A number of the negroes brought in by Mr. Graham recently to work in the Beaver Hill coal mines were upon our streets last Saturday begging. They claimed to have been deceived as to the opportunities to work, and at prices they could not live. Moreover they said they did not come to take the places of white men at reduced rates. Some of the women folks offered to work in families but we heard of no one getting employment. Many of our citizens contributed to their wants and this enabled them to proceed further on the road and keep them from becoming a charge upon the county. Until yesterday about eighteen of the negroes accepted work, but we learn that they too found occasion to quit and were about to get out.
