Before the law was written down with parchment or with pen;
Before the law made citizens, the moral law made men.
Law stands for human rights, but when it fails those rights to give,
Then let law die, my brother, but let human beings live.
—Rev. Miller Hageman.

[From the Portland Sun.]
The Republican Party.

[Extract from the platform unanimously adopted by the Oregon state Republican convention in 1890.]

"Sixth—That recognizing the fact that the United States is the greatest silver-producing country in the world, and that both gold and silver were equally the money of the constitution from the beginning of the republic until the hostile legislation against silver, which unduly contracted the circulating medium of the country; and recognizing that the great interests of the people demand more money for use in the channels of trade and commerce; therefore, we declare ourselves in favor of the free and unlimited coinage of silver, and denounce any attempt to discriminate against silver as unwise and unjust."

"I"

[Extract from a speech of Hon. J. N. Dolph, delivered at a public dinner in Boston, on the 19th of April, 1893.]

"It is true, I had the temerity at the last congress to oppose my voice and vote in the United States senate against free coinage of silver, when the convention of my party in the state had declared in favor of it. I do not subscribe to the doctrine that resolutions of state conventions shall control my judgment or vote on the question."

?

[Extract from editorial in Morning Oregonian of December 21, 1894.]

"Nothing is so utterly opposed to the principles and purposes of the Republican party as the demand for free coinage of silver. The Republican party has steadily adhered to the best standard of money, and will steadily adhere to it. It will not have the silver standard, with money worth 50 cents on the dollar. Every drop of Republican blood that tolerates such a notion is guilty of several bastardy."

Labor's Tribune: It is dishonest to make the bondholder take the same dollar the soldier took. Oh, ye imps of hades, where is your standard of honesty?

Farmers' (Iowa) Tribune: Good old, level-headed, patriotic Abe Lincoln must have been an anarchist. Don't you think so, Mr. Plutocrat? Mr. Lincoln said that those fellows down on Wall street "ought to have their devilish heads shot off." Must have been an anarchist, or a Populist, which is the same, you know. Oh, that we had a Lincoln in the presidency now!

Salem Post (Ind.): The majority of the voters of this state are farmers. They are almost unanimously opposed to great corporations and gigantic monopolies. Mr. Dolph is the friend of both. The law firm to which he belongs is said to make $100,000 every year out of the railroads. The people of Oregon are in favor of more money. They believe in the free coinage of silver. Mr. Dolph thinks there is money enough, and is opposed to the white metal. He backs up Grover Cleveland in his financial policy. He voted for the repeal of the Sherman law under the mistaken notion that that would bring about prosperity. He will support another bond issue if his vote is needed. Cleveland has ordered some of his faithful followers in this state to use their influence in his re-election, and at this moment these men are at work carrying out the wishes of their master.

Minden Courier: Remember that the decree of the government is as binding and forcible upon paper as upon gold or silver.

Trades Unionist: George M. Pullman has erected a church at Albion, N. Y., at the cost of $125,000, to the memory of his father and mother. It would be interesting to know how the members of that congregation feel when they worship Almighty God in an edifice built by money wrung from the pockets of honest toilers. An appropriate text for the dedication sermon would be: "The laborer is worthy of his hire."

Trades Unionist: Several rich society women of New York City have been caught smuggling into this country fine gowns purchased in Paris. In order to do this it is necessary for them to perjure themselves. Their names have been withheld from the public, and as yet no steps have been taken to prosecute them. Had these been poor workingmen no doubt they would now be languishing behind prison bars. It depends entirely upon who you are as to how justice will be meted out to you, although the law is supposed to be no respecter of persons.

GENERAL NEWS

CONSPIRACY ON THE OTHER SIDE.

Chicago, Feb. 4.—The government unexpectedly closed the Debs conspiracy case this afternoon. Motions were made to discharge Debs and several other prisoners, as their names were not connected with the acts charged. The court reserved its decison until tomorrow.

IMPOSED ON THE COURT.

Chicago, Feb. 4.—Judge Grosscup today ousted J. B. Greenhut from the receivership of the whisky trust. He allowed Receiver Lawrence to ramain as a representative of the directors and appointed General John McNutt receiver-in-chief. John J. Mitchell was appointed as another receiver, to represent the New York stockholders.

In rendering his decision Judge Grosscup took occasion to roundly score the stock-jobbing directors of the corporation and declared that Greenhut's application for a receivership was simply an imposition on the court.

TROUBLE IN A GLASS WORKS.

Martin's Ferry, O., Feb. 4.—Alexander Humphrey, manager of the Buckeye glass works, was starting the works this morning when three shots were fired at him by union men who escaped. There is a strike at the works.

Manager Humphrey and nine employes were arrested, charged by an officer of the glass workers with unlawfully assembling with loaded Winchesters and preventing the citizens from speaking with non-union men, who arrived to work in the mill.

MUST BE A MISTAKE.

Chattanooga, Tenn., Feb. 4.—The officials of the First National bank of Harriman have caused the arrest of Dr. Z. H. Curry, one of the most prominent citizens of Harriman, charging him with the attempt to burglarize the bank on January 16, when nitro-glycerine was used profusely. Dr. Curry positively asserts his innocence.

GAME WARDEN SHOT.

New Haven, Wis., Feb. 4.—The dead body of Deputy State Game Warden Horace Martin was found on the banks of Hay river, near the Best settlement, yesterday, with bullet holes in it.

The game warden had been in pursuit of parties who had violated the game laws—shooting deer out of season—and it is presumed that an encounter ensued, resulting fatally to the warden. So far as can be learned, no clew has been discovered of the murderer, owing to the isolated situation of the section where the shooting occurred.

Astoria has levied a 4-mill school-tax.

It transpires that General Grant was the owner of a number of slaves in Missouri, which were set free by the emancipation proclamation. They came to him with his Kentucky wife.

Miss Frances E. Willard has been made an LL. D. There are only two other women in the world who have held the degree, Maria Mitchell, the astronomer, and Amelia B. Edwards, the Egyptologist.

George Payne, the man who upset the death-laden lamp at Silver Lake, was so badly burned that the flesh has fallen off his back, leaving part of his backbone and three ribs exposed. Several other victims are in pretty bad shape.

PATENTS

NOTICE TO INVENTORS.

There was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of mankind in the factory and workshop, the household, on the farm, and in official life, require continual accessions to the appurtenances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who being on the alert and ready to perceive the existing deficiencies, does not permit the affairs of the government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skillful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who entrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade-marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

Honorably discharged soldiers and sailors who served ninety days, or over, in the late war are entitled, if now partially or wholly disabled for ordinary manual labor, whether disability was caused by service or not, and regardless of their pecuniary circumstances.

WIDOWS of such soldiers and sailors are entitled (if not remarried) whether soldier's death was due to army service or not, if now dependent upon their own labor for support. Widows not dependent upon their own labor are entitled if the soldier's death was due to service.

CHILDREN are entitled (if under 16 years) in almost all cases where there was no widow, or she has since died or remarried.

PARENTS are entitled if soldier left neither widow nor child, provided soldier died in service, or from effects of service, and they are now dependent upon their own labor for support. It makes no difference whether soldier served or died in late war or in regular army or navy.

Soldiers of the late war, pensioned under one law, may apply for higher rates under other laws, without losing any rights.

Thousands of soldiers drawing from $2 to $10 per month under the old law are entitled to higher rates under new law, not only on account of disabilities for which now pensioned, but also for others, whether due to service or not.

Soldiers and sailors disabled in line of duty in regular army or navy since the war are also entitled, whether discharged for disability or not.

Survivors, and their widows, of the Black Hawk, Creek Cherokee, and Seminole or Florida Indian wars of 1832 to 1842, are entitled under a recent act.

MEXICAN WAR SOLDIERS and their widows also entitled, if 62 years of age or disabled or dependent.

Old claims completed and settlement obtained, whether pension has been granted under later laws or not.

Rejected claims reopened and settlement secured, if rejection improper or illegal.

Certificates of service and discharge obtained for soldiers and sailors of the late war who have lost their original papers.

Send for laws and information. No charge for advice. No fee unless successful.
