Wise and Bender are arranging their store to be ready to receive a new stock of goods which they claim will astonish the natives as to quality, quantity and prices.
Last Saturday was "crusade membership day" with the W. C. T. U. It was observed in this city. Two ladies called at our office and left literature and offered us an honorary membership. This is an excellent cause and every person who has children growing up should encourage the institution. If the ladies of our town can save even one or two of our young men or boys just entering manhood from the baleful influence of intemperance they should feel rewarded for their labors. This is a reform that no one can say ought against. There may be a difference of opinion in regard to the mode of operation, but the one fact that temperance is a grand idea and one of the noblest principles extant cannot be successfully denied and every well-meaning person should encourage it.

Sol Wise received a letter from his better half in which she described her trip on the ill-fated Ajax. She stated that she and Girtie were asleep when the vessel collided with the rock and the shock came near throwing them out of their berths. There were four surf boats which were launched in a very calm sea but the fog was so thick that one could not see the length of the vessel. They were not allowed to take any baggage hence Mrs. Wise and Girtie's clothing and jewelry went down. They were about four hours making Shelter Cove and when the wharf was seen Mrs. Wise thought it was the most welcome sight she had ever seen. A small steamer that was only allowed ten or twelve passengers took the crew and passengers to San Francisco there being about fifty persons on board.

Lower River Department.
Ed. HERALD.—We have watched in vain for someone to put his or her shoulder to the wheel and bring our beautiful little town more prominently before the public. Surely no better means can be employed than a regular correspondence in the columns of the HERALD as it has the largest circulation and is the most popular paper in the county. If my correspondence is acceptable, I will try and give you from one to two columns weekly in the sincere hope that it will be of interest to your many readers and beneficial to Bandon.

Col. Rosa's mill is running to its utmost capacity and still the demand far exceeds the supply.
Dr. J. J. Gussenhoven has received his appointment as U. S. examining surgeon and has fled his oath of office.
Health of Bandon's people also that of surrounding country is very good. While we hear complaints from almost every town in the interior Bandon rejoices in a climate which harbors no disease. This is probably the reason there are still so many families coming in to spend a few weeks on our glorious beach.
Our fishermen are complaining about the scarcity of salmon in the river.
Mr. Chapman has been nursing a painful hand for some time, the result of a bruise.
