TILLMAN'S DEMOCRACY.

The South Carolina Senator Bitterly Arraigns the Cleveland Administration.

In reply to the inquiry as to whether a new party would take part in the presidential campaign in 1896, made to several senators and congressmen, Senator Tillman of S. C. replied:

"In my judgment the organization of a new party is inevitable; and it will present as the main issue the restoration of bimetallism and the conduct of our finances in the interests of the people. The poverty and misery wrought by the fall of prices, directly traceable to the gold conspiracy and the contraction of the currency, will break up both old parties—equally responsible for this crime against humanity—and cause a new alignment in politics.

"The south and west will naturally join in overturning a policy which robs them and tends to pauperize the producers and laborers for the benefit of a few thousand bankers and millionaires here and in Europe. Party ties and sentiment will not hold men whose resentment of wrong and whose instinct of self-preservation command them to seek new political alliances.

"Populism in the west was a protest against Republican misrule and Democratic imbecility. In the south it was largely against bourbonism and bossism in state affairs; but the progressive, restless element of southern Democracy is strongly imbued with the idea of national financial reform, and nine-tenths of the southern people are for free silver and opposed to national banks.

"It was necessary, however, before the southern voters could be weaned from the Democratic party to have that party once control all branches of the government, and be in a position to do what it promised in its platform. The test has been made, and such a disgraceful spectacle of betrayal of the people and disregard for the pledges made before election has never been witnessed in our political history. The senate and house, with majorities elected as pledged to bimetallism, demonetized silver at the command of the president, who unblushingly used the patronage of his office to debauch the representatives of the people and carry out his compact with the gold conspirators. The tariff reform promised is an abortive compromise, reeking with the stench of sugar trust deals, and grants no relief from monopolies.

"The cowardice and treachery of congress; its subserviency to White House influences; the subserviency of the president to Wall and Lombard streets, with its phases of partnership, and the disgraceful bond dicker, with its nine millions of profit stolen from the people; the whole scheme of plunder involved in the issue of bonds in the time of peace, and the brazen and scoundrelly refusal to protect the treasury by payment of silver certificates in silver and greenbacks, or 'coin,' as provided by law—all these things have awakened and opened the eyes of the people to the necessity for a new deal.

"Party ties and pledges did not restain or bind the so-called Democrats of the east and north in the last congress. They voted with the Republicans on the tariff and money questions. Will the southern Democrats and western Republicans follow their example in the next election and vote together for the relief of the millions whose interests demand more money and a bimetallic standard, higher prices, in a word? Are we southern farmers idiots to longer cling to the shadow when the substance is gone?—a Democracy which is not Democratic and a Republicanism which is plutocratic?

"It seems to me a very plain case. Five-cent cotton and fifty-cent wheat are arguments which cannot be answered. The Populists will readily merge their organization in a new party, once it gets well under way. The manufacturers and merchants, whose business has been so seriously injured by the impoverishment of the farmers and the destruction of the 'home market, will, if not wholly blind and besotted, lend their aid, and will see another revolution like that of 1828. Instead of government by the banks, through the newspapers and paid attorneys, masquerading as congressmen, for the millionaires, we will have government for the people and restore the standards of Jefferson, Jackson and Lincoln.

"South Carolina opposed Mr. Cleveland's nomination in 1892. We predicted what has followed it, but we loyally supported the ticket and gave him our electoral vote, and Weaver got only 2200 votes in this state. We are Democrats of the straightest sect, but we no longer love the name. Clevelandism makes it stink, and this state will lead the south in joining the west next year for the abolition of white slavery, now pressed on us by the plutocracy of the east and England.

"The Republican party will not grant us relief. The Democratic party is dead, though not buried, and will offend the nostrils of honest men for two more years. A union of Republicans, Democrats and Populists who think alike on the money question is the only sensible course left us. Such a combination is inevitable and irresistable.
B. R. TILLMAN.

SAVED THE REPUBLIC.

The Soldier and the Greenback Together—Gold Is a Coward in war, an Enemy in Peace.

In 1862, when liberty was assailed by grim-visaged war, gold, as ever a coward, retreated to vaults and to Europe. Then as Minerva sprung full armed and ready for victorious combat from the brain of her parent, so sprang from the brains of wise statesmen the millions of greenbacks ready to save the menaced nationality. They sheltered, fed, clothed and armed the soldier; built ironclads and manned them. With aid of boys in blue they conquered. Peace once here, the coward gold, whose emissaries had traitorously crippled the nation by crippling the greenback, returned and has been for thirty years waging subtle and insidious war upon the national life by seeking to destroy the savior of '65—the greenback. Now the warfare is opened and avowed. The battle is on and it is gold vs. greenback. Will the American patriots stand firm? Will the G. A. R. see its comrade defeated? Will the son of the veteran see the power that saved, through his father, liberty for him, destroyed? Traitors they who cry out against the greenback! It is as much a sign of nationality and sovereignty as is the flag. "Shoot him on the spot who hauls down one" is the cry. Of the two the greenback has most power, and he who decrys that should be exported with gold to some country where liberty is not. Beware of any cry that does not include all the Omaha Platform. Let not our ranks be divided by the silver issue. The whole includes all its parts. The People's party includes free silver and more. Encourage the free silver discussion in the old parties, but shoulder to shoulder forward under the banner on which is Money, Land and Transportation. To that banner all shall yet rally, and the first battleground—the silver dollar—only prepares the way for the victory for the legal tender paper. Let dissention rage and disrupt the old. All fragments thrown off by schism will unite with this large young party that has no leveller and acknowledges no authority but truth and justice. As well curtail the declaration of 1776 as that at Omaha. Rejoice in the new parties and stand firm on the platform now builded and onto which they shall step. After taking the first silver step the other two will be easy. The dawning light of victory is in these signs of disintegration in the old.

"Every crumbling altar stone
That falls upon the ways of time,
Eternal wisdom has o'erthrown
To build a temple more sublime."

GENERAL NEWS.

PLUTOCRATIC SWINDLER TURNED OVER.

Buenos Ayres, April 14.—The federal grand-jury has ordered the Salta government to deliver Jabez Spencer Balfour, whose extradition the British have long been trying to obtain, to the British legation in this city. He will be taken to London to answer the charges made against him in connection with the collapse of the Liberator Building society and allied concerns, the failure of which ruined thousands of persons who had invested their money in the different concerns. At the time of his flight from England Balfour was a member of parliament.

SUES FOR MILLIONS.

San Francisco, April 14.—P. F. Denton, representing the depositors and creditors of the defunct Pacific bank, today began a suit against the former directors of the bank for $2,000,000 alleged to have been squandered and misappropriated by them. He also sues the McDonalds and other stockholders for $1,000,000.

JUDAS ISCARIOT CRUCIFIED.

Youngstown, O., April 14.—The Greek church here celebrated Easter in a grove near the city by crucifying Judas Iscariot in effigy. Then they amused themselves shooting at the effigy which was filled with firecrackers. Finally they set it on fire. After that they had a banquet in the woods.

CHARGED WITH SMUGGLING.

El Paso, Tex., April 14.—Webster Flanagan, ex-collector of customs at this port, generally known as "What-are-we-here-for" Flanagan, is on trial charged with assisting A. G. Dawson to smuggle some 20,000 sheep from Mexico.

NORTH POLE FOUND.

Paris, April 15.—Figaro prints a rumor that Dr. Hansen, the Arctic explorer, had found the North Pole, and that it is situated on a chain of mountains. It is also said that Dr. Hansen planted the Norwegian flag there. The story is regarded as untrue.

BUYING HORSEMEAT.

Pendleton, April 14.—Buyers are negotiating for the purchase of many thousands of horses from Umatilla county ranges for slaughtering. It is not known where they are wanted. It is supposed to be at Portland. One man sells 6000.

CHINA'S CONCESSIONS.

Washington, April 11.—An authoriative statement of the terms of peace being negotiated between Japan and China has been secured from official sources. The statement is made in order to clear up much misapprehension arising from speculations. The terms are as follows:

First—The independence of Corea.

Second—The permanent cession of the island of Formosa to Japan.

Third—An indemnity of 300,000,000 taels of Chinese coin, worth $1.33.

Fourth—The permanent occupation of Port Arthur and the immediate contiguous territory.

Fifth—A new Japan treaty opening the interior of China to commerce.

While the face value of a tael is $1.33, it would be equivalent to $300,000,000 in silver—it is said the actual value would be between $210,000,000 and $220,000,000 in gold. The fifth term as to the new treaty includes various trade features, such as the free access to Chinese rivers. There is no demand for territory on the mainland outside of Port Arthur and its contiguous surroundings.

SURRENDERED BY HIS BONDSMEN.

San Jose, Cal., April 15.—J. M. Leonard, vice-president of the bank of Santa Clara county, which he and Cashier H. C. Hayward are said to have wrecked, was surrendered by his bondsmen tonight, as the supreme court has denied the motion for a rehearing of his motion for a new trial. He was sentenced to three years in Folsom. There are yet seven cases of embezzlement and one of falsifying the records untried. Hayward was on his deathbed when the wreck came, and escaped prosecution.

The Tillamook CreamerCompany has the milk from 600 cows contracted for this season.

Careless Work.

As it becomes necessary to copy the legislative journals for the printer the forces in the secretary of state's office find a large number of minor and some material errors in the journals of the senate, so much so that the secretary considered it ridiculous to have them printed and published in the present condition, yet he feels unwarranted in making any changes. President Simon of the senate was in the city yesterday and Secretary Kincaid consulted him on the matter. He advised sending for Senator Dawson of Linn county, who was one of the senatorial committee appointed to oversee the work of correcting the journals after the session, that he might make the necessary corrections. Mr. Kincaid wrote Senator Dawson last night, requesting him to come for that purpose.—Salem Statesman.

PATENTS

NOTICE TO INVENTORS.

There was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of mankind in the factory and workshop, the household, on the farm, and in official life, require continual accessions to the appurtenances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who being on the alert and ready to perceive the existing deficiencies, does not permit the affairs of the government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skillful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who entrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade-marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.
