U. S. SENATOR GEO. W. MCBRIDE. Ex-Secretary of State Geo. W. McBride was elected United States senator, vice J. N. Dolph, at the closing session of the legislature last Saturday night.

THE ITALY OF AMERICA.

In his "Third Biennial Report," B. S. Pague, director of the U. S. Weather Bureau for Oregon, gives an elaborate treatise on the climate of our state, and concludes by saying: "It is a state whose area is immense, its climate embracing all changes from the sunny climate of Italy to the rigors of an Arctic clime; a state that produces every known product of the temperate zone, rich in minerals, fish, wood and natural resources, and possessing qualifications which should and which will entitle it to a population more dense and prosperous than that which any section of our broad land now possesses."

These contests are to continue monthly, and the Herald would suggest to the young people to encourage them with all their energies and thus edify and improve themselves.

Several excellent communications were received too late for this issue, and an interesting letter to uncle Tom Willard from San Francisco, enlarging upon and correctly explaining a wonderful occurrence recently given in the Examiner, already in type, is crowded out today. It will appear next week.

The Demorest Medal Contest.

The first contest in this city for a Demorest medal took place in the Methodist church last Saturday night before an immense and very enthusiastic and elite audience. We think we are safe in saying it was equal to the best entertainment yet given in this city, and exceeded in literary merit and pure moral tone any ever given before.

No. 1 was called—Miss Rena Leneve, who recited "The Begle is Calling." The young miss, but 13 years of age, held the audience in profound attention and elicited applause notwithstanding it was under the ban.

No. 2—Miss Zetta Messer, recited, "Two Fires." It is a superb piece and was given eloquently and charmingly.

No. 3—Miss Lottie Hill, "Prohibition the Hope of Our Country." This young lady rendered her piece superbly.

No. 4—Miss Eva White, "The Cry of Today." Another charming piece, and most eloquently and ably rendered.

No. 5—Miss Jessie Simmons, "Our National Curse." This subject was touchingly and feelingly portrayed in eloquent style.

No. 6—Gus Alexson, "Liberty and Prohibition." This youth started off with a surprise to his friends, but became somewhat confused toward the last and his memorizing was defective.

No. 7—Dave Collier, "A Barrel of Whisky." In this case the voice was too soft and the pitch too low, so that even with the other good qualities the effect was lost.

No. 8—Miss Amy Wilkins, "The Martyr Mother." Miss Wilkins gave this touching and pathetic recitation with very good effect.

No. 9—Miss Joey Beyers, "The Home vs. the Saloon." This was a strong appeal and charmingly sustained with good language and justification.

The next act was "The Little Flower Girls," who, with empty baskets, discussed as to what they should do, and so decided to pass them around and take up a collection—which they did in a charming way and with good success.

The force of section bands at this place has been reduced one half.

James West of Bandon came up this morning and will visit the bay for several days.

Sudden Death of a Prominent and Useful Citizen.

At Salem Monday of last week Rev. J. H. Rook of that city passed away within a few minutes of neuralgia of the heart. There is no special local interest attached to this fact except that his surviving widow was Mrs. Betsy Lavar, formerly and for several years a resident and well-known lady of Sumner, in this county, whom Rev. Rook married at Salem August 3, 1890.

The ladies of the W. C. T. U. have placed a box at the postoffice for friends who may have garden seeds to divide with the poor in Nebraska, whose crops have failed the past two years.

THE TOBACCO HABIT

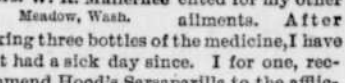

How to Cure Yourself While Using Tobacco. The tobacco habit grows on a man until his nervous system is seriously affected, impairing health, comfort and happiness. To quit suddenly is to sever a shock to the system, as tobacco, to an inveterate user, becomes a stimulant that his system continually craves.

Causes Glands of the Neck to Swell Up

This Trouble and a Case of Rheumatism Cured by Hood's.

"C. I. Hood & Co., Lowell, Mass.: 'Dear Sirs: A little over a year ago I had a swelling come on the side of my neck. I was in very poor health generally and doctored two months with the family physician who said my complaint was a bilious attack. His treatment failed to help me so I determined to try Hood's Sarsaparilla. To my great joy, the swelling on the side of my neck disappeared. I was benighted, was cured of my other ailments. After taking three bottles of the medicine, I have not had a sick day since. I for one, recommend Hood's Sarsaparilla to the afflicted.'"

Just the Medicine Needed. We believe it will do that is claimed for it, if given a fair trial. Both of us have used Hood's Vegetable Pills and are well pleased with them." Mrs. W. R. MALLERNE, Meadow, Washington.

Ten days loss of time on account of sickness and a doctor bill to pay, is anything but pleasant for a man of a family to contemplate whether he is a laborer, mechanic, merchant or publisher. Jas. O. Jones, publisher of the Leader, Mexico, Texas, was sick in bed for ten days with the grip during its prevalence a year or two ago.

In the latter case I used Chamberlain's Cough Remedy with considerable success, I think, only being in bed a little over two days. The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy. It should be borne in mind that the grip is much the same as a very severe cold and requires precisely the same treatment.

When you wish to cure a cold quickly and effectually give this remedy a trial. 50 cent bottles for sale by Dr. S. L. Leneve, druggist.

Winkers—Talking about mean men, do you know Blinkers? Winkers—Is he mean? Winkers—Mean! Mean is no name for it. Why, that fellow is mean enough to put his name on an umbrella.

Bigley—Did Jones loan you a ten? Rice—No. Bigley—What was his excuse for refusing you? Rice—He said the popular loan bill wasn't passed yet.

Waiter (to the gentleman who is looking at a napkin half full of holes)—I'll bring you another napkin. Never mind; the holes seem to be clean.

"What can you expect of the financial 'question'?" asks James S. Clarkson, "with a gold president, a silver senate and a greenback house?"

Perkins—What are you going to do with your son when he gets out of college? I think of sending him to school.

Boston doesn't say a "coal hod" any longer, but "a coal vase," pronounced "vawse."
