its only passenger was a large brown bear that seemed paralyzed with fright. As the tree swept under the bridge, at Colusa, the bear was its chance and by a rapid swing caught the lower beam, pulled himself up on the railway and trotted off in the country.—EX.

The West Shore has improved steadily since the first copy of the weekly was issued, and it is now the handsomest illustrated weekly in the United States. Its pictures of western scenes are of special interest, its general contents are interesting and valuable. Every house on the Pacific coast should receive the West Shore regularly. L. Samuel, Publisher, Portland, Oregon. \$4.00 a year.

Mr. T. A. Deroven, merchant, Deroven, Louisiana, says: "The St. Patrick's Pills went like hot cakes." People who have once tried them are never satisfied with any other kind. Their gentle action and reliability as a cathartic is what makes them popular. For sale by J. H. Nosler, Coquille City, and W. L. Dixon, Myrtle Point.

The weather this past week has been unusually cold for this part, just hovering around the freezing point. It is allowing the snow to cover the ground in the mountains and if it continues much longer it will be bad on stock. It has snowed in the valley, but that has about all melted off.

The Roseburg review published a 8000 issue last week telling all about the Umpqua valley.

**Thanks.**  
 The Ladies of Mamie "Rebekah Degree" Lodge No. 20 take this means to express their thanks to the people in general for their liberal patronage, to all those who contributed to make a success of the ball at this place on New Years eve and we would especially remember Mr. and Mrs. J. A. Collier for the use of dishes for the occasion.

Thomas H. Mills, aged 70, an old pioneer of Grant county, Oregon, was killed near his residence in that county by Andrew Hanson, a sheep herder. Mills had been to Prairie City, where he got drunk, and going home, fell into a ditch. Hanson came along, thought him a wild animal, and shot him several times with a Winchester before discovering his mistake.—EX.

**The Bigs and Jigs of Bandon.**

Oh! my name's Pat McQuillan, I live close to Bandon. The rising young seaport on brink of the sea; And as long as I've got just a leg for to stand on, I'll stick to fair Bandon, she's the darling for me.

This maiden's now famous, though her clothes are yet swaddling; Her much older sisters fair now have reason to quake, For as she grows older and ceases her toddling, Their bulwarks and breastworks she'll conquer and take.

She has nurses right many, with vim on their faces, J. Upton, George Dyer and bold Ralph H. Rosa.

With Averill, Jensen, and our short-legged Toddy with white racers her snug little bay.

And as summer approaches, the roads will be thronging With gay pleasure seekers, who from business have flown.

All rushing and crashing and anxiously longing To get a good whiff of famed Bandon's ozone.

And the gayly decked steamers that madly are forcing Their way to glory, with guests coming in down, And the Myrtle Point band who are sweetly discoursing The rigs and the jigs of famed Bandon town.

Now what place can compare with her beach and loathly bay? The air that surrounds her, from contraption is free; No place else to be found in this wild rest-les nation Where the wind from the mountains, weds the sand of the sea.

—Henri de Bouillon.
