A Word to Young Men

Who go to church to make fun and disturb those who go there to worship.

The writer of this attended the Methodist Sunday-school Sunday afternoon, and while sitting there one of those who misbehave hit me in the face with a paper wad.

If there is a law to protect one from the insults of this class of young men I shall use it. I am not speaking for the Methodist church, but this ring of young men have attended the Christian church for a long time and have disturbed the services of all kinds by going through mock prayers, responding to the preacher, and in other ways.

This is very wrong. They are welcome to come to all our meetings, but they must behave, or now abide the consequences. ALA SEED. Feb. 25, 1895.

The schooner Antelope beat the best record on this last round-trip. She made the trip to San Francisco from this wharf in 54 days and returned to our wharf in 34 days. A bumper to Capt. Frank Erickson.

BACKACHE AND RHEUMATISM relieved by Dr. Miles' Nerve Restorer.

Dr. Miles' Nerve Restorer. Mrs. J. F. Bell, Osacatomie, Kan., wife of the editor of The Graphic, the leading local paper of Miami county, writes: "I was afflicted with heart disease for six years, severe palpitations, shortness of breath, together with such extreme nervousness, that at times I would walk the floor nearly all night. We consulted the best medical talent. They said there was no help for me, that I had organic disease of the heart for which there was no remedy. I had read your advertisement in The Graphic and I purchased, as a last resort, tried one bottle of Dr. Miles' Nerve Restorer for the heart, which convinced me that there was true merit in it. I took three bottles each of the Heart Cure and Restorative Nerve and it completely cured me. I sleep well at night, my heart beats regularly and I have no more smothering spells. I wish to say to all who are suffering as I did: there's relief and rest for them if they will only give your remedy just one trial."

DON'T STOP TOBACCO. IT'S INJURIOUS TO STOP SUDDENLY and don't be imposed upon by buying a remedy that requires you to do so, as it is nothing more than a substitute. In the sudden stoppage of tobacco you must have some stimulant, and in most all cases, the effect of the stimulant, be it opium, morphine, or other opiates, leaves a far worse habit contracted. Ask your druggist about BACO-CURO. It is purely vegetable. You do not have to stop using tobacco with BACO-CURO. It will notify you when to stop and your desire for tobacco will cease. Your system will be as free from nicotine as the day before you took your first chew or smoke. An iron-clad written guarantee to absolutely cure the tobacco habit in all its forms, or money refunded. Price \$1 per box, or 3 boxes (30 days treatment and guaranteed cure.) \$2.50. For sale by all druggists or will be sent by mail upon receipt of price. SEND SIX TWO-CENT STAMPS FOR SAMPLE BOX. Booklets and proofs free. EUREKA CHEMICAL & MFG CO., La Crosse, Wis.

Office of THE PIONEER PRESS COMPANY, C. W. Hornick, Supt., 815 Pa., Minn., Sept. 7, 1894. Eureka Chemical and Man'g Co., La Crosse, Wis.—Dear Sir: I have been a tobacco fiend for many years, and during the past two years have smoked fifteen to twenty cigars regularly every day. My whole nervous system became affected, until my physician told me I must give up the use of tobacco, for the time being at least. I tried the so-called "Kewley Cure," "No-To-Bac," and various other remedies, but without success, until I accidentally learned of your "Baco-Curo." Three weeks ago today I commenced using your preparation, and today I consider myself completely cured. I am in perfect health, and the horrible craving for tobacco, which every inveterate smoker fully appreciates, has completely left me. I consider your "Baco-Curo" simply wonderful, and can fully recommend it. Yours very truly, C. W. HORNICK.

Bandon Recorder: The woolen mill is doing a very good business now and is running over time to some extent. We understand that orders enough have been secured to keep work going night and day during the summer. A shortage of wool seems to be the only drawback that now exists, but we presume that the shortage will cease as the spring opens up. The company is making excellent cloth and the demand for their products is increasing.
