Do It. THE GOLDBUG MICROBE is instantly killed by sending a 7-cent stamp to the American Bimetallic League, Washington, D. C., and asking for free literature. Do it.

The British steamer Washtenaw, floating the American flag, reached San Francisco on the 9th inst. after a long trip of 93 days from New York.

It is said by the great daily papers, through the Associated Press telegrams especially, that Mr. Cleveland is laying wires for a third term, and that the mission of Secretary of War Lamont, and Carlisle's private secretary, Van Sendon, to this coast is to forward the chances. We are willing.

The great currency question debate between the great G. O. P. war-horse, Roswell G. Horr, the hired and paid-for gold-bug writer for the New York Tribune, and W. H. Harvey, the author of "Coin's Financial School," opened at Chicago last Tuesday.

"When doctors differ," etc., of course the patient is allowed to die, but when lawyers differ we are between the devil and the deep sea as to justice and righteousness.

The advantages of the salary system for county officers, as compared with the former fee system in this state, are beginning to show up in such manner as to commend the change.

"We had an epidemic of dysentery in this vicinity last summer," says Samuel S. Pollock, of Bricefield, Cal. "I was taken with it and suffered severely until some one called my attention to Chamberlain's Colic, Cholera and Diarrhoea Remedy."

AND NOT DECIDED YET.

After 40 years of "fair and speedy" adjudication, Superior Judge O'Brien decided last Tuesday in favor of the city of Oakland, Cal., against the Water Front Co., otherwise the Southern Pacific R. R. Co., involving title to 11 miles of waterfront.

The decision, it is said, "does not pass directly on the title of third parties holding small portions bought in good faith from the Water Front Co." We should like to know what title can pass from a company that had no title, and for property which the law says from the first cannot be alienated from the public ownership and use?

A large number of the Home Comfort steel ranges were delivered to purchasers on the South Fork last week. Word from Mrs. George Schreder and Miss Ella is to the effect that both are doing well and will soon be fully recovered.

Our former townsman, W. H. Noeler, of El Cajon, Cal., has moved to San Diego. He speaks very hopefully of the Populist outlook at the next election in that section.

The school board of this district, No. 8, held a meeting last Saturday night, the chief object of which was to elect a teacher or teachers for our public school the approaching term.

The school board of this district, No. 8, held a meeting last Saturday night, the chief object of which was to elect a teacher or teachers for our public school the approaching term.

The Pioneer's reunion of Coos county will be held at Bandon this year, commencing September 5th and continuing two days. Heretofore it has been customary to depend upon the town where the meeting was held to provide for the entertaining of the members of the association, but it has been decided that such an arrangement was an injustice, hence it was arranged that the entertainment should be in the form of a picnic.

The Bandon Recorder, in mentioning the new ocean steamer to be built for the Coquille-San Francisco trade says: "The stock in the vessel will be divided into 64 shares, over one-half of which should be taken on the river to secure the proper control and insure success to the enterprise. The estimated cost of a vessel, such as is needed for this trade, is \$25,000, so that a share will cost the purchaser about \$400.

Makes the Blood Pure

This is the secret of the cures by Hood's Sarsaparilla. Read this:

"I am glad to write that I am now in perfect health and it is all because Hood's Sarsaparilla made my blood pure. My health broke down with troubles peculiar to women, my nervous system was shattered and I had to take my bed. The physician said there was little hope for me. A neighbor told of wonderful cures by Hood's Sarsaparilla and I decided to try it. When I had taken 3 bottles, I could sit up and now I am perfectly well and strong."

DON'T STOP TOBACCO

How to Cure Yourself While Using Tobacco.

The tobacco habit grows on a man until his nervous system is seriously affected, impairing health, comfort and happiness. To quit suddenly is too severe a shock to the system, as tobacco, to an inveterate user, becomes a stimulant that his system continually craves. Baco-Curo is a scientific cure for the tobacco habit, in all its forms, carefully compounded after the formula of an eminent Berlin physician who has used it in his private practice since 1872, without a failure, purely vegetable and guaranteed perfectly harmless.

Baco-Curo is not a substitute, but a scientific cure, that cures without the aid of will power and with no inconvenience. It leaves the system as pure and free from nicotine as the day before you took your first chew or smoke. Sold by all druggists, with our ironclad guaranty, at \$1 per box; three boxes (thirty days' treatment), \$2.50; or sent direct on receipt of price. Write for booklet and proofs. GOLD IS RAPIDLY LEAVING.

Promises of the Syndicate Do Not Keep the Gold in the Country.

New York, July 18.—Notwithstanding the many promises of the "bond syndicate" to prevent the exportation of American gold, \$750,000 was shipped to London on Saturday's steamers. The rate of exchange is so high that importers of coffee and sugar find it cheaper to buy gold. The exports of the present week will be fully \$1,000,000, with good prospects of a steady increase for the future. The "syndicate" say it is all right, and that it is the "ordinary course of business," and can't be helped.
