

The Coquille City W. C. T. U. meets at the Methodist church, south, every Friday, at 8 o'clock p. m. All interested in the work are invited to attend.

Temperance Notes.

At a recent important public ceremony, of which the Duke and Duchess of Teck were the central figures, three ladies of the aristocracy drank her majesty's health in cold water.

On the cornerstone of the London Temperance Hospital, laid by Sir Wilfrid Lawson, is this inscription: "In humble dependence on Almighty God for cure in the treatment of disease."

The new church to be erected on the site of the old Crusade church at Hillsboro, Ohio, is to contain a Crusade memorial room, devoted to the meetings of the W. C. T. U. and souvenirs of the Crusade.

The Michigan house has passed the anti-treating bill. It prohibits the purchase of spirituous, malt, brewed, fermented or vinous liquors for another to drink and the sale thereof to a person to be given to another as a treat.

The American Medical Temperance Association at its annual meeting elected Dr. N. S. Davis, of Chicago, president, and Dr. J. H. Kellogg, of Battle Creek, corresponding secretary for the coming year. A committee was appointed to discuss the question of the relation between neurology and alcohol at the next annual meeting of the neurological section.

Mother Stewart's work in Great Britain nineteen years ago, which paved the way for the organization of the British Woman's Temperance Association, has received graceful and merited acknowledgment in an invitation from Lady Henry Somerset to attend the great white ribbon meetings in London next month, and with the invitation the offer to pay the expenses of the trip.

The report on temperance of the general assembly of the Presbyterian church contained a declaration that "unfermented fruit of the vine fulfills every condition in observing the sacrament." Also a recommendation that everything be done to keep drinkers out of government, state and municipal offices, and a resolution declaring that, "The time has now come to make our influence felt directly and with power, and voters are urged to vote against the granting of licenses."

The Rev. Dr. Charles H. Parkhurst of New York City, having stated in his articles in the Ladies' Home Journal that no number of "adventurous women" or "female congresses" could prevent women being women, and that the adventurous minded "wish they were men," Miss Willard has sent an "open letter" to the doctor, by way of her own editorial columns, the Union Signal, Chicago, in which she stoutly defends the position that just because women are women they ought to have the power in custom and in law to protect the citadel of their homes; she also maintains that progressive women or "adventurous," as the doctor calls them, have no occasion to wish they were men, since men have said from the beginning that the beauty, gentleness and purity of the world belongs to women and not to men. She also taxes the doctor with availing himself in his recent campaign against Tammany, of the active co-operation of women in politics.

Nervous Shock.

E. W. JOY COMPANY—Gentlemen: This is the first time I have attempted to write for three years. Have been to nervous and weak that I have laid in bed most of the time.

A friend who had taken your Sarsaparilla sent me two bottles. The second one is most gone, and I have gained twenty pounds, and surely feel a new woman I was pale, thin, no ambition. Had given up, as I had tried so many remedies and doctors, but found no benefit. If you care to publish this you have my consent. (Signed) Mrs. A. C. TILMAN, Alameda, Cal.

GENERAL NEWS.

IN SPECIAL SESSION.

Springfield, Ill., June 25.—The Illinois legislature assembled in special session today in response to the call of Governor Altgeld to consider the arbitration of Pullman rates, Chicago justice shop abuses, child labor, state finances and other topics. The message from Governor Altgeld was submitted, but contrary to somewhat general expectations, it was not caustic or of a sensational character.

YOU PAY YOUR MONEY AND TAKE YOUR CHOICE.

Atlanta, Ga., June 24.—The joining of one court by another court has tied up the trial of a sensational case. It was over the sale of an insurance business, in which the purchasers claimed that they did not know what they were buying. When Judge Westmoreland called the case the attorney for the defense asked for ten minutes for consultation. During the time thus gained he went before Judge Lumpkin, an officer of equal jurisdiction, and obtained an injunction preventing Westmoreland from going on with the trial.

NOTICE TO INVENTORS.

There was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of mankind in the factory and workshop, the household, on the farm, and in official life, require continual accessions to the apparatuses and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who being on the alert and ready to perceive the existing deficiencies, does not permit the affairs of the government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skillful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially in this advice applicable to those who adopt the "No patent, no pay" system. Inventors who entrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade-marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

While coming over the old trail from Empire, Sunday afternoon, Capt. Lightner and Chas. Bradbury saw a bear, close to the trail, about 14 miles from Empire. They had no firearms with them, and Bradbury was allowed to depart in peace.

Peter Galton, while employed in rafting logs with Wm. Burnit, at Saunier, Friday last, went into the woods, a short distance from the railroad track, to cut some pile poles. He was rather surprised on finding a deserted camp under a fallen tree, and, on investigating, discovered a rusty double-barrelled shotgun, which he recognized as one he formerly owned, and which had been borrowed from John McDuff by Johnny Manning. It is thought that this was one of Johnny's hiding places, after he escaped from jail at Empire, prior to his departure for California.

To Drain Big Klamath Marsh. The Klamath Falls Express says: Major Worden, the United States allotting agent, is engaged, under instructions from Washington, in making a preliminary examination and survey to secure estimates of the cost of enlarging the rifle in Williamson river south of the Big Klamath marsh, with a view of draining the same. The estimates when completed will be sent to the department at Washington. If the department should consider the project favorably, it is likely that the order to commence work will be received at an early date.

Another Free Offer.

The long winter evenings can be very profitably devoted to reading, but there are some things that we must read the year round. One of these is a local paper: the best in the county is before you—the HERALD. Another is a good home paper of general circulation, such as "Womankind," for instance, which comes once a month filled with the best things for a busy housewife. We are able by special arrangements with the publishers, to offer "Womankind" free for a year to every paid-in-advance subscriber to our paper, and are glad to do so, for we are convinced that no home paper in America contains more of practical value to women. Bright stories, clever poems, the latest fashions, news of woman's work everywhere, articles on "Motherhood," "Cultivation of Flowers," a woman's parliament for the discussion of matters of interest, are a few of the bright features of "Womankind."

To the head of the house we offer on the same terms "Farm News," an agricultural paper, edited by a practical farmer (Miller Purvis, esp., late state lecturer of the Ohio Farmer's Alliance), and filled each month with suggestions from able correspondents, that make it an absolute necessity to every wide awake farmer. This paper is yours for the asking, provided you are a subscriber to our paper.

Remember every paid-in-advance subscriber to the HERALD is entitled to his choice in either of these papers. Tell your neighbors about this offer. A sample copy of both papers may be obtained by addressing the Hosterman Publishing Co., Springfield, Ohio.

Come in and pay a year in advance to the HERALD and get one of these attractive papers free.

Only the Scars Remain.

"Among the many testimonials which I see in regard to certain medicines performing cures, cleaning the blood, etc.," writes HENRY HUBBARD, of the James Smith V. Ochs Machinery Co., Philadelphia, Pa., "none impress me more than my own case. Twenty years ago, at the age of 18 years, I had swellings come on my legs, which broke and became running sores. Our family physician could do me no good, and it was feared that the bones would be affected. At last, my good old mother urged me to try Ayer's Sarsaparilla. I took three bottles, the sores healed, and I have not been troubled since. Only the scars remain, and the memory of the past, to remind me of the good Ayer's Sarsaparilla did me. I now weigh two hundred and twenty pounds, and am in the best of health. I have been on the road for the past twelve years, have noticed Ayer's Sarsaparilla advertised in all parts of the United States, and always take pleasure in telling what good it has done for me."

G. A. R. NOTICE.

We take this opportunity of informing our subscribers that the new Commissioner of Pensions has been appointed. He is an old soldier, and we believe that soldiers and their heirs will receive justice at his hands. We do not anticipate that there will be any radical changes in the administration of pension affairs under the new regime.

We would advise, however, that U. S. soldiers, sailors, and their heirs, take steps to make application at once, if they have not already done so, in order to secure the benefit of the early filing of their claims in case there should be any future pension legislation. Such legislation is seldom retroactive. Therefore it is of great importance that applications be filed in the department at the earliest possible date.

If U. S. soldiers, sailors or their widows, children or parents, desire information in regard to pension matters, they should write to THE PRESS CLAIMS COMPANY, at Washington, D. C., and they will promptly send the necessary application, if they find them entitled under the numerous laws enacted for the benefit. Address THE PRESS CLAIMS COMPANY, P. O. Box 385, Washington, D. PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are
