Stevenson, enroute from Coquille City to Gold Hill, were arrested on suspicion of being concerned in the recent robbery of the Coquille postoffice. They were thoroughly searched, exonerated, and let go on their way rejoicing.

Our friend E. J Shattuck, head of the firm of Hawks & Shattuck, type-founders and dealers in printers' stock at San Francisco, reached this place last Saturday on his annual pleasure trip. The HERALD was the recipient of a call. Mr. S. came up the coast, and enjoys this section for health and recreation very much.

Samuel Martin, head butterman with C. E. Whitney & Co. of San Francisco, visited our several creameries last week. Irving W. Larimore, physical director of Y. M. C. A., Des Moines, Iowa, says he can conscientiously recommend Chamberlain's Pain Balm to athletes, gymnasts, bicyclists, football players and the profession in general for bruises, sprains and dislocations; also for soreness and stiffness of the muscles. The Fishtrap friends have pointed Mr. Hammack and family to their potato patches, fruit trees, etc., and told him to freely share with them.

Some fine onions were brought to this market this morning by James Hatcher, of near Fairview. There will hardly be a necessity for shipping them any longer from San Francisco.

Dr. Stockman was very ill most of last week, and friends feared for the worst toward the close of the week, but Sunday morning he was better and has continued to improve since.

An adjourned meeting of the stockholders of the Coos County Mercantile & Shipping Association is called to be held in this city on the 22d inst., for the purpose of holding the annual election of officers and transacting other important business. There should be a good turn out.

The train yesterday morning was composed of two flatcars, two boxcars and the passenger coach, all of which were filled. The first two had scrapers and other railroad construction paraphernalia on them, while the boxcars were full to the roof with freight and merchandise received via the bay.

Capt Symonds, of the U. S. engineers, is quoted in these words by a reporter of the Portland Telegram as to the government work on the Coquille river: "No work is now being done at the mouth of the Coquille river, and none will probably be done before spring. Some work may be done during the winter along the upper river. For the improvement of the mouth of that stream the sum of $25,000 has been appropriated; for the upper stream $5000."

Railroad construction begins at once at Myrtle Point. Nearly 100 head of horses arrived there Sunday from the valley, while the train yesterday took up construction machinery, etc., and a number of our citizens have been engaged to work on the road. Of course, so far as our information goes now, the work will be that of completion of the track and Y at Myrtle Point, but the preparations are sudden and on so extensive a scale, thus pointing to work on the extension of the road eastward, resultant of the visit of Mr. Spreckels and Capt. Samuels the past few days.

Some weeks ago a man named O. A. Phelps came to this city and lectured on two nights, the first night on freethought, and the next on Populism. At the close of his first night's lecture several questions were propounded, of historical and scientific character, which the lecturer proposed to explain or answer. As the meeting was about drawing to a close, Rev. Mr. Stine of this city propounded a question or two, in substance thus: "Did you, Mr. Phelps, ever hold a public discussion in Kansas with Mr. Chuchill?" Mr. Phelps was uncertain that he had. Mr. Stine then asked if he had discussed with a Mr. Fortune, in the same state. Mr. Phelps admitted that he had. Then said Mr. Stine, there was a man named Phelps, a freethought lecturer, who publicly discussed with these persons named, who was the guest while at that place of the family of a Mr. Carnahan; that this man Phelps alienated the affections of the wife of Carnahan, broke up the family, and later joined the woman and lived with her as man and wife. Mr. Phelps was taken aback and tried to explain, but utterly failed to do so. Then to establish the identity of this man Phelps, and the truthfulness of the charge made by our fellow-citizen, Rev. Mr. Stine, communication was opened with the secretary of the Masonic lodge at Douglass, Kansas, of which lodge Mr. Carnahan, the deeply wronged husband, is an honored member, the result of which correspondence has been to confirm Mr. Stine's expose of this fiend as having deeply wronged a happy family, robbing the husband and children of a happy home, and the mother of her honor and love, and later proved false to the woman who had been deceived in a moment of weakness and forsakes her.

A private letter from a nephew of Mr. Carnahan, the woman's former husband, writes of date of August 27, 1894: "Mrs. Carnahan told my mother when here during the trial of her son that she (Mrs. C.) long ago saw the error of her way, and that if she could live but one week with her family in the former relation she would be ready to die."

The secretary of the Masonic lodge at Douglass, Kansas, of date August 23, 1894, writes to the secretary of the lodge here thus:

"I am in receipt of your letter of inquiry dated Aug. 11, 1894. In reply I have to say: That a fellow by the name of Phelps, a free-lover or free-thought lecturer, did, through his influence, cause the wife of Mr. S. P. Carnahan, a member of our lodge, to desert her home. There is no doubt but that after leaving her home she joined this fellow Phelps. How long these relations existed I do not know. I have never talked with Bro. C. on the matter, as it occurred before I came here. I have no doubt but what Bro. Stine has struck the right man, and he is correct in his charge if this is the same Phelps; and he no doubt is the same man, as Bro. Stine would recognize him, having lived here at time the matter occurred.

"Bro. Stine is a Mason, but not a member of our lodge. I have always known him as an aggressive man, ready to denounce wrong wherever he finds it.

"Please convey to Bro. Stine my thanks for his denunciation of a villain. Yours, fraternally,
"G. NAGLE, Secretary."

Mr. Phelps spoke at Bandon after leaving this place, and then departed, we have been led to believe, for the California coast country. The HERALD believes he is the same as has been charged with this great crime, and if there is no written law to reach him and mete out to him a due punishment, there is a way for the general public to be warned against him that he may have no resting place sufficiently long to repeat his deception and practice his deviltish machinations to the hurt of others. Look out for him and pass him along. The newspapers will be his Nemesis.

Let us put a word in the ears of our farmers and ranchers—raise apples; such as will be marketable in San Francisco and southern coast towns. Not just your own fancy, nor apples that you might prefer to handle, but get such as the market demands, which suit the climate, and make it your business and for money, and give your whims a respite. There is money in it.

Word reached the homes of the parents and friends of Mr. and Mrs. James Dye last week of the death of the latter at Phœnix, in Jackson county, on the 31st ult. Mr. and Mrs. D. left here several weeks since for a change of climate on account of Mrs. Dye's health, and while they expected to reach California and rumors came back that already she had been benefited by the change, later word came that her health was still failing and they could go no further. Quickly on the heels of this came announcement of Mrs. Dye's death. Mrs. D. was the daughter of our fellow-citizen Jacob Croy, who lives a short distance northeast of town, and was a very young woman at the date of her death. She leaves three children and a devoted husband bereft of her angelic presence, while her parents and a large circle of friends grieve at her early departure.

Notice.

Notice is hereby given that an adjourned session of the annual meeting of the stockholders of Coos County Mercantile & Shipping Association will be held in Coquille City on Saturday, Sept. 22, 1894, at 1 o'clock p. m., for the purpose of electing officers and transacting such business as may properly come before it.

The HERALD desires to call the attention of the authorities to the fact that if the C. B.-R. railroad is extended on the present projected survey up the Middle Fork our wagon road will be ruined, while within six years nearly or about $20,000 has been used by the county to make and keep open that road. Now, would it not be well to consider that if the railroad is to be thus extended and our wagonroad ruined, why should not the route be given to the railroad for a stipulated sum—of say $15,000—and that amount expended on the Coos bay wagonroad to fit it up for use? Our citizens are much concerned regarding the destruction of our Middle Fork wagoroad, and before it is eternally too late it should be attended to.

Elder Hollenbeak came in from his home near Fairview this morning with a load of fine watermelons, canteloupes and muskmelons of his own raising. He made an experiment this year, which has resulted very succesfully, and the HERALD hopes he may receive profit from his labor. The HERALD was honored with a sample of each and thanks Bro. Hollenbeak for his kindness.

A couple of young ladies from this locality last Sunday evening, while walking from Mr. Barrows' place to R. J. Dean's, were interviewed by a Mr. Bear, who reared up suddenly to survey the charming trespassers upon his shady reservation. This the young ladies did not appreciate and so took a race back, and being a descending grade for a full half mile one of the young misses made such speed as to run through her shoes and reach the place of safety sans shoes. Mr. Bear disappeared and no harm was done; it seems to have been a mutual misunderstanding, the young ladies were not after the bear nor the bear after the young ladies.

Several documents have been crowded out of this issue of the HERALD. Some were too lengthy and not in shape to cut down; others will appear soon.

Dr. Bogue arrived at noon. He will practice his profession here until the 27th, after which date he will be at Myrtle Point.

Dr. Miles Medical Co., Elkhart, Ind.
Gentlemen: I take pleasure in informing you of the very beneficial results which have followed the use of DR. MILES' RESTORATIVE NERVINE in the case of myself and wife. For a year I was subject to a distressing pain at the base of the brain and upper portion of the spinal cord. I lost flesh and was greatly troubled with sleeplessness. Your Nervine was highly recommended to me. My case had been so obstinate that I had no confidence in the efficacy of any medicine. Yet as a last resort I consented to give it a trial. Much to my surprise, I experienced marked benefit; my sleeplessness disappeared; my headache was removed; my spirits and general health greatly improved. I soon GAINED THIRTY POUNDS. ALL THIS OCCURRED AFTER A LEARNED AND WELL KNOWN PHYSICIAN HAD FAILED. My wife is taking the Nervine with the best of results. LOUIS C. VANDERVERE.

YOUR FUTURE

IS IN YOUR OWN HAND.
Palmistry assumes to tell what the lines in your hand indicate. It will amuse you, if nothing more. The above diagram almost explains itself. The length of the LINE OF LIFE indicates probable age to which you will live. Each BRACELET gives you thirty years. Well-marked LINE OF HEAD denotes brain power; clear LINE OF FORTUNE, fame or riches. Both combined mean success in life; but you must keep up with modern ideas to win it. You will find plenty of these in Demorest's Family Magazine, so attractively presented that every member of the family is entertained. It is a dozen magazines in one. A CLEAR LINE OF HEART bespeaks tenderness; a straight LINE OF FATE, peaceful life; the reverse if crooked. A well-defined LINE OF HEALTH spares you doctors' bills; so will the health hints in Demorest's. No other magazine publishes so many stories to interest the home circle. You will be subject to extremes of high spirits or despondency if you have the GIRDLE OF VENUS well marked; keep up your spirits by having Demorest's Magazine to read. By subscribing to it for 1894 you will receive a gallery of exquisite works of art of great value, besides the superb premium picture, 17x22 inches, "I'm a Daisy!" which is almost a real baby, and equal to the original oil painting which cost $500; and you will have a magazine that cannot be equaled by any in the world for its beautiful illustrations and subject matter, that will keep you posted on all the topics of the day, and all the fads, and different items of interest about the household, besides furnishing interesting reading matter, both grave and gay, for the whole family; and while Demorest's is not a fashion magazine, its fashion pages are perfect, and you get with it, free of cost, all the patterns you wish to use during the year, and in any size you choose. Send in your subscription at once, only $2.00, and you will really get over $25.00 in value. Address the publisher, W. Jennings Demorest, 15 East 14th St., New York. If you are unacquainted with the Magazine, send for a specimen copy. A large QUADRANGLE means honesty; a large TRIANGLE generosity; long FIRST DIVISION OF THUMB strong will; LONG SECOND DIVISION, reasoning faculty. The MOUNT OF JUPITER betokens ambition; that of SATURN, prudence; the SUN, love of splendor; MARS, courage; MOON, imagination; VENUS, love of pleasure; and MERCURY, intelligence. Take our advice as above and you will be sure to possess the last and most valuable quality.
