### STOCKWELL'S BAD BOY.

Under the Present Policy We Will Soon  
All Be Slaves.

Pa, when are we going to the  
world's fair?

My dear son, we cannot go at all.  
[Boy cries, boo hoo.]

There, there, don't cry; it can't  
be helped.

You promised me faithfully to  
take me to Chicago in June.

Yes, I know it; but—  
Then why can't we go, pa?

My boy, I have dreaded this in-  
terview for some time, but now I  
must confess all; it is terrible,  
but—

Oh, pa, what is terrible?

Well, we are about ruined finan-  
cially.

How did it happen, pa?

When we bought this farm in  
1881 we went in debt \$1000. We  
raised good crops of wheat, which  
we sold for good prices for several  
years; the money we used in build-  
ing our new house, paying interest  
and making other improvements and—

Pa, isn't the farm worth a great  
deal more now than it was then?

No; it is worth a great deal less.

Take your pencil and figure:

Year.	Price of wheat.	Price of wheat.
1881	..... \$1.35	1888 ..... \$0.95
1882	..... 1.25	1889 ..... 90
1883	..... 1.10	1890 ..... 90
1884	..... 1.05	1891 ..... 80
1885	..... 1.00	1892 ..... 72
1886	..... 98	1893 ..... 60
1887	..... 96	

Now, my son, 60 cents, the price  
now, subtracted from \$1.35—the  
price in 1881—leaves 75 cents, which  
is a shrinkage in price of 55 per  
cent. Now, if we could raise nothing  
on the farm but wheat the value  
of the farm would be 55 per cent  
less than when we bought it in 1881.

What did the farm cost, pa?

It cost \$7000.

What would that make it worth  
now?

Apparently it is worth \$3150, but—  
But, pa, you raise horses.

Yes, I am glad you spoke of them.  
A few years ago cattle got so low  
that we went to breeding horses.  
Three years ago we owned 32 head,  
all told. We sold, from time to  
time, to get money to pay expenses,  
till now we have only 16 head. A  
comparison of prices show that a  
horse that would bring \$140 five  
years ago will bring only \$80 now.

[Boy figures.] Horses have fallen  
in price 42 1/2 per cent, pa.

If the only product of the farm  
was horses it would be worth 42 1/2  
per cent less than in 1881, or \$4025.

But we have sheep, too, pa.

Yes, that is so; and it was the  
wool money I had intended to use  
in attending the world's fair.

Three years ago we received 25  
cents a pound for it, two years ago  
we sold for 23 cents, last year we  
got 22 cents, now it is down to 15  
cents, or 40 per cent less than three  
years ago. If wool was our only  
product, our farm would be worth  
40 per cent less than three years  
ago, or \$4200.

Why don't we raise hogs, pa?

Our farm is not adapted to the  
production of corn, so we are obliged  
to depend upon wheat and wool  
since horses and cattle are so low.

[Boy figures a little.] The average  
reduction in the price of our  
products, horses, wheat and wool,  
is 45 1/2.

Yes, my son, and as an investment  
of any kind is valuable according to  
the income it will bring, if the farm  
was worth \$7000 when you bought  
it, it is worth 45 1/2 per cent less  
today, or only \$3894.

Pa, you said when speaking of  
wheat that the farm is apparently  
worth so much.

Yes; now I will explain by taking

wheat. The farm was easily worth  
\$7000 when wheat was \$1.35 a  
bushel, because there was profit  
enough in it to pay a good per cent  
on the investment, but every farmer  
you see will tell you that it costs  
more than 60 cents to raise wheat,  
hence we are raising it at a loss.

I don't quite understand, pa.

Use your pencil and we shall see  
what it costs to raise a bushel of  
wheat. Here are the figures for 20  
acres raised last year:

Interest on 20 acres at \$50 an acre.....\$20 00  
Taxes at 1 per cent..... 10 00  
Breaking at \$2 an acre..... 40 00  
Harrowing, dragging and rolling at  
\$1 an acre..... 20 00  
Seed, at 80 cents, 5 pecks per acre..... 6 00  
Cutting; and twice at \$1..... 20 00  
Shocking, two hands two days at \$1.50 6 00  
Six teams handling to machine at \$2  
per day..... 12 00  
Three pickers in field, two hand cut-  
ters, two sack holders, two wheat  
haulers and three straw-stacks,  
twelve men in all..... 18 00  
Threshing 300 bushels at 5 cts a bush. 15 00  
Board of hands and horses..... 5 00

Total.....\$232 00  
Now divide \$252 by 300, the num-  
ber of bushels.

[Boy figures.] Eighty-four cents  
a bushel, pa, is what it cost you.  
As it is worth only 60 cents, you  
lose 24 cents a bushel.

Now, my son, you see that the  
agency that reduced the value of  
wheat from \$1.35 to 60 cents a  
bushel has destroyed the value of  
our farm.

We can live on it, can't we, pa?

Yes, if the mortgage-holder don't  
foreclose and sell us out at sheriff's  
sale.

If it is put up for sale won't it  
bring more than \$1000, pa?

No, I am afraid not.

Why, pa, I thought our figures a  
while ago made it out to be worth  
about \$4000?

Only apparently so; as an invest-  
ment it is absolutely worthless. No  
safe business man will buy property  
that sinks money.

But it is a home, pa.

Yes, but we work harder for our  
living than merchants in town. They  
work 10 hours a day, we work 12.  
When their work is over, they get  
lay aside care; I am worried all the  
time about the mortgage. What  
they spend for luxuries we pay out  
for interest and taxes.

I see how it is, pa; I am sorry for  
you and mother.

To sum up, my son, when we  
bought the farm 740 bushels of  
wheat, or seven horses, or 4000  
pounds of wool would have paid the  
\$1000 mortgage. Now to pay it and  
the \$80 interest will take 1800  
bushels of wheat, 12 horses, or 7200  
pounds of wool.

We can never pay it, can we, pa?

Not only that, we have paid \$880  
interest and \$1100 taxes in the last  
11 years.

Pa, it breaks my heart almost to  
think that I can't go to the great  
fair, when it is so close to us; it is  
the opportunity of a lifetime, and I  
have been planning to go for two  
years, but I shall give it up and try  
to help you all I can.

God bless you, my noble boy; but  
it is not much use to try. The  
money sharks, as Thad Stevens called  
them, will never stop until they own  
all our farms. If prices of our prod-  
ucts fall half as much in the next  
five years as they have in the last  
five we will all lose our homes.

Let's leave the farm, pa, and move  
to town. Mr. Jones don't work as  
hard and lives better than we do.

They have a good piano and wear  
fine clothes and save a little money.

Ah, my son, he is liable to be  
thrown out of employment any time.  
Our ruinous financial policy is forc-  
ing the mills to shut down, and  
thousands are being thrown out of  
work. Rents and living are so high  
in town that wage earners soon come  
to want when they lose their jobs.

What shall we do, pa? To stay  
here is but to earn money for the  
mortgage holder.

I know it; the best years of my  
life are gone now. I have thought  
seriously of suicide, but—

Don't—don't cry, pa.

There is a reason for all these  
troubles that have overtaken the  
little who work, and when you work  
a little less and think a little more  
you'll see that the infamous legisla-  
tion on the money question is at the  
bottom of it all. While 60,000,000  
people have been toiling and struggl-  
ing to make a living and a home,  
a few thousands who wear diamonds  
and satins have robbed them of

nearly all, and are now about to  
consummate the last act in the  
drama that will make us all tenants.

Pa, for Gok's sake, before you vote  
again, read "The Downfall of the  
Roman Empire" and "The Destruction  
of Greek Civilization." You  
will then see that we are following  
the same road that led to their  
destruction.

Reader, did you ever take SIMMONS  
LIVER REGULATOR, the "KING OF  
LIVER MEDICINES"? Everybody needs  
such a liver remedy. It is a sluggish or  
diseased liver that impairs digestion  
and causes constipation, when the waste  
that should be carried off remains in  
the body and poisons the whole system.  
That dull, heavy feeling is due to a  
torpid liver. Biliousness, Headache,  
Malaria and Indigestion are all liver  
diseases. Keep the liver active by an  
occasional dose of Simmons Liver Reg-  
ulator and you'll get rid of these trou-  
bles, and give tone to the whole sys-  
tem. For a laxative Simmons Liver  
Regulator is BETTER THAN PILLS. It  
does not grip, nor weaken, but really  
refreshes and strengthens.  
Every package has the Red Z  
stamp on the wrapper. J. H.

## PATENTS

### NOTICE TO INVENTORS.

There was never a time in the his-  
tory of our country when the de-  
mand for inventions and improve-  
ments in the arts and sciences gen-  
erally was so great as now. The  
conveniences of mankind in the fac-  
tory and workshop, the household,  
on the farm, and in official life,  
require continual accessions to the  
apparatus and implements of each  
in order to save labor, time and  
expense. The political change in  
the administration of government  
does not affect the progress of the  
American inventor, who being on  
the alert and ready to perceive the  
existing deficiencies, does not permit  
the affairs of the government to deter  
him from quickly conceiving the  
remedy to overcome existing discrep-  
ancies. Too great care cannot be  
exercised in choosing a competent  
and skillful attorney to prepare and  
prosecute an application for patent.  
Valuable interests have been lost and  
destroyed in innumerable instances  
by the employment of incompetent  
counsel, and especially is this advice  
applicable to those who adopt the  
"No patent, no pay" system. Inven-  
tors who entrust their business to  
this class of attorneys do so at im-  
mense risk, as the breadth and  
strength of the patent is never con-  
sidered in view of a quick endeavor  
to get an allowance and obtain the  
fee then due. THE PRESS  
CLAIMS COMPANY, John Wed-  
derburn, General Manager, 618 F  
street, N. W., Washington, D. C.,  
representing a large number of im-  
portant daily and weekly papers, as  
well as general periodicals of the  
country, was instituted to protect its  
patrons from the unsafe methods  
heretofore employed in this line of  
business. The said company is pre-  
pared to take charge of all patent  
business entrusted to it for reason-  
able fees, and prepares and prose-  
cutes applications generally, includ-  
ing mechanical inventions, design  
patents, trade-marks, labels, copy-  
rights, interferences, infringements,  
validity reports, and gives special  
attention to rejected cases. It is  
also prepared to enter into competi-  
tion with any firm in securing for-  
eign patents.
