[By A Croaker.]

A man in the old country called Byron

has made a miserable attempt to imitate

this poem in a piece called "English Bards

and Scotch Reviewers."

Since our time on hands is dragging,

All the moments, lazy, lagging,

Since we're nothing else especially to do,

Thought we'd do some murdered rhyming,

Hacked every verse, till our

brains were aching,

In reviewing some of those who write to

you.

But it isn't for fault finding,

Yours or others' business minding

That our time and meter thus we idly kill.

But we'll hush the banker, broker,

Theologian, blacksmith, joker,

Just to help you some small vacant place

to fill.

And if all of them don't like it,

Let them take their quills and strike it,

But to physical abuses we're averse.

But their pen and ink abuses

We might put to various uses

And our non de plume come off but little

worse.

There's a man from down the river

Who must have a torpid liver,

Or by some such serious malady be tried,

For such sudden frenzies seize him

'Tis impossible to ease him,

Save by letting him his clumsy quill be-

stride.

Polysyllables he mutters,

Void of meaning, words he utters

Equal to our own disgusting, rasher aim,

Notoriety he's claiming,

At what else can he be aiming,

Everybody knows his non de plume and

name.

Postal Telegraph.

Washington, Oct. 5.—Postmas-

ter-General Wanamaker to-night

made public a letter recently ad-

ressed to the Chairman of the

House Committee on Postoffices,

embodying an elaborate argument

in favor of his limited plan of

postal telegraphy. Appended to

the letter is a mass of matter per-

taining to the subject, making al-

together 223 pages, closely printed.

The Postmaster-General in his

letter says in part:

"After standing for the year

past in the midst of a controversy

over postal telegraphy that for

forty years has gone on with a

sharper tone and widening range,

I am more than ever convinced of

the wisdom and practicability of

restoring the telegraph to the

postal service and make it what it

was originally intended to be—a

part of the postal system. I say

this after closely studying the ar-

guments against the bill made so

vigorously by a great telegraph

company which is now its only

visible opponent. I don't believe

it is possible to argue this question

down. There is a deep and far-

reaching conviction among the

people that the telegraph service

is by right a part of the postal

service. The measure is intended to

give the country a vast enlargement

of the postal system and bring

home to the people the cheap use

of one of the most powerful agen-

cies of modern commerce and civi-

lization."

ITS CONSTITUTIONALITY.

Hibbard's Rheumatic and Liver

Pills.

These pills are scientifically compounded,

and uniform in action. No gripping pain so

commonly following the use of pills. They

are adapted to both adults and children

with perfect safety. We guarantee they

have no equal in the cure of sick headache,

constipation, dyspepsia and biliousness;

and, as an appetizer, they excel any other

preparation.
