COQUILLE CITY W. C. T. U. The Coquille City W. C. T. U. meets at the Methodist church, south, every Fri-day, at 3 o'clock p. m. All interested in the work are invited to attend.

A Temperance University.

[From the National W. C. T. U. Bulletin.] The recent press dispatches with reference to Harriman have awakened a new interest in behalf of the "Magic City." No town in the south has such interesting environments. It has 4000 people, ten churches and no saloon.

Harriman possesses a most remarkable citizenship; almost every state in the union being represented in its corporation. The people are social, cultured, hospitable and a unit for the advancement of all the interests of the city.

The American temperance university occupies a central place in cess has already surpassed the ex- ers. pectations of its most sanguine friends. FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys,

and of seeing that inventions are well protected by valid patents, we have re tained counsel expert in patent practice, and therefore are prepared to Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases,

Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc. If you have an invention on hand send a sketch or photograph thereof, to-

gether with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary.
