The speakers who will be at the Salem state fair at John J. Ingals, of Kansas, W. J. Bryan, of Nebraska, and Gov. Budd, of California.

The Chicago Post says: "Prof. Cohn got along swimmingly until he attempted to explain just what he meant." If this is so, where are the two old parties in explanation of their positions on the financial question?

The president has appointed Richard Olney, late attorney general, to the position of secretary of state just made vacant by the death of Mr. Gresham; and Judson Harmon of Cincinnati, Ohio, takes the attorney-generalship.

The courts are doing some queer work of late, among which we find that the supreme court of this state has decided that the city council of Portland has legally levied and can collect an additional 2-mill tax, but that the same authority cannot disburse it!

Senator Blackburn of Kentucky, whose Democracy will hardly be doubted by those even who have so long taken that holy name in vain, finds the president and his tools, the administration appointees in that state, fighting to defeat him (Blackburn) from re-election, even to the preference of a Republican in his stead.

Some of the newspapers are harshly criticizing the New Women, and some of the more Satanic of the editors have resorted to quotations of scripture—like the Devil of old—to bluff them from adopting Bloomer costumes or divided skirts.

The Bandon public school had an attendance of 152 the past term. Bandon is advancing rapidly in educational attractions, and they will speak far louder than the breakers' roar to new-comers.

WHAT ABOUT THAT CANNERY?

We have no hesitancy in saying a cannery, to run on fruits and vegetables in their seasons, and on salmon during that season, would be a profitable enterprise to the owners, and develop industries here that would be profitable to the producers in this valley.

As an evidence of the value of such institution to our orchardists and fruit-growers, we give the following from the Oracle, at Ferndale, Cal., relative to canning strawberries alone:

Swartzel & Williams in conjunction with the San Jose Canning Company have leased the Fortuna cannery for this season and will start it to running about June 10th, canning strawberries. The fruit will all be put up in patent vacuum glass jars of which the San Jose concern has the right for the United States.

Professor Culin, of the museum of archeology of the university of Pennsylvania, states that football originated with the Chinese. The game was popular in China and Japan as early as the seventh or eighth century.

And here all the time we've been thinking that our nineteenth century college students were the inventors of this useful calling. We know we're smart Yankees, but it looks like we're about twelve centuries behind in many things.

Small Smashup on the Railroad.

A small wreck occurred on the railroad Sunday at noon at the depot in this place. It looked worse than it resulted, but still was destructive of some property, though no person was injured.

Charlie Dodge came nearest of the trainmen to getting hurt. He luckily jumped on the street side, while the trucks turned to the other side, and he thus escaped injury.

We learn that the same train killed a horse down by Cedar Point, and came near being derailed.

ANOTHER ACCIDENT.

Last night, about 10:30, the logging train was coming up, and at the cut at Allen Collier's, just at the west edge of town, the tender struck a cow belonging to Mr. Collier, shoved her some distance and was derailed, as was also the rear truck of the engine, and the track damaged for the length of two rails. The cow, it appears, was lying on the track, and was a fine brute.

The train got off about 6 o'clock, while the section hands, under boss W. Strayhorn, finished repairing the track about 11 o'clock today. Four new rails were placed and probably eight or ten ties.

The W. R. C. Social.

The ladies of our W. R. C. entertained the ladies of the Bandon W. R. C., the veterans of our local G. A. R. post and invited guests at a social given at Masonic hall last Wednesday evening. It was just such an innovation of hospitality, entertainment and good will as our ladies are famous for and was most enjoyable.

There will be a basket dinner at our schoolhouse next Sunday after Sunday-school, and preaching in the afternoon by Elder Hollenbeck.

In the lawsuit which was in progress here last Friday, in which Wild Taylor was charged with assault and battery for attacking William Prevett, the jury brought in a verdict of not guilty. A Remarkable Cure of Rheumatism.

Westminster, Cal., March 21, 1894.—Some time ago, on awakening one morning, I found that I had rheumatism in my knee so badly that, as I remarked to my wife, it would be impossible for me to attend to business that day. Remembering that I had some of Chamberlain's Pain Balm in my store I sent for a bottle, and rubbed the afflicted parts thoroughly with it, according to directions, and within an hour I was completely relieved. One application had done the business. It is the best liniment on the market, and I sell it under a positive guarantee.—R. T. Harris. For sale by Dr. S. L. Leneve, druggist.

Mr. and Mrs. Joe Dean returned today, from their protracted visit on the South Fork.

The Strawberry Social.

Given at the Christian church last Saturday, in the interest of the Endeavor and Sunday-school, to secure a fund for the purchase of music books. The attendance at the social was large, and the disposition to patronize the goodies provided and so temptingly displayed on tables on both sides of the house, that but little of the program, except a few songs was enacted. The choir rendered a "Greeting Glee," a song, "We've Met Again," "The Tempest," and a recitation, "What I'd Like," by Mary Dixon; then followed a solo and chorus "Stand By Your Friend"—solo by Frank Strang, and chorus by the choir. Refreshments were then announced, and such a feast at a nominal price touched the weak spot of every one and induced a liberal patronage.

At near the close of the supper the choir sang "In the Morning," a solo, "Blame Yourself if You're Sold," and chorus by the choir, and then a "Good Night Song."

Mrs. Rachel Babb (nee Hoffman) was severely injured by a runaway team near Myrtle Point recently.

To tell what Hood's Sarsaparilla has done for me. I had the grip and its ill effects settled all over me. I had cramps in my legs and frequently I had to get up at night and walk to clear the muscles. I also had stomach troubles. I then took Hood's Sarsaparilla. One bottle cured the cramp, and another helped my stomach. I have taken 8 bottles and use Hood's Pills which are the best I ever took. H. A. MELVILLE, Sisters, Oregon.

THE MURDERER IS DEAD.

Ex-Senator Buck Killed Miss Nellie Harrington.

San Francisco, June 5.—The Evening Post states that the entire detective force of this city is convinced that ex-Senator Buck struck the blows which killed Nellie Harrington in her flat last Saturday. Buck died yesterday from injuries sustained by being thrown from a cart while being driven to the police station. The chief of the police detectives says: "I don't want to talk about this, because I hate to fight dead men."

The conclusions of the police are said to be based on the contents of 150 private letters found in Miss Harrington's room, which are said to indicate between the murdered woman and Buck even greater intimacy than appeared on the surface.

San Francisco, June 5.—Rev. Geo. Gibson, pastor of Emanuel church, announces that he is going to deliver lectures on the murders committed in the church. The title will be "The Crime of a Century," and his object is to raise funds to pay the church debt. Gibson is once more using the study in Emanuel church where Minnie Williams was murdered.

GENERAL NEWS.

LONG'S PENSION CASE.

Washington, June 5.—The pension case of Judge Chas. D. Long, of Michigan, which has been before the local courts for some time was finally decided today by the court of appeals, the commissioner of pensions coming out victorious, though the probabilities are that the case will now be taken to the supreme court of the United States.

About a year ago Commissioner of Pensions Lochren caused the pension of Judge Long to be reduced from \$75 to \$50 per month. The court of appeals today held that a pension is not a vested right, except in a very limited sense, and that the commissioner had a perfect right to review the acts of his predecessor.

CONTRACT LABOR IN CALIFORNIA.

San Francisco, June 5.—The immigration commissioners have found 400 Japs, many in the uniform of Japanese soldiers, at work on Livermore valley ranches, to the exclusion of white men. The commissioners believe they are all contract laborers, and they will probably be deported.

A PHYSICIAN'S COMPLAINT.

San Francisco, June 4.—Dr. Arthur Marten has brought a remarkable suit against Mrs. Emily Maletton of Oakland. The complaint states that defendant's husband is aged and feeble. The wife came to Dr. Marten, implored him to keep Maletton alive until he could make a will and to influence him to make the will in her favor, promising him liberal recompense. Marten says he did all this, influencing Maletton to make the will as desired and treating him so he still lives. He wants \$300 for curing Maletton and \$500 for his influence. Mrs. Maletton refused to pay because Maletton had not died and she was not benefited. Maletton refuses to pay for the attendance, as his wife made the bargain.

CATTLEMEN'S WAR.

Cheyenne, June 6.—Edwards, the Rock Springs sheep man, has gone to Salt Lake City. His friends say he has given up his plan of driving his sheep across Colorado, in opposition to the wishes of the cattlemen of Front county. When here, Sunday, Edwards said he would make the drive if he had to have 500 men to protect his outfit.
