AN INTERESTING SKETCH

General Samuel Bell Maxey of
Paris, Texas, ex-U. S. senator from
that state and one of her grandest
characters, died recently, and our
old friend, Judge W. T. Roberts,
editor of the Gainesville Hesperian,
gives this interesting sketch in con-
nection with Gen. Maxey's biog-
raphy. In speaking of Gen. Maxey's
classmates at West Point—for he
was a graduate of that military
school—it says:

"The death of General Maxey
brings up memories of his early
days. He graduated at West Point
in 1846 with a remarkable crowd of
boys. There were fifty-nine in the
class and General Maxey stood fifty-
eighth.

"But that is no mark of inferi-
ority, for the one man in all that
class who stood below him was
George E. Pickett, who led the
famous charge at Gettysburg.

"The man who stood at the head
of the class never made any fame.
He was Charles S. Stewart of Penn-
sylvania.

"The second man, however, was
George B. McClellan.

"No. 17 was the immortal Stone-
wall Jackson.

"No. 33 was the famous union
cavalry general, George Stoneman,
recently governor of California.

"No. 54 was the famous fighting
confederate general, Wilcox.

"Among those who were at West
Point at the same time, but not in
General Maxey's class, were Generals
Rosecranz, Doubleday, D. H.
Hill, McLaws, Van Dorn, Longstreet,
U. S. Grant, Hancock, Kirby Smith,
Fitz John Porter, Burnside, A. P.
Hill, W. L. Cabell, and others more
or less noted."

Read our W. C. T. U. column, on
4th page. There you will find, if you
are sincere in desiring reform, those
whom that grand, noble, intelligent
woman, Miss Willard, has chosen as
her political associates. She ex-
pects nothing—or but little, at least—
from the grasping, greedy, profligate,
wine-bibbing princes, potentates
and poodles, and consents to what
legislation has already been enacted
in the interest of the wage people,
and through their organized and
intelligent efforts, as not only being
just and right, but in the interest of
temperance and purity. She says:
"We must lengthen our cords and
strengthen our stakes until they
reach so far over into the camp of
our bread-earning brethren that
ours shall be forevermore two
'camps allied' in thought and pur-
pose to bring in the better day."

Thanks to Comrade S. B. Ormsby,
past department commander of
Oregon G. A. R., for a copy of the
"Proceedings of the 14th Annual
Encampment of the Department of
Oregon, Grand Army of the Repub-
lic, held at Oregon City, Oregon,
June 17 to 19, 1895." Besides the
several official reports of grand
officers, the volume contains a roster
of the department and much infor-
mation of interest to the veterans
and the general public. We thank
Comrade Ormsby for his kindness.

more successful mining. L. K.
Armstrong of Spokane is temporary
secretary.

THE NATIONAL BANK FRAUD.

It would be very untruthful for a
Populist to talk this way, and show
a lack of sense or spirit of anarchy
to give expression to it, but several
Republicans have had the audacity
to make the statement that our
national banking system is a fake,
including a speech by Hon. S. S. Mar-
shall, a Republican congressman
from Illinois, illustrating how the
thing was done, and pointing out
how we should avoid such chicanery
in the future, in which he said:

"An association of gentlemen in
an eastern state raised \$300,000 in
currency. They went to the office
of the treasury and exchanged their
currency for \$300,000 in 6 per cent
gold-bearing bonds. They then
went to the office of the comptroller
of the currency in the same build-
ing, organized a national bank, de-
posited their \$300,000 in bonds and
received for their bank \$370,000 in
national currency. They had let the
government have \$30,000 in cur-
rency more than they received for
banking purposes, and had on de-
posit \$300,000 on which they re-
ceived, as interest from the govern-
ment, \$18,000 in gold (and exempt
from taxation). This was pretty
good financing for these bankers
to receive \$18,000 in gold on the \$30,
000 a year in currency which they
had thus loaned to the government.
But this is not the whole story.
They had their bank made a public
depository.

"They soon discovered that there
was scarcely ever less than \$1,000,
000 of government money deposited
within their vaults. They did not
like to see this vast sum lie idle.
They, therefore, took \$1,000,000 of
this government money and bought
\$1,000,000 of five-twenty bonds
with it. In other words they loaned
\$1,000,000 of the government's own
money to the government, and de-
posited the bonds received with it
in the vaults of their bank, on which
they received from the same govern-
ment \$60,000 a year in gold as in-
terest. Thus for the \$300,000 in
currency which they originally
loaned to the government, they re-
ceived annually in all, \$78,000."

Nervous Prostration.
E. W. JOY COMPANY—Gentlemen:
I have suffered from a nervous pro-
stration from financial losses. Can
say Joy's Vegetable Sarsaparilla has
cured me. My liver, stomach and
bowels have been very inactive, but
since taking your remedy I am
entirely well. All business men
and women should use it. Please
publish. (Signed.)

[Bandon Recorder.]
The construction of the light-
house is fast nearing completion.
The men are now at work on the
tower, which begins to loom up.

William Healy, of the Bandon-
ville, was married while in San
Francisco, and Mrs. Healy accom-
panied him to Portland this trip.

The life-saving crew are still
busily engaged in taking things off
of the wrecked vessel Bawnmore,
which is still burning, the fire be-
ing in the coal.

The dairymen's ball, which takes
place at Dairyville on the 27th of
this month, promises to be a grand
affair.

Elijah Smith, of Empire City,
was here on Monday, having come
over to look after his fishing inter-
ests on the Coquille.

The contractors dumped over
289 tons of rock at the government
jetty here, one day last week, which
is the largest day's work done, so
far, this season.

A few saloons can now be seen
jumping in the river, and it will
not be long before the regular run
of salmon will commence. A great
many of the boys are making pre-
parations for fishing and will begin
in about two weeks, we understand.

The steamer Bandonville, while
on her way down the river from
Coquille City Wednesday, had the
misfortune of running onto a snag
and broke a blade off her prop-
eller, which laid her up for sev-
eral days.

David Roberts, of Ten-mile, fell
on a crosscut saw last week, his
teeth inflicting several very severe
wounds on his left arm, which will
cause him to carry the injured limb
in a sling for sometime.

Yesterday afternoon a house be-
longing to E. B. Dean & Co., at
Bay City mill, and occupied by the
family of S. Erickson, was burned
to the ground. The greater portion
of the household effects, except
those contained in the upper story,
were saved. The fire originated in
the second story, but how it started
is unknown.

Major Tower's "Army Experience"
—from 1861 to Escape from Libby
Prison in 1864," as given by the
major at the late G. A. R. encamp-
ment held at Marshfield. It is
very interesting, and gives a vivid
picture of the hardships, privations
and sufferings endured during the
war by most of the soldiers, of
which the major speaks from per-
sonal experience of an over-pro-
portion. Major Tower belonged to
the 13th Massachusetts infantry,
after serving a short first-term un-
der the three-month's call, which
was sworn in July 16, 1861, for
three years. He was captured at
the battle of Gettysburg in the
early part of July, 1863, and lingered
in Libby prison till his
escape in 1864.

Specimens of Coos county co-
coons were sent by Prof. Kanematz
to the Salem Statesman, as also a
sample from other sections for
comparison, and the editor tumbles
at once to Coos county's superior
adaptability for silk culture—and
the fact is established at the same
time that the coast counties and
country west of the Cascade moun-
tains, from the sound to Santa
Cruz, California (hardly below that)

could profitably cultivate silk.
That will ere long become an in-
dustry of our section, and if the
government could be induced to
cast a weather-eye in this direction,
and thus save a waste of effort in
testing localities that afford no nat-
ural inducements, and strengthen
and promote our volunteer station,
it could do so to good advantage,
to the department's credit for intel-
ligence and to the treasury's great
relief. Prof. Kanematz is in cor-
respondence with persons in many
localities desiring to try the indus-
try, and volunteers are numerous
to see if they can learn the busi-
ness. Mrs. T. B. Killen, of Hub-
bard, Marion county (see to it,
brethren of the Statesman), ap-
pears to be successful and interest-
ed, and has two applications for
eggs and instructions. Prof. Kan-
ematz has had published, at his
own expense, and illustrated and
distributed, a hand-book for begin-
ners and experts in all stages of the
process, and he should at least be
relieved of expense. Will not the
press, which is the great helper in
every useful effort, discuss the mat-
ter and suggest a diversion of a
small portion of the government's
paternalism into this already-ad-
mitted channel of natural and ex-
perimental success? Prof. Kan-
ematz, the gentleman in charge here,
has everything in fine working
order, and while a Japanese by
nativity, is an American citizen by
adoption, intelligent, well educated,
refined, enterprising, and an expert
from childhood in the culture and
handling of silk, and this sugges-
tion for a share of the government
energies is but justice to him and
the public, and will undoubtedly
lead to successful silk production
and manufacture.

MAIRFIELD CELEBRATES
At G. A. R. Encampment and La-
bor Day Festivities.

ED. HERALD: The enthusiasm
and excitement, pleasurable and
otherwise, consequent to the G. A.
R. encampment and the exercises
on Labor Day, have calmed down,
and the local, mundane atmosphere
and vocal ebullition has assumed
its normal condition.

The calm, dispassionate observer
had an opportunity, invaluable in
itself, to watch the gyrations of
many who posed as leaders on this
occasion.

With all due respect for the vet-
erans and their encampment, and
the generous manner in which the
citizens of Marshfield received them,
it is to be deprecated that most of
those called leaders ignored Labor
Day entirely. When a politician
mounts the rostrum for the purpose
of procuring votes, it should be at
an election period, and not at a time
when sad memories are recalled,
even when they are supplemented
with the notes of victory. But, no
place is held sacred from the ill-
maners and egotism of the average
politician; consequently the
veterans had, in pursuance of decum-
pense, to accept a lot of taffy about
pensions and knowing how to vote—
that is, to vote the Republican ticket.
The detestable and continued effort
of the hirelings of the Republican
party to swing the veterans into line
with its policy must meet a check.
If they were the only champions of
pensions for veterans, why did they
not pass a service pension during
Harrison's administration? No,
they passed a bill that has led the
veterans into a pit of envy and
strife; incited the jealousy of some
at the success of others, when all
are equally entitled. A remnant of
benefit is held back to bait the Re-
publican party hook and enable the
sophist to say: "You know how to
vote." Some of us veterans are not
so constituted as to be led by the
nose any longer, or to be persuaded
that the path to heaven or the goal
of equity can be attained by associ-
ation with such an infernal reser-
voir of corruption and a trust pro-
moter as the Republican party. Let
the sordid politician vary his per-
sonal squeak; we are tired of being
reckoned as nothing more than
ignorant receivers.

The lack of attendance on Labor

tended (I use the term advisedly)
to take such an interest in the poor,
worn-out veteran, behaved when it
became necessary to recognize him

come a by-word in this county that
the individual who has accumulated
largely of this world's goods never
invests in manufactures, nor pushes
the lever one foot in the interest of
progress, but sits waiting for the
outside capitalist to come in and
help him with a dollar. Invariably
he has a lot of unproductive land,
which he has denuded of timber
and surveyed into lots; and so he

DON'T STOP TOBACCO
How to Cure Yourself While Using
Tobacco.

The tobacco habit grows on a man
until his nervous system is seriously
affected, impairing health, comfort
and happiness. To quit suddenly is
too severe a shock to the system, as
tobacco, to an inveterate user, be-
comes a stimulant that his system
continually craves. Baco-Curo is a
scientific cure for the tobacco habit,
in all its forms, carefully compounded
after the formula of an eminent Ber-
lin physician who has used it in his
private practice since 1872, without
a failure, purely vegetable and guar-
anteed perfectly harmless. You can
use all the tobacco you want, while
taking Baco-Curo; it will notify you
when to stop. We give a written
guaranty to permanently cure any
case with three boxes, or refund the
money with 10 per cent interest. Baco-
Curo is not a substitute, but a
scientific cure, that cures without the
aid of will power and with no incon-
venience. It leaves the system as
pure and free from nicotine as the
day before you took your first chew
or smoke. Sold by all druggists,
with our ironclad guaranty, at \$1
per box; three boxes (thirty days'
treatment), \$2.50; or sent direct on
receipt of price. Write for booklet

A Great Blessing

My wife and I have found in Hood's
Sarsaparilla. She had rheumatism very
severely, with
ankles and legs
badly swollen, and
hardly able to get
up and down
stairs without
help. Many other
remedies failed,
but Hood's Sarsap-
arilla entirely
cured her. It was
only shortly after
that I was taken
with the same
complaint, affect-

hips, so I just tried the same medicine
with the same result. My wife and chil-
dren take Hood's Sarsaparilla whenever
they feel the need of a medicine and it im-
mediately makes them feel better.

GOVERNMENT DEFICIT FOR AUGUST,
\$3,635,489.

Washington, Sept. 3.—The total
government receipts for August
were \$28,952,695, against \$49,477,
605 for August, 1894, when the
whisky withdrawals were immense
on account of the new tariff law.
Loss in receipts in August as com-
pared with July, was \$117,051.
Expenditures during August
amounted to \$32,588,184, as against

PUTTING UP GOLD.
New York, Sept. 3.—The govern-
ment bond syndicate today depos-
ites \$2,000,000 at the sub treasury.

The Portland Evening Telegram
tells a story of a man in Portland
who determined to spend all he
made during the first year in ad-
vertising. He soon found that it
was impossible, for the simple rea-
son that the more he advertised the
more he made, and after a strenuous
effort to get rid of his money in
advertising he had to give it up.

It is reported that cholera has
broken out in almost every village
in the province of Valhynia, Rus-
sia. The steamer Monowai which
arrived at San Francisco, Saturday,
reports that she was hailed off
Honolulu, by a small boat, and in-
formed that there was cholera in
that city. Eight natives and chinese
have died.

Gen. J. B. Weaver, who has been
stamping Texas, believes that the
Populists will carry that state.
