

COGUILLE CITY W. C. T. U.
The Coguille City W. C. T. U. meets at the Methodist church, south, every Friday, at 8 o'clock p. m. All interested in the work are invited to attend.
[From the National W. C. T. U. Bulletin.]
The saloon burns up \$23,000,000 of our national resources every week.

Eight of the aldermen of Chicago are said to be proprietors of gambling houses and saloons.
The anti-gambling movement begun in Chicago a few weeks since has developed into an International Anti-Gambling Association. The officers are Rev. William G. Clarke, president; Francis E. Willard, vice-president; Edmund F. Goss, secretary; Thomas N. McCauley, treasurer. The chief office of the association will be in Chicago. A national board of lecturers has been arranged for, including Dr. Parkhurst, New York; Rev. Dr. Clarke, Chicago; Rev. O. P. Gifford, Buffalo, and other gentlemen of national reputation.

Bishop Waterston does not believe the saloon an evil in itself, but declared of it in his address at the Father Mathew celebration: "If the liquor traffic in particular places becomes so bold, so outrageous, so overmastering and defiant as to be unable to be controlled in any other way than the legal wiping out of saloons, then let the saloons be legally wiped out, and I say it in God's name and in the name of an outraged community, and the sooner they are legally wiped out in that ease the better for the community and the individuals and the families that compose it."

The Citizen and Home Guard, of Toronto, makes the hopeful observation that "Men who indulge in drink at all, even though not known to be drunkards, or to be in the habit of getting intoxicated occasionally, are finding themselves more and more circumscribed each year. Formerly, the men who were habitual drunkards were proscribed, then the men who got drunk even occasionally, now it includes those who drink at all. The leading railway companies are now discharging engine drivers and conductors who drink, and requiring all young men to sign the pledge when they enter the service."

Following are a list of drugs analyzed by the state board of health of Massachusetts, and said by them to contain opium: "Dr. A. Bosche's German Syrup of Tar, Wild Cherry, etc; Pisco's Cure for Consumption; Sprout's Syrup of Tar and Wild Cherry; Ayer's Cherry Pectoral; Dr. Bull's Celebrated Cough Syrup; Wiggins' Cherry Cordial; Jaynes' Expectant; Dr. Harrison's Iceland Balm-sam; Adamson's Botanic Cough Balm; Seth Arnold's Cough Killer; Perry Davis' Pain Killer; Dr. Jonathan Moore's Essence of Life; Dr. Hooker's Cough and Croup Syrup; Mrs. Wanslow's Soothing Syrup; Barrington's Dr. Wadsworth's Vegetable Cough Syrup; Mother Bailey's Quieting Syrup; Coe's Cough Balm; Dr. Wistar's Balsam of Wild Cherry; Mow's Cough Balm; American Vegetable Croup Syrup; Remington's Vegetable Pulmonary Balm, Cutter Bro's."

The Church and the Liquor Traffic.
A church silent on the temperance question discredits itself as much as a church silent on dishonesty.—Joseph Cook.
I have little hope for the triumph of the temperance cause until a large proportion of the clergymen and of the professing Christians of this land rise up to the duties of the occasion and speak words that shall touch the hearts of the people, and live lives that shall blossom into fruit.—Hon. Henry Wilson, vice-president of the United States.

If we could only close all the public houses the force of true religion would be in the ascendancy everywhere.—Rev. Hugh Price Hughes.
It is the functions of the church to strike the sturdiest blow it is capable of at a municipal administration whose supreme mission it is to protect, foster and propagate alcoholism.—Rev. Chas. Parkhurst, D. D.

One Small Blue Bean every night for a week cures Female Leucorrhoea. 25c. per bottle.

The Ashland Valley Record, of late date, says: "Loretta Van Horn and children and Miss Purna Moomaw left Monday for Glendale, Arizona, where Mrs. John Van Horn was reported dying with fever."

Simmons Liver Regulator has never been known to fail to cure sick headache.

J. P. Stenler, a prosperous farmer of Dora community, was down last Wednesday. His sons Milton and Garland are both students at the agricultural college at Corvallis, the former of whom will graduate at the close of the term next June.

Col. I. N. Mancy and Dr. Magary, prominently associated with the black and mining on the lower river, passed through this place to the bay last Wednesday. Matters are progressing favorably, but have been hindered by the delay of important machinery. However, that obstacle is met, the steamer Bandonville having brought the machinery last Friday and work will now be pushed.

There is more catarrh in this section of the country than all other diseases and the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses of 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, Ohio. Sold by druggists, 75c.

Our exchanges are publishing that one of Newberg's wonders is a cabbage which is bearing its seventh annual crop from its apparently perennial root. Nearly everything is perennial in this section. Tobacco, cabbage, table and sugar beets, etc., continue right along. Uncle Robert Dean had a cabbage stalk bearing on successive years; the third year he cut twelve heads from it, the least of which weighed full two pounds.

W. A. McGuire, a well known citizen of McKay, Ohio, is of the opinion that there is nothing as good for children troubled with colds or croup as Chamberlain's Cough Remedy. He has used it in his family for several years with the best results and always keeps a bottle of it in the house. After having a gripe he was himself troubled with a severe cough. He used other remedies without benefit and then concluded to try the children's medicine and to his delight it soon effected a permanent cure. 50 cent bottles for sale by S. L. Leneve, druggist.

We thank W. H. Nisler of southern California for a copy of "The Advocate," a People's party paper published at Escodido. Those good people are still struggling with the unequal taxation question—in that county alone 50,000 acres of land and \$1,642,226.15 in property valuations of the rich, having escaped taxation. But the citizens seem to have approved the expose instead of condemning it, and it gives them an opportunity to correct the great oppression.

FINE SPECIMENS.

Vegetables, Fruits and Nuts of Coos County's Production.

Last Thursday Comrade Walter Drane laid on our table a basket—a table, or turnip-beet, not the stock variety—weighing 15 pounds, and measuring around 27 1/2 and 27 1/2 inches. It is from the bench-land garden of Uncle Sol Spurgeon, northwest side, from seed planted last spring, and can hardly be excelled anywhere. It is solid, tender and crisp as if pulled in mid-summer.

On same day Harvey Schveers, living on Cunningham creek, a little beyond the town limits, decorated our table with 30 apples, of 12 different varieties, from his orchard. He grows 60 varieties, of which 20 are winter apples. These specimens include such familiar names and favorite fruits as the Ben Davis, Baldwin, Bellflower, Smith's Cider, Rambo, King of Tomkins County, Blue Pearmain, and several we do not recall of newer varieties, and all large and beautiful as an oil painting or wax-work. Mr. Schveers has a fine orchard and manages it intelligently.

Another product was also delivered to us the same day, by our old friend W. P. Bovee, that of chestnuts, such as those found in the California markets. They are not the small eastern mountain chestnut, but an improved Spanish variety and called Spanish-American. Very large, good flavor, and grow here to perfection. Mr. Bovee has grown chestnuts here for 15 years, marketing them at this place. He has 100 young, thrifty trees for sale. His fruits and vegetables generally are also among the best.

Visitors and citizens are cordially invited to call and see these specimens of Coos county's productions.

Capt. Tom White is running the Comet during the absence of Capt. Pendergrass in the city.

A vessel, bottom up, was off the Coos bay bar Monday evening. The tug Liberty went out to her, but did not attempt to tow her in. The vessel's anchors are down, and until the cables break it will be impossible to tow her into port. On Tuesday morning the vessel was again sighted, about four miles off the bar.

The Gen. Siglm will probably load lumber from Morris Bro's mill on the Coquille. The lumber will be brought over via the railroad.

The four-masted bark Omega, in charge of Capt. Harrington, sailed on Sunday for Iorque, Chili.

Coos Bay News: The Blanchard used Beaver Hill coal on the last trip, and got better results from it than from the steam coal bought in San Francisco for a high figure. On her trips to this port she will take all the Beaver Hill coal she can get, to be used by other steamers belonging to the same company.

John H. Truman died near Bandon on Oct. 29th, aged 81 years. He was born in Rhode Island, and made his first trip to San Francisco in the ship Susan from Boston in 1831. San Francisco was then a small hamlet, containing only the old mission and four other adobe buildings.

Union county furnished seven inmates to the penitentiary at the recent term of court.

G. A. R. NOTICE.

We take this opportunity of informing our subscribers that the new Commission of Pensions has been appointed. He is an old soldier, and we believe that soldiers and their heirs will receive justice at his hands. We do not anticipate that there will be any radical changes in the administration of pension affairs under the new regime.

We would advise, however, that U. S. soldiers, sailors, and their heirs, take steps to make application at once, if they have not already done so, in order to "see the benefit of the very first thing of the kind in case there should be any future pension legislation. Such legislation is seldom retroactive. Therefore it is of great importance that applications be filed in the department at the earliest possible date.

If U. S. soldiers, sailors or their widows, depend on pension matters, they should write to THE PRESS CLAIMS COMPANY, at Washington, D. C., and they will promptly send the necessary applications, if they find them entitled under the numerous laws enacted for their benefit. Address: PRESS CLAIMS COMPANY, Washington, D. C.

A. B. Conley, Union county, has about 12,000 bushels of wheat yet to thresh.

Apple trees from six to forty inches in circumference can be found bearing fruit in the woods near Hood River.

Thirty hens, owned by James Hemenway's son at Eugene, between January 1, 1893, and August 1, 1894, laid 354 dozen eggs, worth \$70.80.

John Henderson, of Yamhill county, dug about 6000 bushels of potatoes from thirty-seven acres and says it beats wheat all hollow at 50 cents a bushel.

A Dayton, Or., correspondent of the McMinnville Reporter says that Miss Bert Layman was arrested at Dundee on Monday for disturbing a Salvation Army meeting at that place. The case was settled by her father, Samuel Layman, paying \$20 and costs.

Eugene State Journal: A man found a box on the street the other day. It was a pasteboard box, and contained two pairs of bifurcated wearing apparel suitable for ladies, and the man being honest did not steal them. Everything else that has been lost or the streets of Eugene lately has been kept by the finder.

JAPANESE GLANSMEN.

Sons Who Died to Avenge Their Fathers.

No crusader of the west, no viking of the north, cherished a higher ideal of loyalty and chivalry than the clansmen of old Japan; no Corsican more ruthlessly handed down a feud from generation to generation or exacted from today's vendetta the execution of a son and brother. The Satsuma men of today triumph in the fact that their own swords have avenged in this generation the defeat inflicted on their fathers in the year 1,600 by the Tokugawa clan.

Legend and drama recount every day to eager ears the stories of sons who died to avenge their fathers, clansmen who might slay the foe men who had caused the death of their lord. The favorite heroes, who hold in popular estimation the place assigned by us to Robin Hood and his men, are the 47 rōnin, a name given to men who have lost their clan.

Their lord was obliged to commit hara-kiri, or judicial suicide, for having within royal precincts drawn his sword on an noble who had insulted him, and these staunch vassals devoted themselves to the destruction of the traitor, knowing assuredly that, having slain him, they would be equally condemned to take their own lives.

Still may be seen fresh incense sticks burning before the graves of their leader and his young son and visiting cards stuck into the little tablets about them as tokens of the respect in which they are held by those who know their story and deplore their doom.

Mr. Black records that at a review of British troops in 1864 at Yokohama a great daimio was watching with interest the maneuvers of their regiments and batteries of artillery stationed there. At the conclusion he was asked to allow the escort of his retainers who had accompanied him to go through their drill and tactics, to which he readily consented.

Turning to Sir Rutherford Alcock, who was inspecting the troops, he proudly said: "My retinue is small, and their tactics are not worthy of notice after what we have seen, but there is not one man among them who, if I say die, will not unhesitatingly sacrifice his life at my command."—Nineteenth Century.

Fruit Notes.

Evidence accumulates that the Keiffer is a really excellent pear for many parts of the country south of an isothermal line passing through southern New York and western.

Mr. W. C. Barry regards the comparatively new Grand Duke plum as one of the best for market. It is as large as the Bradshaw, of the same color and ripens in late September. It is entirely free from rot.

Professor Massey of the North Carolina experiment station says: "There are pears known as the Lemon Cling and Heath Cling. Both of these varieties very nearly reproduce themselves from seed, and the result is that there are many of them very similar, but not identical. The Heath known as Wilkes' Heath is the best."

Colonel Wilber pear is one of Fox's seedlings from California. The quality is delicious, and it is a good keeper.

The Idaho is a very promising pear from Idaho. It is claimed that it is hardy, vigorous and prolific.

The Bradshaw is a large early plum. The tree is vigorous and productive.

J. T. Lovett is credited with saying that "for any point south of the latitude of the country south of the latitude of the tree of Abundance is not much harder than a peach."

The American Pomological society is to hold its next meeting in San Francisco. It was to have been held next winter, but the meeting of the association at Chicago during the World's fair has caused a postponement to 1895.

Saved Her Life.

Mrs. C. J. WOODBRIDGE, of Wortham, Texas, saved the life of her child by the use of Ayer's Cherry Pectoral.

"One of my children had Croup. The cough was so bad that I could not control. One night I was startled by the child's hard breathing, and on going to it found it struggling. It had nearly ceased to breathe. Realizing that the child's choking condition had become desperate, I gave a bottle of Ayer's Cherry Pectoral in the house, I gave the child three doses, at short intervals, and the child was cured. From the moment the Pectoral was given, the child's breathing grew easier, and in a short time, she was sleeping quietly and breathing naturally. The child is now well and happy, and I do not hesitate to say that Ayer's Cherry Pectoral saved her life."

PATENTS FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained competent expert in patent practice, and therefore are prepared to Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

THE OHIO CHEMICAL CO., 61, 63 and 65 Opera Block, LIMA, OHIO.

A FEW Testimonials from persons who have been cured by the use of Hill's Tablets.

THE OHIO CHEMICAL CO. I have been using your cure for tobacco habit, and found it wonderful. I had used ten cents worth of the strongest chewing tobacco a day, and from ten to forty pipes of tobacco. Have chewed and smoked for twenty-five years, and two packages of your Tablets cured me so I have no desire for it.

B. M. JAYLORD, Leslie, Mich.

THE OHIO CHEMICAL CO. I have been using your cure for tobacco habit, and found it wonderful. I received them all right and, although I was built very stout and coarse, they did the work. I have not smoked a pipe of tobacco since. Truly yours, MATTHEW JOHNSON, P. O. Box 54, Pittsburg, Pa.

THE OHIO CHEMICAL CO. I give me pleasure to speak a word of praise for your Tablets. My son was strongly addicted to the use of liquor, and through a friend, I was led to try your Tablets. He was a heavy and constant drinker, but after using your Tablets but three days he quit drinking, and will not touch liquor of any kind. I have waited four months before writing you, in order to know the cure was permanent. Yours truly, MISS HELEN MORRISON, Cincinnati, Ohio.

THE OHIO CHEMICAL CO.—GENTLEMEN—Your Tablets have performed a miracle in my case. I have used morphine, hypodermically, for seven years, and have been cured by the use of two packages of your Tablets and without any effort on my part.
