—EDITED BY THE—

COQUILLE CITY W. C. T. U.

The Coquille City W. C. T. U. meets at the Methodist church, south, every Friday, at 3 o'clock p. m. All interested in the work are invited to attend.

Chicago Central W. C. T. U. has entered upon a crusade against "living pictures."

Indiana W. C. T. U. convention, held recently, was the largest in its history, 361 delegates being in attendance.

Many of New York's most influential women have responded to Dr. Parkhurst's appeal for their assistance in the contest against municipal corruption.

Mr. Gladstone has declared himself in favor of the Gothenburg liquor system, though friendly to local option, which he thinks can be no more than a partial and occasional remedy.

Ram's Horn: Distilleries are the devil's manufactories, saloons are his storehouses, bar-tenders are his clerks, drinkers are his patrons, and the majority of voters are his apologists.

The dispensary law of South Carolina has been declared constitutional by the supreme court of that state, and Governor Tillman has issued orders for the strict enforcement of the law.

A coffee house is about to be opened near the Union Pacific railway shops, in Omaha, where two cups of good coffee are to be sold for a nickle in opposition to the free lunch and beer.

Miss Jessie Ackermann has just returned to this country, having traveled 150,000 miles and circled the globe twice in her six years' work as missionary of the World's W. C. T. U. She began a series of two hundrad lecture engagements Oct. 15th.

Mrs. Emilie D. Martin, National Superintendent Purity in Literature and Art, is leading a crusade in New York against "living pictures." As a result of her efforts, indecent publications and pictures have been removed from the news stands in Philadelphia.

The Constitution: According to the report of Internal Revenue Commissioner Miller for the year 1892, the patrons of saloons in the United States paid $609,000,000 for whisky and $617,258,460 for beer, a total of $1,226,258,460; the interest of which for one minute at 6 per cent per annum is $8515.68.

The Good Citizenship League of Indiana has sent a circular letter to each political candidate, making inquiries concerning his personal habits and his intentions in regard to enforcement of the laws against gambling and other vices, if elected. From the replies they will compile a circular of information for voters of the state.

A Russian correspondent of the St. James Gazette says that, with a view to repressing drunkenness, the names of all persons, without exception, who are found drunk in the streets of St. Petersburg, are now published regularly by the official Police Gazette, where some rather distinguished names of both women and men have in consequence appeared.

Prohibition has prevailed for twelve years in Dalton, Georgia, a town of 4500 inhabitants. During this time its property has increased in value 90 per cent, its school attendance 60 per cent, its terms of court both civil and criminal have been reduced one-half, its police force the same and its county poor house is almost tenantless. The socal evil has almost disappeared.

Father Matthews' birthday was celebrated October 10th in Chicago by people of all creeds. A procession in which 13,000 people participated preceded the great mass meeting in the Auditorium, at which Bishop Watterson was the chief speaker. Addresses were also made by Rev. John Henry Barrows, Rev. P. S. Henson, Rt. Rev. Bishop Samuel Fallows, J. B. Hobbs, Mrs. Leonora Lake and others. Mrs. Katherine Lente Stevenson, in the absence of Miss Willard, spoke for the W. C. T. U. A letter was read from Mgr. Satolli, expressing deep regret that so many Catholics are engaged in the saloon traffic, which by its abuses, is the cause of so much harm to their fellowmen and scandal to the non-Catholic brethren, and fondly trusting that this abuse may be mitigated, if not obliterated.

Mrs. Mary Hensley was over from Marshfield last Wednesday. She says her mother is a little better than she was, but still very poorly and unable to walk.

M. H. Hearsey has introduced a separator at his ranch and will proceed to turn out the "gilt-edged" rolls at his own hands during the winter and in the future.

Do not ruin the stomach with chemicals. Simmons Liver Regulator is purely vegetable and effective.

Mrs. J. P. Messer was also an attendant at the county W. C. T. U. meeting at Bandon, Monday and Tuesday of last week. She returned Wednesday most enthusiastic.

News: Capt. Magee is to have charge of the Alice Blanchard, in the Coos bay trade, and Capt. Robt. Dunham will again have charge of the Wescott, running between San Francisco and Eel river, Cal.

County Surveyor Cathcart and efficient board of viewers, Richard Houghton, William Fox and James Doughty, after so long an interferance by storms, completed the survey of the new road southside of the river, and from Roy's to Riverton, last Wednesday evening. It is just 8⅝ miles long, and enters Riverton at Second street, passing close by Dr. F. G. Kelly's residence.

Brette Clark met with a painful accident at Lyons' mill last Wednesday about noon, having had the first two fingers of his right hand badly crushed and the bones fractured. It occurred while raising rollers at the edger, the mechanical lift being broken and the work then having to be done by hand. His helper had to let go, when the weight came down on Mr. Clark's hand.

There is more catarrh in this section of the country than all other diseases and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses of 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & Co., Toledo.

H. A. Jones, whose arrival here a few days since was announced in last week's HERALD, is not only the musician we noted, but also an artist, and a skilled candy maker. He thinks he has found an opening at this place for the latter business, and has already put out some specimens of artistic candy manufacture that capture both the eye and palate. Coquille is central for the trade, and he will establish himself here and manufacture French and fancy candies of all kinds and supply the markets of this and adjoining counties at rates lower than ever before. Call at Mr. Jones' stand, at Johnson Bro's, and see for yourself and inspect the pure, healthful and delicious confections.

Dora Doings.

Oct. 30.—Dame Rumor has it here that the store and shipping agency, put on foot by the Coos County Alliance, is progressing, and in the near future a stock of goods will be opened on the property of the association. We anticipate this store will be run in a manner that will be a friend to the farmer and laborer, for it has been quite an effort on their part to get a store and shipping agency started here in Coos county, and may it be patronized by one and all in such a manner that though small at the start, it will make a rapid growth and soon speak volumes to the energetic few who have stayed by the movement to start something that would be a benefit to the farming class of Coos county in the way of a shipping agency. Coquille City being near the centre of the county, is the proper location for a co-operative store.

J. H. Minard has about wound up the wheat grinding for this fall in this section of country.

George Norris was over on a visit and met with the stockholders of the Gravel Ford Creamery Co. on the 29th ult.

A calico dance at Dora schoolhouse tomorrow night.

Lee Items.

Lee, Nov. 1.—Wonder what has become of Tattler? Guess he has emigrated to a better land.

Farmers are busy gathering in their vegetables for winter use. Corn is better than usual in this vicinity, to say nothing of other products.

J. N. Sumerlin is preparing to build a commodious residence in the near future.

Mike Sumerlin started overland to California Monday, after a six-weeks' visit with relatives and friends. He has been employed by a mining company near Weaverville for a year past and will return to the same place. Cheer up, Ruby; he will come back in "The Sweet bye-and-bye."

We hear there is a little Bird about to take unto himself a mate. How is it, Rosa?

Lee Mast of Dora spent several days in this vicinity last week. Wonder what that means?

James Mast's school at Two-mile will close Friday. He will enter school at Monmouth shortly. James is an enterprising young man and deserves success.

Rev. Thornton held services at the church Saturday. He is spoken of as a most worthy man.

TOPSY.

(Coos Bay News.)

The "mackeral" fishing continues, and quantities of the fish are being salted down for winter use.

Geese and pelicans were plentiful along the sea beach, near the entrance to the bay, during the late storms.

The bar buoy dragged its moorings Friday, and drifted in near the old Wetmore, where it still remained at last account's.

Levi Smith, of Coos river, has raised a splended crop of burbank potatoes this year. He will ship them below, and is entitled to the top price.

Another of the masts of the old Wetmore wreck fell Saturday, leaving two masts yet standing. Portions of the wreck are still visible from shore.

(Marshfield Sun.)

Wilbur Adams met with a painful accident Monday, having a portion of one of his fingers mashed off.

The infant daughter of D. L. Watson was accidentally scalded on the shoulder last week. She is getting along nicely.

The wreck of the schooner Nora Harkens, which was driven on the beach near Gray's Harbor a few days ago, was sold for $295.

Gen. Siglin has a chestnut tree in his yard from which he gathered, last week, full-grown and well developed chestnuts, the like of which we have never before seen in Coos county.

W. A. McGuire, a well known citizen of McKay, Ohio, is of the opinion that there is nothing as good for children troubled with colds or croup as Chamberlain's Cough Remedy. He has used it in his family for several years with the best results and always keeps a bottle of it in the house. After having la grippe he was himself troubled with a severe cough. He used other remedies without benefit and then concluded to try the children's medicine and to his delight it soon effected a permanent cure. 50 cent bottles for sale by S. L. Leneve, druggist.

Thos. Wells, an inmate of the Soldiers' Home at Roseburg, has been committed to the asylum.

POPULAR CHRYSANTHEMUMS.

How to Propagate Them From Cuttings. Three Pleasing Varieties Described.

It is well within the bounds of possibility to produce flowers of the finest quality upon plants that are inserted in the soil as cuttings any time from Dec. 15 to March 15. As a general rule, however, those planted in February give the greatest satisfaction. A place which can

QUEEN—IVORY—VIVIAN MOREL.

be kept close and at a temperature of about 45 degrees, with the cuttings near the glass, and a moist and firm surface, such as sand or ashes, on which to stand the pots, is just the right place.

Firm, healthy, short jointed shoots should be selected for cuttings. The cutting should be at least 3 inches in length and cut horizontally with a sharp knife just below a joint. The leaf at the base may be removed and all others retained. The small pot is well drained, filled with a rather fine mixture of loam, leaf mold and sand in equal parts, with a thin layer of sand on the top. With a pointed stick, make a hole in the center; insert the cutting about half its length; press the soil firmly about it, taking care that the stem is not bruised or injured during the operation.

Having potted the desired quantity, water thoroughly, and then transfer to the frame or house prepared for their reception. Here they should be kept close and syringed lightly when dry until rooted, when air may be admitted gradually at all favorable times.

American Gardening, from which the foregoing is reproduced, names the Queen as a fine variety belonging to the Japanese incurving section. The color is pure white, and the bloom reminds one of flakes of snow. The stem and foliage are all that is to be desired in a chrysanthemum. The Vivian Morel is of European origin and ranks among the best of the reflexed pink varieties. Both in Europe and America it has been highly spoken of and has taken many premiums. The color is not exactly pink—rose striped with white would come nearer its correct description. It is a large and elegant flower.

Ivory is a well known favorite, is one of the best for all purposes, but when grown as a specimen plant has few equals. It is rather a dwarf grower, but the habit of the plant is good. The color of the blooms is purest white.

An interesting feature in growing chrysanthemums from seed is the fact that if a hundred seed of any given variety are sown, no matter whether they be from a good or a poor variety, they will be a hundred distinct varieties when they come into bloom.

G. A. R. NOTICE.

We take this opportunity of informing our subscribers that the new Commissioner of Pensions has been appointed. He is an old soldier, and we believe that soldiers and their heirs will receive justice at his hands. We do not anticipate that there will be any radical changes in the administration of pension affairs under the new regime.

We would advise, however, that U. S. soldiers, sailors, and their heirs, take steps to make application at once, if they have not already done so, in order to secure the benefit of the early filing of their claims in case there should be any future pension legislation. Such legislation is seldom retroactive. Therefore it is of great importance that applications be filed in the department at the earliest possible date.

If U. S. soldiers, sailors or their widows, children or parents, desire information in regard to pension matters, they should write to THE PRESS CLAIMS COMPANY, at Washington, D. C., and they will prepare and send the necessary application, if they find them entitled under the numerous laws enacted for their benefit. Address,

A Bright Lad,

Ten years of age, but who declines to give his name to the public, makes this authorized, confidential statement to us:

"When I was one year old, my mamma died of consumption. The doctor said that I, too, would soon die, and all our neighbors thought that even if I did not die, I would never be able to walk, because I was so weak and puny. A gathering formed and broke under my arm. I hurt my finger and it gathered and threw out pieces of bone. If I hurt myself so as to break the skin, it was sure to become a running sore. I had to take lots of medicine, but nothing has done me so much good as Ayer's Sarsaparilla. It has made me well and strong."—T. D. M., Norcatur, Kans.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

A FEW Testimonials from persons who have been cured by the use of **Hill's Tablets.**

THE OHIO CHEMICAL CO.:
DEAR SIR—I have been using your cure for tobacco habit, and found it would do what you claim for it. I used ten cents worth of the strongest chewing tobacco a day, and from one to five cigars; or I would smoke from ten to forty pipes of tobacco. Have chewed and smoked for twenty-five years, and two packages of your Tablets cured me so I have no desire for it.
B. M. JAYLORD, Leslie, Mich.

DOBBS FERRY, N. Y.
THE OHIO CHEMICAL CO.:—GENTLEMEN:—Some time ago I sent for $1.00 worth of your Tablets for Tobacco Habit. I received them all right and, although I was both a heavy smoker and chewer, they did the work in less than three days. I am cured.
Truly yours, MATHEW JOHNSON, P. O. Box 45.

PITTSBURGH, PA.
THE OHIO CHEMICAL CO.:—GENTLEMEN:—It gives me pleasure to speak a word of praise for your Tablets. My son was strongly addicted to the use of liquor, and through a friend, I was led to try your Tablets. He was a heavy and constant drinker, but after using your Tablets but three days he quit drinking, and will not touch liquor of any kind. I have waited four month before writing you, in order to know the cure was permanent. Yours truly,
MRS. HELEN MORRISON.

CINCINNATI, OHIO.
THE OHIO CHEMICAL CO.—GENTLEMEN:—Your Tablets have performed a miracle in my case. I have used morphine, hypodermically, for seven years, and have been cured by the use of two packages of your Tablets, and without any effort on my part.
