

Coquille City Herald.

PUBLISHED EVERY TUESDAY
J. S. M'EWEN & D. F. DEAN,
Editors and Proprietors.

Devoted to the material and social up building of the Coquille Valley particularly and of Coos County generally.
Subscription, per year, in advance, \$2.

L. P. FISHER, NEWSPAPER ADVERTISING AGENT,
21 Merchants' Exchange, San Francisco, is our authorized agent. This paper is kept on file in his office.

TUESDAY, AUGUST 13, 1895.

Do It.

THE GOLDBUG MICROBE is instantly killed by sending a 2-cent stamp to the American Bimetallic League, Washington, D. C., and asking for free literature. Do it.

The Roseburg fair—being the annual meeting of the Second Southern Oregon Agricultural Association for the district embracing Douglas, Coos and Curry counties—will begin on the 17th inst. This "agricultural" annual exhibition, paid for by the state and mainly devoted to horse-racing, will have several new additional "agricultural" features, such as "bicycle races, baseball games, lady equestrian contests and a baby show." Now if our farmer friends do not take an interest in the advancement of these industrial features, we will have to give them over to perverseness of heart and reprobacy of mind, and regard the efforts of the professional lights composing the board as futile and wasted.

Additional Locals.

Read the HERALD and send copies to your friends abroad.

The Star Comedy Co. has cast a play to be given before long.

Mrs. Rogers and Miss Nellie, of Coos river, mother and sister of Mrs. Sherwood, are visiting the latter.

G. F. Boutell has furnished Bank Buzan one of those fine Imperial bicycles, of which he holds the agency.

Johnson Bro's want 1000 dozen chickens and all the hides you can furnish. Highest market price in cash or trade. Bring them along.

FOR SALE—ONE THREE-QUARTER bred red Durham Bull, 3 years old. Also about 25 Mason Slates, Myrtle Point, Oregon.

Dr. Cook of Empire greeted many friends for a few minutes last Wednesday while the train was at the depot. He continued his trip to Myrtle Point.

The shingle-mill is humming. The boys turned out 33,000 first-class shingles Friday, and at the rate of about 25,000 each other day during the week.

Mrs. Capt. Robert Dunham and little daughter, Ray, arrived via the bay last Wednesday from her home in California on a visit to friends and for health.

The train struck and nearly killed a horse belonging to the company at Beaver Hill recently. It was so badly crippled that it was dispatched soon after to relieve it from its suffering.

Marshfield San: The Coquille HERALD celebrated its thirteenth anniversary last Tuesday. May it live to celebrate many more and continue sowing the seeds of truth and virtue in our sincere wish.

Isaac Miller, of the lower Willamette valley, came down from Camas Valley last Thursday to the place and to the beach. He is a relative of the Coon family and had been visiting them for some time.

Charley Strang is rustling the logging business at Morris Bro's camp. The mill is now pressed to its utmost, and is said to furnish lumber equal to the best in the market, with an increasing demand for it in the city.

NOTICE TO STOCKHOLDERS—The annual meeting of the stockholders of the Coos County Mercantile and Shipping Association will be held at Herald Hall (over the Herald office) in Coquille City, Oregon, on Friday, September 6, 1895, at 2 o'clock p. m.

J. H. JAMES, Sec.

The following are Bishop Morris' appointments: Coos bay, third Sunday in August; consecrates the new St. John's church at Bandon, fourth Sunday in August; Dairyville, on Tuesday, August 27th; Port Orford, Sunday, Sept. 1st; Gold Beach, Wednesday, Sept. 4th; Chetco, Sunday, Sept. 8th.

"It is the best patent medicine in the world" is what Mr. E. M. Hartman, of Marquam, Oregon, says of Chamberlain's Colic, Cholera and Diarrhoea Remedy. "What leads me to make this assertion is from the fact that dysentery in its worst form was prevalent around here last summer and it never took over two or three doses of that remedy to effect a complete cure." For sale by Dr. S. L. Leneve, druggist.

A Word to the Public.

Last fall Mr. J. L. Lewellen came to me to purchase a hat for Rev. Mr. McClain. I told him that the price of the hat was \$3, but as it was for a minister, he could take it at \$2. Mr. Lewellen paid me \$2—the amount he charged Mr. McClain—and the reduction I made of \$1, or donation, as it might be called, made the \$3—the price of the hat. There is simply a misunderstanding in regard to the above, and the story circulated to try to injure Mr. Lewellen is without foundation. SCHELLER HERMANN.

UPPER - RIVER DEPARTMENT.

Myrtle Point and the Upper-Coquille, and What is Going on There.

Dusty roads. Haying is about over. Hermann & Brown have first-class goods.

Oats 50 cents a bushel at Myrtle Point. Sweet wedding bells will soon chime at Eckley. Chas. E. G. Dietz is laid up with a sprained ankle.

Gilt-edged butter at 25 cents a roll at Myrtle Point. James Wall, sr., was in town last week, looking after his mill property here.

Huling & Lundy, hardware merchants, are supplied with first-class goods. Douglas county campers at Bandon beach are slowly wending their way home.

A. H. Black, one of our enterprising merchants, is gathering in produce for Beaver Hill. The steel-ranger man has gone away happy. Forty dollars profit on each sale was a bonanza.

Dr. Reader has finally concluded to move to Ashland, Oregon, and he has purchased property in that place. Rev. Geo. W. Quimby, who was formerly on this circuit for M. E. church, was a visitor in town last week.

There are many of the up-river pioneers now at Bandon ready to attend the Pioneers' association on the 15th inst. There has been at least two thousand tons of hay cut in the vicinity of this place this season—that is to say within six miles of town.

Miss Mary Harris, secretary of the Coos County Pioneers and Historical Society, went down to Bandon last Friday to assist in arranging for the meeting on the 15th inst.

D. Giles & Son got stranded on Rackliff's bar last Thursday with a barge 15,000 brick and the tide refused to assist them. Perhaps it was because they once belonged to the Pops.

Johnson Noel, an uncle of Prof. Arthur Knight, arrived from near Terre Haute, Indiana, with his wife, and they are now visiting relatives with a view of looking at the county and they expect to settle.

C. L. Gray, our efficient jeweler, is gradually moving his effects to Coquille City. Mr. Gray is a man of means, is energetic and enterprising, and the citizens of Myrtle Point are sorry to see him moving away.

When Mr. Gray first came to our town he proposed to establish a broom-handle manufactory and eventually add a sash and door factory, but land-owners asked such high prices for a location that he became disgusted and now he will be a serious loss to the town. We congratulate Coquille City on the acquisition of such good citizens as Mr. Gray and his estimable lady.

Judge Schroeder, D. A. Huling, Pearey Hanley and Orvil Dodge, officials of the Myrtle Point Mining company, visited their mines, returning last Wednesday. Joseph Clemens, of the steamer Antelope, took an outing with the parties for the benefit of his health, and we are glad to say he improved while looking over the hills of Coos and Curry, looking for "filthy lucre."

The company held a business meeting on their mining claim and arranged to prosecute further developments. Their last work was satisfactory and they feel encouraged. They have a well-defined ledge on the Middle Sixes that bids fair to become one of the best in that section.

J. J. Hoffman, an old veteran of the Mexican war, who is mining on Sixes river near Dr. Elgin's place, was down last week to consult Hon. B. Hermann in regard to a pension, as Commissioner Lochran had rejected his claim on technical grounds. The old gent believes that he has a splendid claim, and yet he is too far advanced in years to work it. He placed it in Orvil Dodge's hands to sell at a very small figure. Mr. Hoffman has three acres cleared and set to fruit, besides he has a fine garden and some hay. He also has a comfortable house, a high and low bar with water for hydraulic purposes, all of which he offers for \$300. A good bargain for a mining man.

It is reported on good authority that George Wells is hunting and has been during the last month in the vicinity of Salmon mountain. His presence annoys the miners, from the fact that he is careless about fires and is slaying deer for their hides and horns. If any of the miners should be burnt out by this worthless scoundrel he may expect a visit from a committee of safety. There is too much of this violating the game law in Coos county, and an example should be made with some of them. News has reached Myrtle Point many times of hunters slaughtering wild game on the Middle Fork, who sell their ill-gotten pelts and antlers in Roseburg. Those Portland game commissioners could find a bonanza if they would come down to Coos and attend to their duties.

Headick's Dramatic Co. Gave an entertainment in this place last night which gave much satisfaction. The audience was fairly good and the play, "Destiny," deeply interesting and well given. Frank Readick, as John Diamond, (Jack O'Diamonds), and Miss Milly Freeman, as Annie Dennison, the wife, were first-class and made friends, and several others of the company, notably Leon Henry, as Pedro Sanchez, a vengeful Mexican, Willard Graham, the false friend, and Cordelia Dennison, as Miss Wiene, an old maid, sustained their parts well. Tonight will be given, "Jerry, the Outcast," an intensely emotional and sensational play, will be given. Admission, 50 cents—no extra charge for reserved seats; children, 25 cents.

UPPER - RIVER DEPARTMENT.

Myrtle Point and the Upper-Coquille, and What is Going on There.

Mrs. C. E. Schroeder is visiting her parents near Sheds, in the Willamette valley.

W. H. Brown and family have returned from Bandon beach, where they have enjoyed a pleasant outing.

Schiller B. Hermann is making preparations to build a fine residence on Willow street. The lumber was shipped up from Coquille City last week.

Gen. Compton's letter, in the Sunday Oregonian of the 4th inst., was very complimentary to the Coquille country. Such candid and truthful letters have their influence for good.

Will Dietz, the former efficient foreman of the West Oregonian, wants work in a printing office. High wages are not expected these hard times. Address him at Myrtle Point.

Geo. Guerin and lady of Eckley visited Myrtle Point Saturday. Instead of coming down with a pack train as of yore, they drove down in a new wagon and combined business with pleasure.

Col. Jewell Post, No. 53, G. A. R., at Myrtle Point, was visited by some of the boys from the Soldiers' Home and the post at Roseburg last Saturday night. The meeting was very interesting.

Hon. B. Hermann, Ed Bender and T. M. Hermann started down the coast to Port Orford and Gold Beach last Friday morning. They will take in the Pioneers' meeting on their return. Congressman Hermann will deliver the oration.

Henry Ploeger of Marshfield came up on Friday's train and has taken charge of Hermann & Brown's counting-room while Ed Bender, their book-keeper, takes an outing down the coast in company with his brother-in-law, Hon. B. Hermann.

Sam Huff, who farms M. R. Lee's place on South Fork of Coquille, brought to Dodge & Lee's office this week a bundle of oats, well filled, that measured seven feet in length, and the length of the heads corresponded with that of the straw. Who can beat it?

The future success of the Pioneer and Historical association depends largely upon the interest manifested on the 15th at Bandon. Who will add their mite to the early history to the records at that time? and thus gather data and statistics that will enable the Historian to compile a narrative of early days that will be interesting and instructive.

A "Keeley Kure Klub" is about to be organized in this place. Their object will be to institute a library, and promote temperance principles in a quiet way. It is to be composed of bachelors who will be pledged to marry none but members of the W. C. T. U. Judge Riley will no doubt be president, Joe Noyes' secretary, and James Burke treasurer.

Campmeeting will be held near Oak postoffice, on the Roseburg and Myrtle Point stage road, beginning Aug. 28, and will continue over Sunday. Bishop W. Dillon of Salem and other ministers will be there. Everybody come—come with your wagons and tents and provisions to stay through the meeting. W. Stewart, P. E. of U. B. church.

Orvil Dodge was recommended by the state officials and has been appointed statistical correspondent to the U. S. department of agriculture for Coos county, Oregon, and he wishes to gain all the information possible in regard to the condition of crops, the kinds and yields, and all information possible as to the products of our fertile valley. Correspondence solicited.

Dr. In Myrtle Point, after only three days' illness, Aug. 11, 1895, Samuel Cresswell Braden, aged 84 years. The remains were embalmed and placed in a sealed casket, and the friends of deceased will start to Looking Glass today, Aug. 13, where they will lay his body beside that of his deceased wife. Father Braden was an old settler in Coos county, and lived a life that commanded respect.

A telegraph plant has been established between the telephone office and the Wells, Fargo & Co. express office in Myrtle Point. Allen Dodge, Chet Huling and Will Lundy are the bloated bondholders who will operate the keys, and messages will be sent all over the world—at extortionate rates. Any one wishing to make a deal with the Rothschilds, Vanderbilts or Rockefellers can now have the use of electricity to accomplish their object.

One is surprised to see so much mining going on when visiting the Johnson, Sixes and Salmon mountain mines. The delvers after the "filthy lucre" are all doing well. We believe that there are at least one hundred and eighty men engaged in mining within 30 miles of Myrtle Point, and all doing well. There is a fine opportunity to prospect yet, and no doubt there is room for a thousand miners to make a good living and some would make good strikes.

Tired Women

Must have strength or they will be in the suffering despair of nervous prostration. The true way to win vigorous health is to take Hood's Sarsaparilla which will build up strength by making pure, rich blood; thus it will also feed the nerves upon their proper nourishment, create an appetite, tone the stomach invigorate every organ.

Hood's Sarsaparilla is what tired women need—the one True Blood Purifier prominent in the public eye.

The government geodetic surveyors arrived in Myrtle Point Monday and are running a base line preparatory to making a map of the coast. We are informed by them that a mineralogist will soon follow them and survey the mineral belt about Salmon mountain and Sixes river.

J. B. Fox is pushing his bridge work energetically.

More wedding bells promise to ring out in the near future.

Brette Clark came in from the Ten-mile country this morning.

Fred and Ralph Schroeder, Pinecotton and Jim Laird, Jake Harshbarger and Johnny Stone left yesterday for an outing on the beach.

Uncle Dan Giles was down yesterday. He is much troubled in getting his brick to the government work at Bandon, bars forming in the river above and stranding his scows.

J. J. Birch, of Sumner, who has been canvassing for an improved mop, will be ready to deliver the same about the 20th inst. It is a great thing and should be in every household.

Patrons not belonging to the Coquille Dairymen's Union will receive 10 cents per pound butterfat in milk delivered at Coquille Creamery from June 8th until further notice.

COQUILLE DAIRYMEN'S UNION.
Per C. Romander, Manager.

(Bandon Recorder.)

The Parkersburg mill started up again last Monday, after a week's shut down for repairs.

The raxes have drawn largely on our sister towns so that each is well represented here this week.

The work of dumping rock at the jetty continues at the rate of about 160 to 175 tons a day.

The schooners Amethyst, Prien, Parkersburg and Coquille are delayed in the river on account of shoal bar.

The broom-handle mill started up this week.

Mrs. J. I. Conger closed a successful term of school at Prosper this week.

(Roseburg Review.)

W. S. Denning, who was called to Looking Glass by the sickness and death of his mother, made The Review a pleasant call a few days ago. He has a good position on the government works in Coos county, having been employed at the Coos bay jetty and Bandon light-house for the past five years.

(Marshfield Sun.)

The Libby coal miners worked 13 days last month.

Capt. S. C. Rogers had his foot badly bruised the first of the week, by a horse stepping on it.

The many friends of Justice Ed T. Jennings will be sorry to learn that he is growing worse, only coming to town when urgent necessity compels him to do so.

The money having arrived for the building of the new school-house, the directors will soon be ready to advertise for bids.

The work of boring for coal with the diamond drill at Newport is still going on, and the bore-hole is now down over 600 feet.

There was quite a scare in town on Monday evening over the missing of Job Dauham, our marshal's little boy; however, after an exciting search he turned up all right.

J. D. Sanderland is suffering with a slight paralytic stroke, affecting his left side, with which his right side was formerly affected, leaving his right eye very much weakened.

W. H. Noble was in town Saturday and informed us that he is putting in on an average of 85 logs per day, at his camp on the Isthmus, with a crew of 60 men. He has just completed a new road and expects to average from 90 to 100 logs per day with a smaller crew.

The residence of Dr. Paul S. Coke, of Willows, Cal., was entirely consumed by fire recently. The loss is estimated at \$5000. Dr. Coke is well known in this county and is a son of Hon. J. S. Coke, collector of customs for this port.

DON'T STOP TOBACCO

How to Cure Yourself While Using Tobacco.

The tobacco habit grows on a man until his nervous system is seriously affected, impairing health, comfort and happiness. To quit suddenly is too severe a shock to the system, as tobacco, to an inveterate user, becomes a stimulant that his system continually craves. Baco-Curo is a scientific cure for the tobacco habit, in all its forms, carefully compounded after the formula of an eminent Berlin physician who has used it in his private practice since 1872, without a failure, purely vegetable and guaranteed perfectly harmless. You can use all the tobacco you want, while taking Baco-Curo; it will notify you when to stop. We give a written guaranty to permanently cure any case with three boxes, or refund the money with 10 per cent interest. Baco-Curo is not a substitute, but a scientific cure, that cures without the aid of will power and with no inconvenience. It leaves the system as pure and free from nicotine as before you took your first chew or smoke. Sold by all druggists, with our ironclad guaranty, at \$1 per box; three boxes (thirty days' treatment), \$2.50; and sent direct on receipt of price. Write for booklet and proofs. Eureka Chemical & Mfg Co., Mfg Chemists, La Crosse, Wisconsin.

Hood's Sarsaparilla

is what tired women need—the one True Blood Purifier prominent in the public eye.
