

The Coquille City W. C. T. U. meets at the Methodist church, south, every Friday, at 3 o'clock p. m. All interested in the work are invited to attend.

[From the National W. C. T. U. Bulletin.] One of the marks of advance "since we were here" was the number of women preachers in attendance.

Mrs. Leonora Barry Lake presented greetings from the Catholic Total Abstinence Union of America at the late meeting of the National W. C. T. U.

The liquor dealers of Ohio in their recent annual meeting in Cincinnati passed a resolution, saying: "Our only enemy is the W. C. T. U."

The Daily Union Signal was a beautiful edition, fully up to last year's high standard. The set of five numbers may be had by sending 25 cents to The Temple, Chicago, Ills.

Mrs. Shores, of Ashland, Wisconsin, was introduced as the first woman who had christened a steamship by breaking over its head a bottle of pure spring water instead of wine.

A gospel suffrage meeting was held on Sunday afternoon conducted by Rev. Anna Shaw and addressed by Miss Willard, Miss Susan B. Anthony, Mrs. Hoffman, Miss Elizabeth Yates and Rev. Joseph Cook.

Mrs. Tomlinson, superintendent of parlor meetings, said a lady of Cleveland had told her that women who would not have thought ten years ago of offering wine to their guests, are doing so this winter.

The scientific temperance instruction department has printed and circulated in the last year 2,800,000 pages of literature, at a cost of over \$6000, the larger part of which was furnished by Mrs. Hunt, the superintendent.

A nucleus of a fund for work among the colored people of the south was raised by the distribution of envelopes in which each person was requested to place a penny for each year of her age. Over \$73 was raised in this way at Thursday evening's meeting.

Saturday morning was marked by the Crusaders' Conference meeting, in which Mother Thompson, Mrs. Manley, who was said to have first thought of the "sober second thought" of the Crusade, the W. C. T. U.; Mrs. N. Coe Stewart, Mrs. Sarah Knowles Bolton and others prominent in that uprising, spoke for the Crusaders, some two hundred of whom occupied the platform.

Every allusion to woman suffrage—and they were more frequent than to any other subject—was greeted with applause. This sentiment found expression in the resolution: "Believing that all women, as all men, are created free and equal, and that women are wronged who are governed without their consent, and that the progress of woman is hindered without the privilege of self-government, and that childhood suffers for lack of the mother element in the government, and that the nation's safety demands the influence and power of women in the administration of public affairs, we therefore resolve in favor of combined and persistent efforts for securing the enfranchisement of woman."

The attitude of the W. C. T. U. toward political parties was reaffirmed in the resolution: "Realizing that the fusion and confusion of political parties, the cross-fire of political leaders, the steady and deadly aggressiveness of the liquor traffic all point with unerring certainty to serious consequences to the body politic, and believing that the Woman's Christian Temperance Union should steadily maintain its attitude of pledged prayers and influence to any party which puts prohibition and equal suffrage into its platform; therefore,

Resolved, That in order to hasten the complete overthrow of the monster iniquity of the age, the liquor system, we rejoice in the near approach of the time when we shall be able to reinforce our prayers and moral support by our ballots, and hereby pledge them to the home protection party, by whatsoever name called.

Secretary Cooldidge was instructed to inform Mr. Sheridan that the board would hear such representatives on the last-named date.

Normalizing About the Roseburg Murder.

Roseburg, Dec. 16.—The excitement of the week has been the trial of Sam G. Brown for the murder of young Kincaid, which occurred at Oakland on August 13 last. Brown had been stopping at the hotel or private boarding-house of Mrs. Deardorff, the mother of young Kincaid, and for some cause he and the hired girl, Hattie Mattoon, were ordered to leave the hotel, which enraged the defendant that he armed himself and shot young Kincaid to his death. Brown has had no sympathizers, and though his attorneys made a gallant fight for him, the decree of fate was against him. There is a lesson of morality to be gleaned from this sad and rash act. Brown was a young man who had great ideas as to his importance. His ambition was to be considered a "holy terror," to drink whisky and be considered a "tough." He has now the opportunity of seeing what his actions have led him into. Truly the way of a transgressor is a hard one.

Tillamook Headlight (Rep.): When the Oregonian attempts to drive the free-silver Republicans out of the party it should remember the free-trade proclivities of that sheet on former occasions. The Oregonian has bolted against Republican principles more frequently than any other Republican newspaper on the coast, and it never has a good word to say for the old soldiers.

Frank E. Snyder calls the great dam over the Colorado river at Austin, Tex., "a second Niagara." It is 1360 feet long and 65 feet high, raising the stream 60 feet above low water mark. Not only will it furnish the city with electric light and power for the pumps of the waterworks, but there will be a large surplus of power for mills and factories. The lake formed by the dam is 25 miles and covers an area of 2000 acres.

MULCHING TREES AND PLANTS.

With a View to Retarding the Maturity of Fruits.—Conclusions Drawn.

It is the general opinion that a mulch or heavy cover placed upon the soil about plants when it is frozen will retard flowering and the maturing of fruit; yet the practice appears to be often unsatisfactory, and there are reasons for supposing that the philosophy of the subject is not commonly understood. With a view to settling the question, apple and other fruit trees, also small fruits, were mulched last winter at the Cornell university station at Ithaca. Professor Bailey, after due investigation of results, arrived at the following conclusions:

First—The early bloom of fruit plants depends very largely upon the appropriation of food stored in the twigs, and it is more or less independent of root action. This is proved both by direct experiment and by study of the physiology of plants.

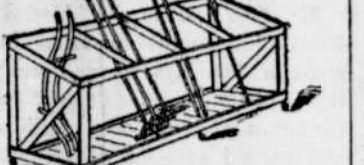

Second—It must follow, then, that the temperature of the twig or branch must be reduced if its vegetation is to be much retarded; or, in other words, the top of the plant, as well as the soil, must be mulched, and in practice this is possible only with strawberries and other very low plants or those which are laid down during winter.

Third—There is danger of injuring plants by heavy mulch which is allowed to remain late in spring. If it is desired to retard flowers or fruit by mulching, the practice should not be violent, and the plants should be carefully watched.

Fourth—Many strawberry growers are able to delay the ripening of fruit from two days to two weeks by mulching, but a week's delay is usually about the limit of profitable results.

A Rack For Tools.

The Farm Implement News has illustrated several designs for racks suitable for holding various kinds of tools in everyday use. The one here presented will need to be made to suit the user. The drawing is such as to require no explanation.

ITS FEATURES:

It will be made much better and more attractive than ever. While retaining all of the popular features, it will be made to suit the user.

Its History, by men who actually served and fought in the struggle.

Mr. Walter Rothschild, son of Lord Rothschild, has completed and opened his zoological museum at Tring, in the Chiltern district, England. The museum is wholly and entirely devoted to zoological matters and includes many rare specimens. Mr. Rothschild is an enthusiastic amateur naturalist and has spent much money in establishing his museum.

A move is on foot to form a new county out of the Siuslaw country and the coast portion of Douglas county.

Dr. Price's Cream Baking Powder. World's Fair Highest Medal and Diploma.

East Oregonian: Through paternalistic, protectionist legislation, Claus Spreckles has been able to accumulate millions of unearned money. Such unjust and unfair accumulation has a tendency to exhaust the resources and vitality of the people—the producers and workers—and their inability and disability brings about a shortage in Uncle Sam's finances.

\$100—Reward—\$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

G. A. R. NOTICE.

We take this opportunity of informing our subscribers that the new Commissioner of Pensions has been appointed. He is an old soldier, and we believe that soldiers and their heirs will receive justice at his hands. We do not anticipate that there will be any radical changes in the administration of pension affairs under the new regime.

We would advise, however, that U. S. soldiers, sailors, and their heirs, take steps to make application at once, if they have not already done so, in order to secure the benefit of the early filing of their claims in case there should be any future pension legislation. Such legislation is seldom retroactive. Therefore it is of great importance that applications be filed in the department at the earliest possible date.

If U. S. soldiers, sailors or their widows, children or parents, desire information in regard to pension matters, they should write to The Press Claims Company, at Washington, D. C., and they will prepare and send the necessary application, if they find them entitled under the numerous laws enacted for their benefit. Address: PRESS CLAIMS COMPANY, John Wedderburn, Managing Attorney, P. O. Box 383, Washington, D. C.

A Gentleman

Who formerly resided in Connecticut, but who now resides in Honolulu, writes: "For 20 years past, my wife and I have used Ayer's Hair Vigor, and we attribute to it the dark hair which she and I now have, while hundreds of our acquaintances, ten or a dozen years younger than we, are either gray-headed, white, or bald. When asked how our hair has retained its color and fullness, we reply, 'By the use of Ayer's Hair Vigor—nothing else.'"

Ayer's Hair Vigor, and very soon, it not only checked any further loss of hair, but produced an entirely new growth, which has remained luxuriant and glossy to this day. I can recommend this preparation to all in need of a genuine hair-restorer. It is all that it is claimed to be."—Antonio Alarum, Bostrop, Tex.
