TUESDAY, JAN. 28, 1890.

Big stock of splendid potatoes at Johnson Bro's market.

Bargains in the new goods just received at Lyons' store are the rage.

It you want real bargains in good, honest goods, go to LoReNz'S cash store.

Go and see Lyons' new goods. He makes it to your interest to buy of him.

The bill to set Crater lake apart as a public park has passed the U. S. senate.

BORN.—Near Coquille City, Jan. 21, 1890, to the wife of Peter Johnson, a daughter.

Prof. Brinegar made us a pleasant call Friday. He is teaching at Arago this winter.

Lots of California potatoes in the market. Who said we could raise spuds at ½ a cent? They are 2½.

Go see Lyons' new goods. The Eureka brought him a world of new goods that you should see at once.

We owe our literary society an apology for inadvertently omitting a notice of its meeting Saturday night.

The high water of last week was good on loggers who had timber in the marshes. Alex Smith had several hundred logs near Belieu's.

Have you seen Lyons' store since the arrival of the Eureka? Do so at once if you have not. He has the largest and finest stock in Coos county.

Tuesday evening last the Eureka put in an appearance, much to the satisfaction of our merchants and business men generally. The town is literally full of goods.

Our old friend C. A. Longe writes us from Edison, Washington, that he takes more stock in Coos county than in the whole of the new state. It is too cold up there to suit him.

The severe weather in Northern California, Eastern Oregon and Washington will nearly deplete them of stock, and we fear to hear full reports from Idaho and Montana.

Our esteemed friend A. Abraham formerly of Roseburg, writes us from Portland for the HERALD. Mr. A. has cast his lot among the people of our metropolis and we wish him worlds of success.

See ad of Johnson Bros., our market men. They keep the choicest of meats of all kinds, vegetables, canned goods, cigars, tobaccos, nuts, candies, etc., and sell at the lowest prices.

A few trees chopped down has changed the appearance of the eastern part of town wonderfully. If Coquille City would clear up all its streets the coming spring it would show this to be the prettiest site for a town in Coos county. By all means let us clear the streets.

J. J. Birch is canvassing for the new Stanley book that tells all about the dark continent. It is the most thrilling work yet published. There are books out purporting to be the genuine, that are frauds—rehashed from Livingston's and Stanley's old books. Birch handles the latest and best one yet published.

Congressman Hermann is fighting manfully for an appropriation for the harbor of refuge at Port Orford. This is as it should be. There is no good reason why the former appropriation was not expended. This part of the coast is entitled to its share of public improvement, and our Binger is the man to stir the matter up.

The K. of L., Farmers' Alliance and other reform organizations are making themselves felt throughout the length and bredth of the land. They demand that congress close the mortgage on the Union Pacific railroad and run it in the interest of the people. They have busted some of the larger trusts, and are in several of the states, getting in their work all sorts. They seem disposed to keep right on till the causes that make millionairs and paupers areremoved.

That Railroad Again.

Ed. HERALD.—I see an article in the last HERALD copied from the Plaindealer, on the subject of a railroad to Coos bay, which has the true ring of business in it. A railroad from Roseburg to Coos bay has long been talked of, and every year the necessity for such a road becomes more apparent.

The Plaindealer in answer to old fogies who say it can't be done, says: "It should be built. It can be done. It will be done." But how and by whom? that is the question. Private citizens can, of course, give what they like, but I do and always have opposed the subsidizing of railroad corporations by counties, states or the nation. Although railroads are an actual necessity in any country, but why should the people build these roads and then turn them over to those rich corporations? Henry Villard, after the completion of the Northern Pacific railroad in 1883, said: "Were the bonds granted by the government for the building of said road, sold at their market value, a sum would be realized sufficient to build the main line, all the side tracks, put on the rolling stock and the company have about a million dollars left. The government granted to the company of the C. P. and U. P. road a loan of $16,000 per mile for that portion of the road that was the easiest built and $32,000 for the hardest or something near $50,000,000, at 6 per cent. interest, and what is the result? It is that those two companies have had the use of the road now for over twenty years; owe the government nearly $100,000,000, and now come whining around and want congress to fund the debt for forty years and reduce the interest to two per cent. But if this government was by the people and for the people, the congress would close that mortgage at once, and go to transporting freight and passengers at cost, which would reduce fare to almost nothing, for if a 350-pound hog can be fed and carried from New York to San Francisco for $2.50, a 150-pound hog who feeds himself ought to be transported for the same.

But to return to our Coos bay road. I said I was opposed to subsidizing. How then, is the road to be built, you ask. I say by the people. A railroad from Roseburg to Coos bay would cost perhaps $800,000, but let us put it at a million dollars. Now, in view of such an enterprise, to be absolutely owned by the *people* of the two counties it would be a small matter for Douglas and Coos counties to float a million dollars worth of bonds, put their hundreds of idle men to work and in a short time have a railroad that would pay for itself in, at least, ten years, after which the profits could be applied to the current expenses of the counties which would almost do away with our direct taxation (which will ere long be looked back upon as a relic of barbarism any way) and set an example that the world would soon follow after. The people are working up to the necessity of running their own business and stop delegating it to corporations and then paying them all their hard earnings, except a scanty living, for doing what they are as eminently calculated to do as any soulless corporation can do for them. A CITIZEN OF COOS.

The farmers in this section seem to be losing sight of the great opportunity they now have of putting out new orchards, and the compensating results that would come in in a few years. Mr. Rich, who lives near town, informed this department recently that there were but few thrifty young orchards in this locality. This is not as it should be. Five years hence the tillers of the soil will see their mistake. Joe Noyes of the North fork has a fine nursery and can furnish thrifty trees that are acclimated and they are of excellent varieties: so there is no excuse for not setting out and cultivating some young trees. In less than five years no doubt there will be direct communication with San Francisco by steamer, and then fruit will be one of the best sources of profit. Excellent fruit can be raised on the up-lands and it seems that would be advisable for every one to utilize every bench and hillside in this pleasant branch of husbandry.

"LOOKING FORWARD."

The Devil on Bellamy's Book—A Death in the Herald Family.

Since our last visit to the HERALD readers a change has come over some of them, and a terrible state of affairs exists. All was serene and happy when we last appeared, and now it seems our business in this section is at an end. Our converts were plenty and of a desirable quality, but since Bellamy introduced his book—Looking Backward—we feel like folding up our tent and silently stealing away. Right here we enter our earnest protest against the reorganization of the industrial system. Heretofore our competition existed in the churches, and we managed to hold them pretty level. But if the people still feel inclined to take kindly to Bellamy's book our mission on earth is ended. This will take our business from us and we object. There will be no murderers, no robbers, no drunkards, no paupers, no want, no wolves in sheeps clothing, no money, no competitive system, no Chinese, no gamblers, no sinners and worst of all no devil. It begins to look as if we will be obliged to preach our own funeral and also be the chief mourner. We "look forward" and see happy, contented and prosperous people, equality, sociability, honor, truth, virtue, education, morality, religion, heaven and the millennium. Of course a business like ours to be annihilated at one stroke, would, under the existing state of affairs, set us crazy. Hell's fire would be quenched and the devil and his angels would be myths. Bellamy has the bulge on us at present but we will throw all the obstacles in the way we can to prevent this new government. We believe in the system but as long as we do not see how to make it work successfully we will do all we can to keep others from solving the problem.

DIED.

In this city, January 21, 1890, our office towel, aged 7 years, 6 months and 7 days. This towel had become a fixture and was dearly beloved by all the employes in the office and its death has cast a gloom of sadness over this community. The remains were carefully gathered together by the editor-in-chief and cremated in the office stove. The doctors pronounced the disease *a la grippe*, but we have our own opinion. The deceased was brought to the office the day the HERALD was born and had never been washed. About a year ago it could stand alone and after using we would stand it up in the corner instead of hanging it on a nail. Some six months ago the family living in the lower story of the office suddenly moved to another part of town, and on inquiring the reason, we learned they had seen the towel. During its short life nearly forty apprentices besides the regular force have used it and when they see these lines they will realize they have lost an old and tried friend. Printers from all over the United States have used this towel and we have no doubt many telegrams of condolence will be received when they learn of its demise. May its ashes rest in peace. The one that succeeds it is now smiling in happy contentment hanging on a nail. The smile will disappear in three or four years and a pained expression will be noticeable on its features.

(Coast Mail.)

Frank P. Norton is laid up with the grippe.

Mr. Fitzgerald, of Golden's drug store, is put in his little bed with the grippe.

W. G. Webster is putting the finishsng touches on his brick building and will be in the same in a few days.

Capt. J. J. Earle has been appointed one of the census canvassers and will enumerate the present population of Coos county.

Parties have visited the meteor on South slough and find that it has the appearance of melted lava. There is a diameter of about two feet visible.

A foot race has been arranged to come off at Empire City on the wharf, next Wednesday, 75 yards—two-best-in-three—for $200, between Larry Keene and Harvey Gross.

Mrs. F. W. Kronenberg came over from Coquille City on Saturday to see her mother, Mrs. Jas. Robinson, who is dangerously sick at her home on North Coos river.

Dick Cussans celebrated his 55th birthday at Empire City last week. Dick has always been a pretty steady young man, but it is time now he settled down and stopped his boyish pranks, and got m——, well, anything.

JENKS' DREAM.

Jenks had a queer dream the other night. He thought he saw a prize-fighters' ring, and in the middle of it stood a doughty little champion who met and deliberately knocked over, one by one, a score or more of big, burly-looking fellows, as they advanced to the attack. Giants as they were in size, the valiant pigmy proved more than a match for them. It was all so funny that Jenks woke up laughing. He accounts for the dream by the fact that he had just come to the conclusion, after trying nearly every big, drastic pill on the market, that Pierce's Pleasant Purgative Pellets, or tiny Sugar-coated Granules, easily "knock out" and beat all the big pills hollow! They are the original and only genuine Little Liver Pills.

Beware of Imitations, which contain Poisonous Minerals. Always ask for Dr. Pierce's Pellets, which are Little Sugar-coated Pills, or Anti-bilious Granules. One a Dose.

SICK HEADACHE,

Bilious Headache, Dizziness, Constipation, Indigestion, Bilious Attacks, and all derangements of the stomach and bowels, are promptly relieved and permanently cured by the use of Dr. Pierce's Pleasant Purgative Pellets. They are gently laxative, or strongly cathartic, according to size of dose. Smallest, Cheapest, Easiest to take. 25 cents a vial, by druggists.
