Temperance Notes.

[From the National W. C. T. U. Bulletin.]

The majority report of the committee on elections and suffrage in the Utah constitutional convention recommends woman's suffrage in the exact language as the constitution of Wyoming.

In Germany the problem of how to treat wife-beaters has been solved in a far wiser way than in most other countries, for there the brutal husband must work all through the week, then turn over his wages to his wife on pay-day and go to jail Saturday night and Sunday; about two weeks of this sort of experience has a most salutary effect on the savage wife-beater.

A man can not use what is called the best of wine daily for ten years and be free from disease. Whatever is in the least harmful to the human economy, when taken internally, whether it irritates the nerves, or only rendered them more sensitive to external impressions, or accelerates the degeneration of cell-tissue, is incompatible with healthy growth, and therefore its use is abuse.—Journal of Hygiene.

Through the efforts of Miss Gorham, national superintendent of the evangelistic work in the British Woman's Association (Lady Henry Somerset, president) one hundred pulpits have already been secured for meetings in connection with the Third Biennial Convenvention of the World's W. C. T. U. to be held in London, June 14-21. It is expected that not fewer than one hundred white ribbon women will be present as delegates.

In a recent address on "Adulterations in Liquors," before the Society of Medical Jurisprudence, Albert R. Ledoux said, speaking from the standpoint of an analytical chemist, rather than that of either a temperance reformer or advocate of license: "The medical profession, as well as all temperance reformers, should never cease to make it plain that the evil lies in the alcohol in the liquors, and not in the adulterations; that the unfortunate votary should not be allowed to deceive himself with the idea that if he drinks some particular brand, or abstains from another, he can derive benefit, or at least escape injury. If he is injured at all, he is injured by the alcohol, if he is benefited at all, he is benefited by the alcohol. I trust that the society does not conclude that I am ascertaining that there are never harmful substances in our alcoholic liquors. I simply take the ground that as compared with the alcohol their injurious effect is absolutely insignificant."

Liquor in Other Lands.

Speaking of the traffic in Africa the London Times says: "There is not a doubt left in the minds of intelligent, experienced, and practical men that the supply of intoxicating liquor to the native races is equivalent to the demoralization and degradation of the races concerned, and that the first condition of progress in the habit of orderly and industrious existence is to keep the poison of alcohol out of their reach. It is not a temperance fad nor a mere philanthropic counsel of perfection. It is the sober decision of unromantic men of business, from one end of Africa to the other, that an essential preliminary to successful administration is to prevent the sale or supply of spirits to the native."

M. Lejeune, former minister of justice, declared in the discussion which took place in the Belgian chambers on the subject of alcoholic liquors that the nation was reverting to a new form of barbarism which could only be described by the term alcoholic barbarism. From statistics furnished by him, it appears that the revenue from the excise, which amounted to four millions of francs in 1851, has now attained 33,000,000; that during the same period the number of public houses has increased from 53,000 to 75,000. Further, that from 1851 to 1888 criminality increased at the rate of 200 per cent and insanity at the rate of 138 per cent, and that of every hundred deaths among the male portion of the community 80 may be traced to alcoholic causes.

There is no danger from this disease when Chamberlain's Cough Remedy is freely given. It liquefies the tough mucus and aids its expectoration. It also lessens the severity and frequency of paroxysms of coughing, and insures a speedy recovery. A Chance for Practical Genius.

The Press Claims Company, of Washington, D. C., has adopted a unique method of encouraging American inventors. Every month it makes an award of one hundred dollars in cash to the inventor having the most meritorious invention, who may apply for a patent upon the same through the medium of this great combination of American newspapers, effected for the protection of the American people against unscrupulous patent attorneys and claim agents at Washington. Three awards have been made already; one to C. L. Jourdan, of Pellahatchie, Miss., one to J. H. Rogers, of Philadelphia, and the third to R. C. DeVault, of Philadelphia, Pa. Mr. Devault lives at No. 1429 S. Juniper St., in the City of Brotherly Love, and his device which receives the award of merit for the current calender month, is a car fender, simple in construction, practical in operation, and no doubt of great commercial value. The Press Claim Company sends out an interesting little booklet called "Hints to Inventors," which the readers of this paper who are interested in obtaining patents would do well to secure. They can be obtained gratuitously by the readers of this paper who mention that fact, and who enclose a clipping of any advertisement of the company which may appear therein. Backed up, as its attorneys are, by the influence of nearly two thousand of the most potent papers of the country, the Press Claims Company is now in a position to secure prompt and speedy justice for all classes of claimants against the General Government, and the readers of this paper who have this class of claims to prosecute would do well to communicate with Philip W. Avirett, Managing Attorney of the Company, 618 F Street, N. W., Washington, D. C.

From Minnesota.

Another remittance of a year's subscription to the HERALD has been received from a former citizen, now and for several years past residing in Minnesota, D. W. Stevens. Mr. S. has many friends here, and he himself has a longing to return and join them. He says: "I cannot do without the HERALD. Every issue brings me some news of friends and acquaintances of long ago, but I wish to assure them, through the columns of your paper, that I often think of my friends in old Coos. I am located in a comparatively new country awaiting a boom, and when the proper time comes expect to sell out and go back to Oregon. With best wishes to yourself and all readers of the HERALD, I am, respectfully yours,

"D. W. STEVENS."

Foreclosure proceedings have been instituted against the Gravel Ford creamery, we are exceedingly sorry to say. That enterprise has just been located advantageously for operating and is only getting a start. What a pity costs of lagal proceedings must now be piled up against the enterprising investors and benefactors of that community before operations have been established.

Another Free Offer.

The long winter evenings can be very profitably devoted to reading, but there are some things that we must read the year round. One of these is a local paper: the best in the county is before you—the HERALD. Another is a good home paper of general circulation, such as "Womankind," for instance, which comes once a month filled with the best things for a busy housewife. We are able by special arrangements with the publishers, to oger "Womankind" free for a year to every paid-in-advance subscriber to our paper, and are glad to do so, for we are convinced that no home paper in America contains more of practical value to women. Bright stories, clever poems, the latest fashions, news of woman's work everywhere, articles on "Motherhood," "Cultivation of Flowers," a woman's parliament for the discussion of matters of interest. are a few of the bright features of "Womankind."

To the head of the house we offer on the same terms "Farm News," an agricultural paper, edited by a practical farmer (Miller Purvis, esq., late state lecturer of the Ohio Farmer's Alliance), and filled each month with suggestions from able correspondents, that make it an absolute necessity to every wide awake farmer. This paper is yours for the asking. provided you are a subscriber to our paper.

Remember every paid-in-advance subscriber to the HERALD is entitled to his choice in either of these papers. Tell your neighbors about this offer. A sample copy of both papers may be obtained by addressing the Hosterman Publishing Co., Springfield, Ohio.

Come in and pay a year in advance to the HERALD and get one of these attractive papers free.

ALMOST A NEW YORK DAILY.

That Democratic wonder, the New York Weekly World, has just changed its weekly into a TWICE-A-WEEK paper, and you can now get the two papers a week for the same old price—$1 a year.

Think of it! The news from New York right at your door fresh every three days—104 papers a year—and your home paper The HERALD all for

A Bright Lad,

Ten years of age, but who declines to give his name to the public, makes this authorized, confidential statement to us:

"When I was one year old, my mamma died of consumption. The doctor said that I, too, would soon die, and all our neighbors thought that even if I did not die, I would never be able to walk, because I was so weak and puny. A gathering formed and broke under my arm. I hurt my finger and it gathered and threw out pieces of bone. If I hurt myself so as to break the skin, it was sure to become a running sore. I had to take lots of medicine, but nothing has done me so much good as Ayer's Sarsaparilla. It has made me well and strong."—T. D. M., Norcatur, Kans.

G. A. R. NOTICE.

We take this opportunity of informing our subscribers that the new Commissioner of Pensions has been appointed. He is an old soldier, and we believe that soldiers and their heirs will receive justice at his hands. We do not anticipate that there will be any radical changes in the administration of pension affairs under the new regime.

We would advise, however, that U. S. soldiers, sailors, and their heirs, take steps to make application at once, if they have not already done so, in order to secure the benefit of the early filing of their claims in case there should be any future pension legislation. Such legislation is seldom retroactive. Therefore it is of great importance that applications be filed in the department at the earliest possible date.

If U. S. soldiers, sailors or their widows, children or parents, desire information in regard to pension matters, they should write to THE PRESS CLAIMS COMPANY, at Washington, D. C., and they will prepare and send the necessary application, if they find them entitled under the numerous laws enacted for their benefit. Address,

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

A FEW Testimonials from persons who have been cured by the use of Hill's Tablets.

THE OHIO CHEMICAL CO.:
DEAR SIR:—I have been using your cure for tobacco habit, and found it would do what you claim for it. I used ten cents worth of the strongest chewing tobacco a day, and from one to five cigars; or I would smoke from ten to forty pipes of tobacco. Have chewed and smoked for twenty-five years, and two packages of your Tablets cured me so I have no desire for it.

DORBS FERRY, N. Y.
THE OHIO CHEMICAL CO.:—GENTLEMEN:—Some time ago I sent for $1.00 worth of your Tablets for Tobacco Habit. I received them all right and, although I was both a heavy smoker and chewer, they did the work in less than three days. I am cured.

PITTSBURGH, PA.
THE OHIO CHEMICAL CO.:—GENTLEMEN:—It gives me pleasure to speak a word of praise for your Tablets. My son was strongly addicted to the use of liquor, and through a friend, I was led to try your Tablets. He was a heavy and constant drinker, but after using your Tablets but three days he quit drinking, and will not touch liquor of any kind. I have waited four month before writing you, in order to know the cure was permanent. Yours truly,
MRS. HELEN MORRISON.

CINCINNATI, OHIO.
THE OHIO CHEMICAL CO.:—GENTLEMEN:—Your Tablets have performed a miracle in my case. I have used morphine, hypodermically, for seven years, and have been cured by the use of two packages of your Tablets, and without any effort on my part.
