Temperance Notes.

[From the National W. C. T. U. Bulletin.] "If we save the children today we have saved the nation tomorrow."

An interesting feature of the World's Woman's Christian Temperance Union biennial meetings to be held in London next June, will be the unveiling of the children's fountain which is to be placed in London as a mark of British children's love and loyalty to the temperance cause.

The American Sabbath Union, the N. W. C. T. U., and all other Sabbath organizations of the country, unite in requesting all churches and all christians to observe the week April 7-14, 1895, as a week of special prayer, public and private, for the better observance of Sabbath, and it is suggested that to this end the mid-week service have this for its theme.

In New York, as in other parts of the world, the death-rate amongst Jews is in much less proportion than among the non-Hebraic classes; and this is accounted for on the fact that Jews are, as a rule, scrupulously clean in their habits of life and method of living generally.

The Scientific American criticizes the lack of wisdom which the state shows in enlarging its prisons, and reformatories, and asylums for the insane, instead of enforcing existing laws preventing the opening of dens of iniquity, and forbidding the housing of human beings where disease festers and spreads with the very breeze which keeps the tenant from stifling.

A state conference of New York Ys will be held April 17 and 18 in Schenectady.

The Willard Y of New Orleans makes weekly flower mission visits at the almshouse and hospital and arranged to hold gospel temperance meetings every week at the almshouse, at which meetings they will be assisted by different pastors of the city.

A Valentine party was given by Chicago Willard Y at the Temple, for the benefit of the organizing work of the society.

Two rooms in the State W. C. T. U. Home are supported by Wisconsin Ys.

Texarkana (Texas), Y has seventy enthusiastic members, who are agitating the calling of a county convention to vote out whisky.

Ice water drinking fountains have been erected and are kept supplied with ice by the Ys of Providence, Rhode Island, and of Philadelphia.

Six women's colleges have temperance societies organized under the name of "Somerset Y" in honor of Lady Henry Somerset.

"We take pleasure in recommending Chamberlain's Cough Remedy because it is praised by all who try it," says J. W. Cox & Son, druggists, Marshfield, Oregon. No one afflicted with a throat or lung trouble can use this remedy without praising it. It always gives prompt relief. It is especially valuable for colds as it relieves the lungs, makes breathing easier and aids expectoration. A cold will never result in pneumonia when this remedy is taken and reasonable care exercised. For sale by Dr. S. L. Leneve, druggist.

Ordered on Trial. Oakland, Cal.—"About two years ago I ordered from J. R. Gates & Co., San Francisco, a bottle of Simmons Liver Regulator on trial, and so satisfactory has been its use in expelling bile from the system, and regulating the action of the liver, that from an order of one at a time the order has risen to a dozen bottles at once."—B. V. Lawrence.

An exchange has the following: Two Irwin (Pa.) girls became infatuated with the idea of having their pictures taken with their heads coquettishly stuck through a torn newspaper and visited a photograph gallery for that purpose. When the pictures were finished they were horrified to see what they had failed to notice—that in the newspaper they had stuck their heads through, was a clothing firm's advertisement headed, "Our pants are lined in the seat."

\$100—Reward—\$100. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hill's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hill's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHENEY & CO., Toledo, Ohio.

LOOK UPON THIS PICTURE:

The Income Tax Law, With Some Exceptions, Declared Constitutional.

Chicago, April 6.—A special to the Tribune from Washington says: "The United States supreme court in a decision on the income tax cases has reversed the decision of the lower court, but the income tax law as a whole is upheld by an evenly divided court. Under the decision it is said that all incomes derived from rents of buildings or lands are exempted from taxation by the federal government and all incomes derived from interest on state and municipal bonds are similarly exempted. In other respects, the income tax law stands as it was last August, but as a result of consultation among the members of the supreme court shows very conclusively that the law can easily be picked to pieces, provided suits are brought to contest each particular point as it comes up. The court is evenly divided. Justice Jackson was too ill to take part. Chief Justice Fuller and Justices Field, Gray and Brewer were opposed to the law. Justices Harlan, Brown, Shiras and White voted to sustain the law.

Look out for an irrepressible female who is canvassing for the sale of pants buttons. She snaps one on the pants of a married man and he is compelled to buy a box in order to explain to his wife where he got that button. In some instances she will clip off two or three buttons, and the victim is compelled to buy a box or go around holding up his pants.

Another Free Offer.

The long winter evenings can be very profitably devoted to reading, but there are some things that must be read the year round. One of these is a local paper: the best in the county is before you—the HERALD. Another is a good home paper of general circulation, such as "Womankind," for instance, which comes once a month filled with the best things for a busy housewife. We are able by special arrangements with the publishers, to offer "Womankind" free for a year to every paid-in-advance subscriber to our paper, and are glad to do so, for we are convinced that no home paper in America contains more of practical value to women. Bright stories, clever poems, the latest fashions, news of woman's work everywhere, articles on "Motherhood," "Cultivation of Flowers," a woman's parliament for the discussion of matters of interest. A few of the bright features of "Womankind."

To the head of the house we offer on the same terms "Farm News," an agricultural paper, edited by a practical farmer (Miller Purvis, esq., late state lecturer of the Ohio Farmer's Alliance), and filled each month with suggestions from able correspondents, that make it an absolute necessity to every wide awake farmer. This paper is yours for the asking, provided you are a subscriber to our paper. Remember every paid-in-advance subscriber to the HERALD is entitled to his choice in either of these papers. Tell your neighbors about this offer. A sample copy of both papers may be obtained by addressing the Hosterman Publishing Co., Springfield, Ohio. Come in and pay a year in advance to the HERALD and get one of these attractive papers free.

ALMOST A NEW YORK DAILY.

That Democratic wonder, the New York Weekly World, has just changed its weekly into a TWICE-A-WEEK paper, and you can now get the two papers a week for the same old price—\$1 a year. Think of it! The news from New York right at your door fresh every three days—104 papers a year—and your home paper THE HERALD all for Only \$2.25!

"For Years,"

Says CARBIE E. STOCKWELL, of Chesterfield, N. H., "I was afflicted with an extremely severe pain in the lower part of the chest. The feeling was as if a ton weight was laid on a spot the size of my hand. During the attacks, the perspiration would stand in drops on my face, and it was agony for me to make sufficient effort even to whisper. They came suddenly, at any hour of the day or night, lasting from thirty minutes to half a day, leaving me suddenly, but, for several days after, I was quite prostrated and sore. Sometimes the attacks were almost daily, then less frequent. After about four years of this suffering, I was taken down with typhoid fever, and when I began to recover, I had the worst attack of my old trouble I ever experienced. At the first of the fever, my mother gave me Ayer's Pills, my doctor recommending me to prepare. I continued taking these Pills, and so great was the benefit derived that during nearly thirty years I have had but one attack of my former trouble, which yielded readily to the same remedy."

G. A. R. NOTICE.

We take this opportunity of informing our subscribers that the new Commissioner of Pensions has been appointed. He is an old soldier, and we believe that soldiers and their heirs will receive justice at his hands. We do not anticipate that there will be any radical changes in the administration of pension affairs under the new regime. We would advise, however, that U. S. soldiers, sailors, and their heirs, take steps to make application at once, if they have not already done so, in order to secure the benefit of the early filing of their claims in case there should be any future pension legislation. Such legislation is seldom retroactive. Therefore it is of great importance that applications be filed in the department at the earliest possible date. If U. S. soldiers, sailors or their heirs, children or parents, desire information in regard to pension matters, they should write to THE PRESS CLAIMS COMPANY, at Washington, D. C., and they will prepare and send the necessary application, if they find them entitled under the numerous laws enacted for their benefit. Address: PRESS CLAIMS COMPANY, John Wedderburn, Managing Attorney, P. O. Box 388, Washington, D. C.

PATENTS FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney. With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.
