The election Tuesday resulted in a general defeat to the Democrats all over the north, and in the south the democratic majorities show a falling off. The next house is republican from 60 to 65.

the state ticket will be between 30,000 and 40,000, and full Republican delegation to congress except two districts in doubt.

Missouri—Republicans claim the state and most of the congressional representation.

Other state—Wyoming, Delaware, and Idaho are reported Republican; Pennsylvania goes Republican by 200,000 majority and all the congressmen but three; New Jersey is Republican; Nebraska goes Populist on governor and two congressmen—balance Republican; North Carolina is in doubt; Georgia and Alabama are Democratic with reduced majorities; Connecticut, New Hampshire and Montana are Republican, Texas goes Democratic with greatly reduced majority; South Carolina, Mississippi and Arkansas are counted Democratic; Wisconsin elects Upham, Rep., governor; Tennessee is close, with chances favoring Turney, Dem., for governor.

R. E. L. Bedillion experimented by sending a thousand pounds of fresh fish from the Coquille to the San Francisco market, this fall. It was the first lot of fresh fish that ever reached there from our river. Mr. B. cleared fifteen cents each on the fish. With a fleet vessel plying between here and San Francisco fresh fish might be successfully shipped and they would bring a much better price in San Francisco than the fish caught in the Sacramento river.

The Curse of Gambling.

A remarkable statement, embodying the awakening of the business world to the evils of gambling, especially as it is found on the race track, is made by Police Superintendent Byrnes, of New York, who says:

"As horse racing is conducted now, it would be well for the community to stop racing altogether. We are sending men to prison right along on account of the race gambling craze. Homes are being destroyed and the lives of young men blighted every day in this city for the same reason. What respectable man who knows the race tracks for what they are, will today take his wife or his daughter to a race track to see the races for the pleasure of seeing them? He must sit among a lot of over-dressed women, who yell and shout like men, and who act as decent men would be ashamed to act. To seat a good woman or a good girl among the horde of hardened, gambling-crazed females who are found in the grand stands on every racing day, is an insult to the entire sex. Respectable women do go, but among the crowd of bad women and worse men they look sadly out of place."

Another serious gunning accident is reported from Lane county. George Hoover and A. W. Hawley were out hunting near Monroe, Thursday, and became separated. Hoover caught sight of Hawley through the brush, and mistaking him for a deer, fired, the rifle ball entering Hawley's side above the hip, and coming out through the back. Hawley is a young man, and the latest report did not give much hope of his recovery.

It is related of "Doc." Anderson, the 84-year-old stage driver who lost his life in an accident while on his route in Harney county recently, that only a few days before his death, when his stage was tied up by creditors, he caught up his mail pouches, saying, "Uncle Sam's mails must go on," mounted a horse and carried them on to the end of the line.

Corvallis Times: The liberal faction of the United Brethren church have not been so successful in Canada as in Oregon. A recent decision in the queen's bench division of the high court of justice, Toronto, declared that the liberals had changed their faith and were therefore seceders, and that the radicals were the true U. B. church.

The New York World prints a list of 106 men and 38 women, residing in the city of New York, who will have to pay an income tax of \$1000 to \$178,000 under the new tariff bill. Salem Statesman (Rep): After the long and ex-tensive agony Col. Lovell is found guilty and sentenced to leave the service. The legislature to meet in January will pass the sentence on all the fodder. No \$900,000 appropriations again for a few years, at least—until people again have money to throw to the feathered tribe.

A. J. Holmes, one of the San Francisco millionaires 20 years ago, died in the almshouse of that city a few days ago and narrowly escaped a burial in the "potter's field." Holmes was the original locator and owner of the Northern Belle & Holmes mines, near Candelaria, Esmeralda county, Nev., and for several years was one of the social and financial lights of San Francisco. He spent his money with a lavish hand and it soon went from him. After his money was gone he haunted the vicinity of the stock exchange, and one day recently was found unconscious on the street near his former sumptuous offices. He was taken to the almshouse, where he died.

The average monthly and daily expenses of the asylum during October were: \$9.44 per capita, month; 30.48 cents per capita, daily.

Nov. 10.—The former correspondent seems to have dropped out of sight, moved off, hung himself or went to Parkersburg, and not writing anything from our corner of this fair land, I thought by your kind permission to give the readers of your valuable paper some items.

During this fine weather the farmers are plowing and some sowing fall grain, some sowing for meadow, some preparing for spring. These men don't stop for hard times or scarcity of money. They try to live within their own resources.

J. W. Clinton, the champion logger (not the veteran logger, for Alex Smith holds the title as veteran logger), has one team on H. M. Fish's place, while Rock Robinson as boss, Ed Fish as assistant and Marion Clinton, one of the best drivers, are doing a rushing business in their line.

The enterprising farmers have been clearing out the creek and lowering its bed as well as cleaning out ditches and cutting new ones to drain their low land in the spring to an early crop.

A. A. Wimer and sons grubbed 15 or 20 acres of fine bottom land ready for next year's crop, which will add greatly to their dairying interest; also J. J. Lamb has been enlarging the borders of his fine farm to future usefulness. He has also purchased of Giles & Son several hundred feet of tiling of their manufacture, which he has laid to drain his low land, and so to work goes on. And the "little fish" are trying hard to keep abreast of the larger ones as is possible for them.

Mrs. R. C. Robinson has moved to your burg to send her children to school.

Masters George and Nile, sons of W. T. Miller, will stop with Mrs. Robinson this winter and attend the academy. Others are talking of doing likewise.

Prof. W. H. Bunch closed a term of school here last Friday which was a success.

The young people of this neighborhood organized a debating society last night at our school-house, with Ralph Edmunds as president, Wirt F. Miller vice-president, George Miller secretary, Sherman Paul, marshal, Aaron Crutchfield, treasurer and Price Robinson as critic, which are a guaranty of success.

Attorney A. J. Sherwood paid our neighborhood a visit last week as a nimrod. He failed to get a shot, but got a quarter. Come again, A. J.

Frank Routh, who has been very sick, is on the improve. More anon, HEZIKIAH SHARP.

BALD HEADS!

What is the condition of yours? Is your hair dry, harsh, brittle? Does it split at the ends? Has it a lifeless appearance? Does it fall out when combed or brushed? Is it full of dandruff? Does your scalp itch? Is it dry or in a heated condition? If these are some of your symptoms be warned in time or you will become bald.

Skookum Root Hair Grower

It is what you need. Its production is not an accident, but the result of scientific research. Knowledge of the diseases of the hair and scalp led to the discovery of how to treat them. "Skookum" contains the elements which nature uses to grow hair, but in a form that is easily absorbed and acts directly on the follicles, it stops falling hair, cures itching and grows hair on bald spots.

THE SKOOKUM ROOT HAIR GROWER CO., 57 South Fifth Avenue, New York, N. Y.

"That cat made an awful noise in the back garden last night." "Yes, father. I suppose that since he ate the canary he thinks he can sing."

Exchange: A retired newspaper man gives this philosophical reason for quitting the business: "A child is born, the doctor in attendance gets \$25; the editor notes it and gets \$10; it is christened, the minister gets \$10; the editor writes it up and gets \$6; it marries, the minister gets another \$10; the editor gives a column puff and gets \$10; in course of time it dies, the doctor gets \$5 to \$10; the minister gets another \$5; the undertaker \$25 to \$200; the editor prints an obituary and gets \$100, and then the privilege of running free of charge a card of thanks."

Gladstone has A clear Head

WHY? Because he follows these rules: "Keep the head cool, the feet warm, and the bowels open." You can have a clear head and live to be ninety if you do the same thing. When the bowels fail to move during the day take out retiring two Smith's Small Blue Beans. Their action is so mild that you are not aware of it. All day long you will be clear and cool. "Not a griping barrel of them." Ask for small size. Take no substitute for SMITH'S.
