The Herald has splendid clubbing facilities with the best newspapers published in the land. We offer The Herald and the New York Times - A - WEEK WORLD, both for one year for only \$2 25

PUT THE QUESTION.

Undoubtedly the test is upon us, and at the approaching general election, to be held in November, 1896, whether the same be fairly and understandingly put or not, the question as to whether this is to be and continue a government of the people, by the people and for the people will be decided.

MONEY.

Shall it be on gold basis alone? [Yes.] [No.] Or shall it be gold, silver and paper? [Yes.] [No.]

Now here is a practical, inexpensive and fair way to get the will of the people, and this vexed question would thus be settled by those who have the right to speak on it, and in the manner established therefor.

The attorney general of the United States has dismissed the cases against Eugene V. Debs, president of the A. R. U., who was being persecuted as a criminal and party to the damage to property and interference with the mails during the great railroad strike at Chicago last summer.

A Ledger of Rock Gives Way.

New York, N. Y., April 27.—A special to the World from Coshocton, N. Y., says: John Rich, Sydney Burns, Annie Mitchell, Irene Tempest and Lora Long were standing on a ledge of rock 300 feet high which overhung the park a little to the eastward of here, last night.

The five young people felt the ledge giving way under their feet and tried to get off, but were too late. Irene Tempest managed to grasp the edge of a solid remnant of the rock and hung there for thirty minutes until help could reach her.

One huge fragment of the rock rolled upon the tracks of the Erie Railway just after the Buffalo express passed.

Nowadays it is a wise grandfather who knows as much as his grand-son.

Additional Locals.

The teachers' examination will be held at Myrtle Point, beginning at 1 p. m. tomorrow.

Miss Briggs, who takes charge of the Strang school, is in this city visiting, the guest of Miss Lucy Nichols.

The schooner Amethyst was towed down from Morris Bro's mill last Saturday, near noon. She was loaded with lumber for San Francisco.

The May-Day ball last Saturday night was quite a success. It had a fair number attending, and was social and most pleasurable. Wm. Kendall spared no pains to have a good time, and his arrangements of committees and for music were complete.

The Coquille Dairymen's Union held its regular monthly meeting yesterday. Nothing of a public nature was done. Reports of officials were received and informal discussion had of the general outlook and prospects of the enterprise.

The 2d instant was celebrated by several citizens in this place as birthday anniversaries. Our old friend, S. B. Barrows, was greeted by friends on his 67th birthday; friend A. Boyrie, also, attained to a good age; several juveniles also celebrated. The Herald extends greetings to one and all.

The Valley Oracle Ferndale, Cal.; A. N. Wittmann returned this week from a trip to Curry county, Oregon, where he has been on a business visit for some time. He came down by the Klamath road, which he pronounces in good condition with easy grades. He states that times in Oregon are not so bad.

While in Stockton, Cal., some time ago, Thos. F. Lanagan, of Los Banos, that state, was taken very severely with cramps and diarrhoea. He chanced to meet Mr. C. M. Carter, who was similarly afflicted. He said: "I told him of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and we went to the Holden drug store and procured a bottle of it. It gave Mr. Carter prompt relief and I can vouch for its having cured me." For sale by Dr. S. L. Leneve, druggist.

The Valley Oracle, Ferndale, Cal., says: Last Wednesday Rev. S. R. Wood joined in marriage Frank Flint and Miss Katie Goble.

The ceremony took place at the bride's parents, Mr. and Mrs. Wm. Goble, of Port Kenyon. Both the bridegroom and bride are well known in this community. We are informed that they will reside on the Occidental ranch, of which Mr. Flint is foreman. We wish them a long life of happiness and prosperity.

Norway Items.

May 5.—It is true, Norway is booming, as Tom Hobin says. Our new neighbors, that "I. B." speaks of, are from Pleasant valley and were formerly neighbors of "Tom B's."

Rev. B. F. Masterson of Lordsburg, Col., has been holding meetings at this place the past two weeks. He is an able speaker. He will conduct meetings on Fish-trap next week.

Miss Ella Carl went to Fairview last Sunday, where she will teach school this summer.

La grippe has been raging in our vicinity for the past week, but all have about recovered again.

The young man who built the cage in Pleasant valley last fall, and failed to catch the bird, is a very promising young man; that is, he promises the young lady who might become his companion that he will take her to Pleasant valley and give her full sway in providing the necessities of life, as his good old mother has been doing, now 70 years of age.

"Tom Bobin," the correspondent to the West Oregonian, has shown his illiteracy more than ever, speaking of "Clipper" going to see his best girl to get milk. I would give "Tom Bobin" to understand that I have enough milk at home for him to swim in, but what is hurting "Tom" is that he has no place to go to get milk. We would be very thankful to you, "Tom Bobin," if you would call around; you should not think that you should not pay for hay fed to a race-horse just because the horse lost the race.

Call again, "Tom Bobin;" we are full of tricks. CLIPPER.

Brooklyn Eagle: If the right twenty people should die the emperor of Germany would become king of England and emperor of India. Then when we twisted the lion's tail some one would howl.

Hepburn Gazette (Rep.): The silver men in the Republican party have heretofore taken "the medicine," even when they failed to get what they knew was right. Beware, that they are not forced to do otherwise.

Nervous Prostration.

E. W. JOY COMPANY—Gentlemen: I have suffered from a nervous prostration from financial losses. Can say Joy's Vegetable Sarsaparilla has cured me. My liver, stomach and bowels have been very inactive, but since taking your remedy I am entirely well. All business men and women should use it. Please publish. (Signed) Mr. Wm. HENRY JONES, Butte, Mont.

Backache, Dizziness, Tiredness, give way to Joy's Vegetable Sarsaparilla.

[West Oregonian]

There were some rowdies in town Monday. Myrtle Point is so quiet generally that the marshal was not expecting hobos, hence they escaped arrest.

Homer Greer, of Ravenswood, W. Va., arrived here Wednesday morning by stage and has been a guest of S. B. Hermann since. The gentleman is an ex-editor of much note, and became acquainted with Mr. Hermann when he was attending the Washington & Lee University. Mr. Greer will remain all summer, and perhaps establish a pork packing plant at Myrtle Point.

John Belieu was robbed of a new suit of clothes at his residence four miles south of Coquille City, on May 1st. There was some money in the pockets. The thief went into his room while he was asleep and carried off the articles very early after midnight. Constable M. R. Lee arrested Mike Owens on a warrant, but there was no proof to bind him over for the crime, and Judge Bender released him.

Daniel Giles and Charles Stewart returned from Salem Tuesday whether they had been to deliver the unfortunate Perry Stoddard to the asylum. Their charge gave them but little trouble, however they were obliged to guard him day and night, as he was very restless and acted at times as though he wanted to get away. He realized that he was going to the asylum, and seemed to think that he would never live to return to his home. Mr. Giles reports that the roads from this place to Roseburg are comparatively good until you get to the county line, then they are almost impassable.

Bandon News.

ED. HERALD: On the 22d of last month the temperature at Bear creek, about 4 miles inland from Bandon, was 92 degrees in the shade. On the same day at our observatory at the beach the highest figure reached was only 60 degrees.

Lots of strangers now in Bandon, mostly black and miners. They are visiting that portion of the coast adjoining the mouth of our river on the north, and down south along the beach as far as Gold Beach. Many are also going inland, one of whom tells us that he and his wife and family are going down to the Sixes, where he has a mining claim, and where he expects to be able in a short time to get the gold, almost by the shovel.

And his wife says that when they get all they want, they will sell out to Europe and visit Paris, Berlin and London. Whilst at the latter place she thinks whilst I call on and have a chat with the queen, as she speaks English just as well as Americans, and consequently she can understand her; but as for Paris and Berlin, why what the people speak there is all jargon. Some of the miners are coalmen, and they like the coal on the banks of the Coquille very much, and they say that when the railroad from Myrtle Point to Roseburg is completed the freight cars will be fully employed carrying coal to the inland cities and towns.

Many of these are entirely dependent on wood at present, and when this gives out, and it has nearly done so in many places, they must get coal or eat their potatoes just as they dig them out of the ground, and their pork, beef and mutton as they get them from the butcher. A greenhorn from the bay, who lately visited Bandon, told some of our townspeople, that the town was going down. What makes you say so, said they? O, because they are always building new houses here. Now, how else did Paris, New York, London and all the other great cities of the world grow but by building new houses? And if the new arrivals didn't build the new houses for their own accommodation (and they generally have done so here) then some one else should do so for them, or they should go elsewhere; but we are anxious to accommodate all those whom we believe will make desirable citizens, for who knows yet, and we should not be surprised that Bandon with all its advantages, commercial and otherwise, if it does not yet become a very large and thriving city.

The patentee of the Bandon beach has given permission to the possessors of King's black and gold saving machine to see what they can do with it, on that portion of the beach belonging to him, and welcome. It is one of the first places they are going to try with it on its arrival. VIDEO.

Russell Sage pocketed \$40,000 in profits on 50,000 barrels of oil, and has been kicking himself ever since because he did not hold on a few days longer and double his winnings.

A Free Offer to Our Readers.

"The Heart" is the title of an excellent paper lately published. Not until we read this instructive treatise did we have the true conception of how wonderful is the work of the human heart. We quote by special permission of the author the following from the preface: "Very few people have ever given the attention to their hearts that this important organ warrants. This wonderful little machine which is not much larger than your hand, and only about two and a half inches thick, labors day and night without rest, performing such an enormous amount of work as to be almost beyond belief. Physiologists say each pulsation or contraction of the heart exerts 50 pounds of force, which amounts to 3600 a minute, 116,000 an hour, and the inconceivable number of 5,184,000 in a single day! Now, it is necessary that all this vast amount of labor should be done, and well done every day. The health will surely suffer in consequence of the least failure on the part of the heart to properly perform its duties. When it is weak or deranged it directly affects every organ in the human body and they are unable to perform their duties from lack of blood and nerve force. Those organs that are more intimately associated with the heart are usually first to feel the effects when it is irregular and fails to perform its proper functions."

This treatise is very artistically illustrated with colored plates, and, although strictly scientific, is written in a popular language, making it very interesting reading for all. The editor of this paper has made special arrangement with the publishers to have this treatise sent free to any reader who sends a postal card and mentions this paper to THE MILES COMPANY, Elkhardt, Ind.

WALTER DRANE, Blacksmith and Wagonmaker, COQUILLE CITY, OREGON

ALL kinds of farm work solicited. Horse shoeing and plow work a specialty. Supplies for logging work, wedges, dog rings, cut-hooks and everything used in logging camps kept on hand. Satisfaction guaranteed. Shop on corner north of Pio-neer Feed stable. (131)

Mr. Arthur Monday Woodland, Wash.

"I Am Cured"

Eczema For Over Three Years Purified the Blood With Hood's Sarsaparilla and is Now Well.

"Dear Sirs: I wish to forward you a statement of my case. Eczema appeared three years ago and since then I have tried all kinds of remedies for the cure of the disease and had given up all hope of ever being cured. At last I was told to try Hood's Sarsaparilla and Hood's Olive Ointment. I did so and I am happy to say that

I Am Cured of that dreadful skin disease. I have taken sixteen bottles of Hood's Sarsaparilla and used five boxes of the Ointment. I would have written before but I wished to wait until I was completely cured. I am now perfectly cured. I gladly recommend Hood's Sarsaparilla." ARTHUR J. MONDAY, Woodland, Washington.

Hood's Sarsaparilla Cures

that disease would not return again. It has not and I can say I am perfectly cured. I gladly recommend Hood's Sarsaparilla." ARTHUR J. MONDAY, Woodland, Washington.

Hood's Pills do not purge, pain or grip, but act promptly, easily and efficiently. See.

Special From the North Fork.

April 29.—As we predicted, the wedding at L. T. Weekly's on the 28th was a very pleasant gathering. By count there were forty grown persons in attendance, and on further count we found fifty-three little people present. This shows that Coos county is progressing on social lines, and that our community is advancing in population—adult and juvenile.

J. H. Minard, J. P., was the officiating genius in the matrimonial alliance of Jeff Crosby and Miss Leona Weekly, and had a very impressive ceremony, owing to which, in tendering congratulations to the bride and groom, one young gentleman—who is himself seriously contemplating taking this important step in life—saluted both the bride and groom with a kiss, and further reached for the groomsmen, but failed, and forgot to extend the osculatory ceremonial to the charming bridesmaid, for which offense she says she will settle with him in the near future.

All the guests sat down to a bountiful repast, which the host and friends had previously prepared in abundance, and enough was left for the charivari crowd at night. On Monday night a grand ball was given at Shiloh school-house, which ends the nuptial festivities so far as the happy couple is concerned. May they live long and be happy. DON REX.

Lee Items.

May 2.—April went out like a lamb and May came in like a roaring lion. Most all the farmers are done planting excepting corn. They haven't got it planted yet, and it doesn't look like they are going to get it planted soon.

There was a dance given at Mr. Chandler's May-Day. I suppose they had a very nice time, considering the crowd that was there.

E. P. Mast and his son Fred passed through this vicinity on their way to Norway the 1st inst. E. P. has purchased some calves of Mr. Luttrell and has gone down after them.

J. M. Summerlin made a trip to Coquille last week. Miss Sadie Briggs of Monmouth is visiting Mrs. C. H. Mast of Lee. She is going to teach school in the Strang district.

William Harmon visited Norway the last of the week. Sam Giles, the deputy sheriff, passed through this vicinity Wednesday. Topsy.

Jackson county is calling in its outstanding warrants issued prior to 1888, about \$10,000 worth.

Russell Sage pocketed \$40,000 in profits on 50,000 barrels of oil, and has been kicking himself ever since because he did not hold on a few days longer and double his winnings.

DON'T STOP TOBACCO

How to Cure Yourself While Using Tobacco.

The tobacco habit grows on a man until his nervous system is seriously affected, impairing health, comfort and happiness. To quit suddenly is too severe a shock to the system, as tobacco, to an inveterate user, becomes a stimulant that his system continually craves. Baco-Curo is a scientific cure for the tobacco habit, in all its forms, carefully compounded after the formula of an eminent Berlin physician who has used it in his private practice since 1872, without a failure, purely vegetable and guaranteed perfectly harmless. You can use all the tobacco you want, while taking Baco-Curo; it will notify you when to stop. We give a written guaranty to permanently cure any case with three boxes, or refund the money with 10 per cent interest. Baco-Curo is not a substitute, but a scientific cure, that cures without the aid of will power and with no inconvenience. It leaves the system as pure and free from nicotine as the day before you took your first chew or smoke. Sold by all druggists, with our ironclad guaranty, at \$1 per box; three boxes (thirty days' treatment), \$2.50; or sent direct on receipt of price. Write for booklet and proofs. Eureka Chemical & Mfg Co., Mfg Chemists, La Crosse, Wisconsin.

We quote by special permission of the author the following from the preface: "Very few people have ever given the attention to their hearts that this important organ warrants. This wonderful little machine which is not much larger than your hand, and only about two and a half inches thick, labors day and night without rest, performing such an enormous amount of work as to be almost beyond belief. Physiologists say each pulsation or contraction of the heart exerts 50 pounds of force, which amounts to 3600 a minute, 116,000 an hour, and the inconceivable number of 5,184,000 in a single day! Now, it is necessary that all this vast amount of labor should be done, and well done every day. The health will surely suffer in consequence of the least failure on the part of the heart to properly perform its duties. When it is weak or deranged it directly affects every organ in the human body and they are unable to perform their duties from lack of blood and nerve force. Those organs that are more intimately associated with the heart are usually first to feel the effects when it is irregular and fails to perform its proper functions."

This treatise is very artistically illustrated with colored plates, and, although strictly scientific, is written in a popular language, making it very interesting reading for all. The editor of this paper has made special arrangement with the publishers to have this treatise sent free to any reader who sends a postal card and mentions this paper to THE MILES COMPANY, Elkhardt, Ind.

WALTER DRANE, Blacksmith and Wagonmaker, COQUILLE CITY, OREGON
