The increased mail facilities, giving into effect last to-day, are appreciated. We got the Weekly Statesman from Salem on the 4th at noon on the 5th and our San Francisco papers are only two and a half days old when we get them.

San Francisco has disgraced herself many times in the past in various ways, but her brutal prize fights is her standing disgrace. Not a year and scarcely a six months pass without one of these man-haters falling dead in his disgraceful fight.

There is no doubt but we are on the eve of getting a railroad from the interior to Coos bay, but that most of the blow and scatter is wind is equally as evident. There is some good legitimate company in the field, and it would seem that its advent was the signal for all sorts of monkey moonshine and if one listened to all he could not hope to find so secluded a spot for his final resting place that his grave would not be crossed with a few railroads. As to where the company is who its members are or which way they will come are enigmas.

IMMENSE TRADE.—Mrs. A. G. Aiken's millinery trade has grown to such proportions that she finds it necessary to hunt more roomy quarters, and has moved the new business house being built by Capt. Parker on Front street. It has kept a couple of hands busy wrapping up and dispensing goods the past two or three weeks. She is selling away down cheap, and this is what is attracting trade her way.

Capt. Parker will build a schooner this fall that will carry 400,000 feet of lumber to run to his mill on this river. She will only draw 8 feet loaded. This vessel will be another innovation, being built after another of the captain's peculiar ideas, and we have every reason to believe that it will be a success in every particular, as the Parkersburg proved to be. This staunch and thoroughly seaworthy vessel was predicted by many to be a failure while in course of construction, but the record she has since made will effectually disprove that. Any other vessel would have gone to pieces on the rocks as she was last season.

Don't fail to subscribe to Prof. Ira Taylor's writing school. He is one of the finest penmen in the state and has a happy faculty of disseminating his knowledge to pupils.

CAPT. J. E. DUNHAM SICK.—Capt. J. E. Dunham was reported dangerously sick of inflammation of the bowels last week, and serious apprehensions were felt by his many friends, but reports yesterday say he is coming through in good shape, by the aid of his good brother, Dr. H. E. Dunham.

O. C. S.

The Fourth at Coquille City. The celebration at this place on July 4th was an event long to be remembered. There were present 1200 and 1500 people present and the day was a beautiful one. The exercises were commenced at daylight by the firing of "big guns," and early in the day the streets were becoming crowded when the Trombone band appeared on the scene and discoursed music to the delight of all present during the day. Their new uniforms having arrived the night before, the boys came out in a style which made the people of this place feel proud of them. A godly number of company G, O. N. G., of Marshfield, having come the day previous, were on hand in full uniform and armor and took part in the day's sport. At 10:30 the procession formed on Front street and marched to the grove where the usual ceremonies were performed. Col. Over acted as president of the day, Rev. Derrick as chaplain and Prof. Ayres reader of the declaration of independence, and Hon. John A. Gray delivered the oration, a brilliant and patriotic speech. Dinner was the next thing in order, and was by no means a failure. The committee had done its part well in preparing to dispel the hunger brought on by the morning's exercise and incessant partaking of the delicious appetizers at the many stands on the grounds. As to substantial "grab," there was endless quantities. As much as a good-sized boat of splendid barbecued meats were left untouched besides bread, butter and other articles of food. The national airs and songs by the band and choir were ably rendered and highly appreciated by the throng.

The plug-uglies, or "Roseburg Band" as they dubbed themselves, gave rise to many a hearty laugh, especially among the children who were quite carried away by their hideous clatter and racket, comic masks etc. Their leader gave a take-off on an oration while manouvering on Front street that was ridiculous in the extreme, yet largely enjoyed by all. The foot-racing was commenced about 2 p. m., there being several contests for prizes. The old man's race was won by Uncle Charley Tomlinson, of Coaledo; the small girls' race by Pearl Baxter; the small boys race by Edie Lorenz.

In the base ball match the Kid nine was victorious over a picked nine. The dances in the evening were grand, both Masonic and Hannevell halls being well filled and lasted all night.

Roseburg & Coos Bay R. R. Mr. R. A. Graham, of San Diego, Cal., arrived in Roseburg this morning. He is the gentleman who has contracted to build the Roseburg & Coos Bay railroad for the Chicago syndicate who will put up the money. Mr. C. E. Miller, accompanied by M. K. Miller, a practical civil engineer, returned to Roseburg last Saturday, expecting to meet Mr. Graham here, but that gentleman was detained by business in California where he has completed a contract of railroad building and did not arrive until this morning.

The parties are now all here, and are busy making arrangements for immediate work. Just as soon as an outfit can be made ready, the engineers will be in the field to establish the permanent survey and establish the grade. Possibly this week will witness the commencement of work, or at any rate the first of next.—Roseburg Review.

The contractors and surveyors will be in Coquille City to-morrow night (Wednesday.) They mean business and will proceed with the work.

WANTS TO START A PRIVATE SCHOOL.

Prof. C. W. Dalrymple one of the best educators in Oregon, wishes to start a private school in this place. He will rent the Hannevell hall, fix up Black boards etc also put in patent seats and desks for 60-odd pupils, provided he meets the proper encouragement. In other words he wants about 65 pupils for a first class school, with one assistant to commence about October 1st. We trust our people will subscribe to this school for wherever the professor has taught he is in great demand. Thoroughness is his watchword and it is something sadly needed in our schools, generally. See Mr. Hannevell or J. A. Simon, Esq., and subscribe to the school. Subscriptions can be forwarded to this office.

ILLINOIS NEWS.

The Death of People Surjection. Sunday evening the Marshfield stage brought over Surveyor Whipple and a corps of nine assistants who have been taking a survey out of East Marshfield and meandering Istimus slough. They remained over till yesterday noon, when they were joined by Mr. Coburg of the Coos Bay Land company and proceeded to Claxson's place seven miles below here where they will survey a town which is to be the terminus of the Porter mill or California Lumber company's road. They will, then, it is said, survey the latter road to the bay, but as to where it is to have its terminus on the bay, or what it has to do with the Drain road no one seems to know, and nobody seems to care to tell.

The Road to Wealth

Cannot be successfully treated without good health. To reach wealth or any coveted position in the requires the full possession and operation of all the faculties of the human mind.

These conditions cannot exist unless the physical being is in perfect working order, and this is impossible when the liver and spleen are torpid, thus obstructing the secretions, causing indigestion and dyspepsia, with all of their accompanying horrors.

DR. MENLEY'S English Balm Tonic exerts a specific influence over the liver, excites it to healthy action, resolves the chronic engorgements, and promotes the secretions; cures indigestion and constipation, sharpens the appetite, tones up the entire system, and makes life worth living.

ASKED ON THE TRACK. A little child, tired of play, had followed his head on a railroad track and fallen asleep. The train was slow at noon in when passing a stranger rushed forward and saved him from a horrible death. The child was taken to the track, too. You are, if you are expecting the morning cough, the hoarse, the loss of appetite, growing weakness and prostration, which have unconsciously crept upon you. When you are on the train will be upon you! Consumption, which thus insidiously attacks the lung, is a victim while they are unconscious of its approach, and it is in vain to cure it if it is not discovered in its early stages. Dr. Squire's Golden Medical Discovery has cured thousands of cases of this most fatal of maladies. I have cured many cases of this disease, and I can assure you that it is the only medicine that will cure it in every case of Consumption, and it is a sure cure. For Weak Lungs, Spitting of Blood, Shortness of Breath, Hemoptysis, Asthma, Sore Throat, and all related affections, it is an efficient remedy.
