Do It. THE GOLDBUG MICROBE is instantly killed by sending a 2-cent stamp to the American Bimetallic League, Washington, D. C., and asking for free literature. Do it.

His name is Dunraven—it might have been done brown, but being overdone, that's about the color.

Henry M. Stanley, the explorer, now a member of the British parliament, arrived in New York on the 11th inst. He says he is deeply interested in the railroadand irrigation projects of England in Africa, but we rather think he is looking for a market for his canned Africans as in opposition to our canned horse.

The Oregon counties for which special exhibits will be sent to the Portland Exposition are Benton, Lincoln, Polk, Yamhill, Washington, Coos, Wasco, Linn, Union, Umatilla, Baker, Josephine, Jackson, Malheur, and numerous miscellaneous exhibits will be sent in from nearly every county in the state and many from Washington.

TO ALL DELEGATES: A railroad rate of one and one-fifth fare for the round trip will be allowed on all railroads entering Spokane, to all delegates attending the Northwest Miners' Association Convention, to be held in Spokane, October 2d and 3d. Delegates will purchase tickets to Spokane from local agents at full fare, taking a receipt therefor, and the one-fifth rate will be charged on the return from Spokane, the secretary to furnish delegates certificates of membership, to be presented at railroad ticket offices.

The jail at Woodstock, Indiana, was lighted up for a week or more thereafter with telegrams from Labor Day celebrations to Eugene V. Debs, expressing sympathy for him in his patriotic martyrdom and counseling courage. Like in the day of Lattimer, a spark has been ignited by Judge Wood in his court, so-called, that will light up the ages and consume the parasites of greed and collusion. It is not long back since King George and his minions exercised the same usurpations and called the patriot colonists "rebels," "rable," and "rag-a-muffins," "only fit for powder and the gibbet." History is at hand in all the ages past, that should enlighten the present accidental, mis-fit powers as the patriot fathers instructed them, that "governments are instituted among men, deriving their just powers from the consent of the governed;" * * that "when a long train of abuses and usurpations, pursuing invariably the same object, evinces a design to ruduce them under absolute despotism, it is their right, it is their duty, to throw off such a government and to provide new guards for their future security," etc., etc. That may be anarchistic, but it is also patriotic.

At a great meeting in Chicago a few days ago, the friends of free silver coinage, the National Silver League, the American Bimetallic League, the National Bimetallic Union and other efforts to promote bimetallism, held a convention as called by the Memphis convention of some weeks ago, and united and announced that they would maintain a free silver party, and conditionally that they would reassemble and nominate a ticket to be supported at the next national election independently of the old parties. Right on the heels of this comes a proposition, in under-tone, for the goldbug advocates of the two old parties to sink their post differences and unite on the administration's plan of finance, with some show of acceptance. The new silver party organization prompts this other suggestion from Wall street, through the president's friend, Mr. Benedict. It is likely the bosses in both the old parties will haul down the tariff scarecrow—the bloody-shirt having been hauled down by the veterans themselves a few days ago, despite the flauntings of those battle "scared" veterans of loud mouth and excessively loyal declarations in "the party that put down the rebellion"—and raise instead those other false colors, "sound money."

DESERVES SUCCESS.

The Hon. William L. Douglas on his 50th birthday remarked that "in his younger days he had promised his God that, were the means ever put in his hands with which to do it, he should do all he could for the comfort and happiness of others, and he thanked that power that he had been able to do it."

The Brockton (Mass.) Enterprise thus comments: A man deserves to succeed who can make this statement with sincerity. There are business men whose success in life means comfort and joy unlimited to themselves and their families, and hardship and sorrow to their employes and their business rivals. A large employer of labor and a man of large business capacity, whose motto is that old but ever good one, 'Live and let live,' ought to be showered with blessings."

The closing days of the Exposition at Portland will be devoted to a chrysanthemum show, for which liberal premiums are offered. The show will be under the management of the Oregon Flower Association, which held such a successful rose show last June. There are prizes for both amateurs and professionals, and entries are invited from growers of flowers everywhere.

Judge Hornblower of New York city will put on the judicial ermine in the U. S. supreme court, vice Justice Strong, deceased. Well, if the Hornblower makes no false notes, like Senator Hill, we will not oppose his confirmation.

Last August while working in the harvest field I became overheated, was suddenly attacked with cramps and was nearly dead. Mr. Cummings, the druggist, gave me a dose of Chamberlain's Colic, Cholera and Diarrhœa Remedy which completely relieved me. I now keep a bottle of the remedy handy.—A. M. Bunnell, Centerville, Wash. For sale by Dr. S. L. Leneve, druggist.

He sat at his door noonday,
Lonely, glum and sad.
The flies were buzzing about him,
Led by a blue winged gad.
Not a customer darkened his portal,
Not a sign of business was there;
But the flies kept on buzzing
About the old man's hair.
At last in misery he shouted:
"Great Scott! I'm co.ered o'er with flies!"
And the zephyr that toyed with his whiskers said:
"Why don't you Advertise?"—Ex.

D. L. Watson, jr., Thomas Minott and Chas. Moon, are preparing to go to Salem for examination for admission to the bar.

Rev. G. W. Quimby left today to attend the annual conference of the Methodist Episcopal church to be held at Portland.

Chas. Norris made a big haul on last Thursday night, taking 225 salmon, which brought him $77.50, which is a pretty good night's work.

Thursday night was a great night for fish, several of the men taking from 100 to 200 fish. Wiklund took in 125, in spite of his crippled condition.

Married, at Empire City, Sept. 11, Julius Brandt and Mary Porter, R. S. Cousans, officiating. The bride came from Finland to marry the groom and the couple will reside on North Slough.

The annual ball of the Floras creek dairymen will take place at Dairyville September 27, 1895. Captain Harry Lockwood's orchestra will furnish the music.

The steamer Blanchard on her trip to Portland last week had 30 to 40 passengers. About 20 of Coos county's young men were aboard enroute to attend agricultural college at Corvallis.

Nervous Prostration.

E. W. JOY COMPANY—Gentlemen: I have suffered from a nervous prostration from financial losses. Can say Joy's Vegetable Sarsaparilla has cured me. My liver, stomach and bowels have been very inactive, but since taking your remedy I am entirely well. All business men and women should use it. Please publish. (Signed.)

MR. WM. HENRY JONES,
Butte, Mont.

Backache, Dizziness, Tiredness, give way to Joy's Vegetable Sarsaparilla.

Mrs. Alexander Campbell, of Prince Edward island, according to the Montreal Star, recently gave birth to five daughters. She is 65 years of age, and her husband is aged 84 years.

The time for holding the city election in Roseburg is near at hand. A mayor and eight councilmen are to be chosen under the new charter.

The hop yards of Douglas county will pay for picking during this month not less than $6000.

Additional Locals.

J. S. Lawrence took the train for Marshfield yesterday, where he goes on business.

An Episcopal church is to be built at Dairyville, on a lot donated to Bishop Morris by A. H. Thrift.

If our readers will clip the coupon offering premiums, in another column, they will find the promise carried out to the letter.

Mrs. Morgan of Bandon was visiting here a day or two last week, and will this week join her husband, Engineer Morgan of the steamer Dispatch, on a vacation of a week or ten days on the North Fork.

Miss Millie Brouillette, the charming young dramatist and recitationist, will lecture Sunday night at Bandon and give an entertainment there either Saturday night or Monday night; admission, 10 cents.

Young gentlemen and ladies can find a splendid opportunity for education at the Coquille academy. When the wintir rains set in, and farm labor is over and the logging camps curtail their forces, no better opportenity is afforded than at this school which opens next Monday.

Willie Disher made us a call while in town last Saturday. "Willowdale" is progressing nicely. The farmers will not lose much from the late rains, while on the other hand the dairy and stockmen are assured of a good fall and winter range.

Thoughtful people heed advice and profit by it. Our advice to you is, use Oregon Kidney Tea. It has no equal as a remedy for all ailments of the Kidneys or Bladder. Sold by druggists N. G. W. Perkins of Myrtle Point, and S. L. Leneve of Coquille City.

Secretary George Moulton, of the Coquille Dairymen's association, left yesterday, via the railroad and bay, with 83 fine fat porkers for San Francisco. George is a careful and qualified agent for the association, and managed a similar venture so successfully some few weeks since, that he has accepted the responsibility again.

The train is lengthening out to meet the demands of service now, a box-car and flat-car being added to that of the combination car to carry the ordinary freight. Of course we are growing, and with the legitimate help of our railroad and steamer and schooner service, the Coquille valley will blossom as a rose and prove a veritable golden-egg producer to its patrons and friends.

Several more negroes took the road through this place from Beaver Hill mines yesterday morning, on their way back east. One, 60 years old, stopped with us a brief spell. He was from Nashville, Tennessee, and remembered well the events at that place when it was transferred by Hood to Gen. Buell's force in '63, and afterward. He complained bitterly at being duped out here and of their ill-treatment.

Roseburg Plaindealer: E. H. Beyers of Sumner came up yesterday evening with a load of ambrosial sweetness. Mr. Beyers has some of the nicest honey ever brought to this city. That made from the early flower is superb, though it is not as delightful to the eye as that made from white clover. It is truly excellent and no mistake, and at prices by the case very reasonable. Persons fond of honey should avail themselves of the opportunity to secure a case of it before it is too late.

Sixteen couples from the recent double wedding party at Eckley—the Guerin boys and their brides—the day following the festivities of the marriage took horses, struck the trails and visited the Poverty Gulch mining camps. Of course the miners were more than glad to see them, especially the brave ladies who had ventured on so arduous and daring a task as to climb those rough mountains, cross the ravines and clamber along the edges of precipices sight-seeing. Some, too, were more far-seeing than others, as to the hindrances to their progress from long skirts, side-saddles, etc., and prepared for the difficulties as well as they could; but one bright, beautiful and intelligent young lady surmounted the difficulties throughout, donned bloomers, rubber boots, rode astride and carried a Winchester across her shoulders. She had no desire to be dismounted by brush and branches of trees, and if any game appeared, or danger from wild-beasts threatened, she was prepared in either case.

Let the outside world come and see our orchards.

Mrs. Abernathy of Dora is visiting friends in this place.

J. P. Wilbur, of the Bandon woolen mills, expects to be in town tomorrow.

James Walsh and family moved to town yesterday, and live near the Christian church.

S. P. C. Johnson tried his hand for salmon fishing last night and got nine, of average weight each.

A Mr. O. B. Woolsey and two other gentlemen came in last week from Humboldt county, California.

Johnson Bro's are spreading out, and you can get fresh groceries at better rates from them than ever before.

Go and hear W. S. Perry's comic song and character impersonation at the W. R. C. entertainment next Saturday night.

Grandpa Lindsey, father of our Mrs. R. J. Dean, is quite ill, though at this writing is feeling better. He is well up in years, being past 78, and attacks of cold or nervousness weaken him very much.

Attend the fair and entertainment to be given by the ladies of the Relief Corps next Saturday night, at Masonic hall. Admission and lunch only 10 cents. Several very interesting features will be given in the program, while the fair will be an attraction of itself.

Frank W. Spooner, the rustling agent of the Stark Medicine Co., of Portland, returned Monday from a visit to the bay and then took the steamer Dispatch for Bandon. He finds no trouble in establishing local agents for that company's goods. Mr. S. will return here today and then leave for a trip to California down the coast.

The primary department of our school has been provided for, and Miss Mary Quick took charge this morning, having been selected by the board as teacher. Both the upper and intermediate grades were over-crowded and more pupils seeking admission, thus necessitating a third room. The school will be very successful this term, if the patrons and friends interested will only not be too critical and exacting.

J. P. Wilbur, traveling salesman of the Bandon woolen mills, has been very successful in putting the products of that mill on the markets. Every community in this section now has the advantage afforded it to really "patronize home production," and in doing so, the general expression is, "we are bettered by the experience." These mills constantly receive orders from San Francisco and Portland, and are now pushed to their utmost to meet the demands made.

The Rural Northwest: That the climate of Oregon is specially favorable to the silk worm has been demonstrated by the careful experiments of Prof. Kanematz in Coos county. Working on entirely independent lines, Mr. W. S. Ban, Japanese resident of Portland, is developing the silk-producing business in Portland. Two years ago he imported 1000 mulberry trees from Japan and planted them on a 10-acre farm in the suburbs of Portland. Last spring he made a successful importation of silk worms from Japan and has been very successful in propagating them and is now making raw silk.

Comrade Jacob Croy is putting up a residence, in the north end, which he is completing for winter. Several comrades and other friends and neighbors gave a "bee" last Thursday, in the way of help, and advanced the old gentleman's prospects of an early occupancy of his home very much. The crowd of willing helpers consisted of Comrades John Goodman, Ed Nichols, H. H. Nichols, G. W. Norton, D. P. Strang, John Rowan and C. D. Elliott, and friends J. W. Sugg, N. W. Leneve and Brette Clark. Besides this, instead of going to their several homes, some for long distances, for their dinners, Mrs. C. D. Elliott took the crowd to her home and spread a bountiful table of such good things as she is famous for. Such hospitality and goodness of heart are rarely expressed, even if they exist, and the HERALD cannot refrain from mentioning these clever, most humane and exemplary expressions of good will. Several of the comrades and friends renewed their help since, and now have the building enclosed, and yesterday Mrs. Elliott had prepared, before leaving for Roseburg on a visit, another dinner and supper, which were gracefully dispensed by her charming daughter, Miss Birdie.

Sam Currier, owner of the celebrated "Big Joe" mine at Poverty Gulch, a branch of Johnson creek, in south Coos, was in town today.

Mrs. Allen Collier, who has been bedfast so long, and during the past few days waited upon as breathing her last, passed over last night and is about the same as yesterday, except, possibly, some weaker.

Following is the jury list drawn for the October term of circuit court, which convenes the first Monday in October: Z. T. Johnson and M. R. Lee, of Myrtle Point; D. J. Lowe, J. C. Brown and W. J. Fairman, of Parkersburg; L. B. Fetter, of Remote; C. R. Gabler, W. C. Paxson, Mat Kerrigan and W. G Mehl of Coquille City; John Linderbeck, J. H. Radabaugh, W. F. Miller, R. M. Hayter and H. C. Davis, of Arago; W. H. Logan, J. S. Miller and C. B. Masters, of Elliott; G. W. Beale, Wm. Barkas and J. V. Borebrake, of Marshfield; William Jenkins, of Oak; Paul Johnson, Lee Koontz, Peter Loggie, T. Y. Callahan, John O. Bates and S. W. McConnell, of Bandon; H. Bettys, of Fairview, and G. G. Swan, of Dora.

GENERAL NEWS.

ANOTHER DAMAGE CASE.

San Francisco, Sept. 18.—Miss Mabel Marshall of Los Angeles was put off the overland train today at Port Costa for traveling on a ticket issued originally to Mrs. M. J. Hall.

NOT GUILTY.

Ellensburg, Wash., Sept. 21.—The jury in the lynching case today returned a verdict of not guilty. On the night of August 13th last a mob broke into the county jail and took two prisoners, a father and son named Vinson, hanged them and riddled their bodies with shot. On August 20ht, five well-known citizens were arrested, charged with lynching.

ANARCHY IN HIGH PLACES.

Chicago, Sept. 21.—Another attempt to murder Rev. J. F. Clancy, the Lemont reformer, was made last night, but men who were lying in wait for the plucky parson were scared away by one of the latter's friends. Dr. Clancy openly charges that the attempts on his life were instigated by Mayor McCarthy, who is under indictment for bribe-taking, and in whose prosecution the minister played a prominent part.

Rev. Clancy and his friend, J. T. Derby, were notified today to keep off the streets of Lemont or suffer the consequences. This has greatly aroused public sentiment, and a vigilance committee of 20 members will be organized.

DON'T STOP TOBACCO

How to Cure Yourself While Using Tobacco.

The tobacco habit grows on a man until his nervous system is seriously affected, impairing health, comfort and happiness. To quit suddenly is too severe a shock to the system, as tobacco, to an inveterate user, becomes a stimulant that his system continually craves. Baco-Curo is a scientific cure for the tobacco habit, in all its forms, carefully compounded after the formula of an eminent Berlin physician who has used it in his private practice since 1872, without a failure, purely vegetable and guaranteed perfectly harmless. You can use all the tobacco you want, while taking Baco-Curo; it will notify you when to stop. We give a written guaranty to permanently cure any case with three boxes, or refund the money with 10 per cent interest. Baco-Curo is not a substitute, but a scientific cure, that cures without the aid of will power and with no inconvenience. It leaves the system as pure and free from nicotine as the day before you took your first chew or smoke. Sold by all druggists, with our ironclad guaranty, at $1 per box; three boxes (thirty days' treatment), $2.50; or sent direct on receipt of price. Write for booklet and proofs. A COLLEGE SUSPENDS.

The Willamette Medical College Cannot Meet Competition.

Portland, Sept. 18.—At a meeting of the faculty of the Willamette medical college today it was voted to suspend the college until further notice. The suspension was brought about by the inability to secure hospital privileges, thus rendering the faculty unable to give the students any clinical instruction. Some time ago the Portland hospital, on whose staff many of the faculty of the medical college were, passed into the hands of homeopaths. The faculty of the medical department of the Willamette university then tried to effect a consolidation with the medical department of the state university, which has priviliges of the St. Vincent's and Good Samaritan hospitals. They were unable to do this and were compelled of necessity to suspend, as they could not hope to compete with its hospital facilities. By some it is feared that the college will never resume again.

Licensed Physicians.

At the last legislature a law was passed in which it was provided that all physicians and surgeons licensed under previous laws must obtain a certificate or a copy thereof from the secretary of the board of medical examiners and file with the county clerk. Section 8 of the act, provides: "Any person practicing medicine or surgery within this state after the first day of April, 1895, without first having obtained the license herein provided for, or contrary to the provisions of this act, shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be fined not less than $50 nor more than $100, or by imprisonment in the county jail not less than 10 nor more than 90 days, or by both such fine and imprisonment."

Joy's Vegetable Sarsaparilla is sold by all druggists. Refuse a substitute. When you pay for the best see that you get the best.

Wide Tire Test.

"At the Ohio State university," says the Carriage Journal, "a test was made during the fall of last year, the result of which was as follows: An ordinary wagon, with a new three-inch tire, was loaded with 4430 pounds, the dynamometer being used to measure the draft. On a hard dirt road the draft was 254 pounds; on a grassfield it was 468 pounds; on newly plowed land it was 771 pounds. The draft power of a horse of 1000 pounds is 150 pounds, and therefore two horses could draw the load easily on a good dirt road, or one and a half tons on a grass sod. With a narrow tire, half as much is a full load for a two-horse team, showing a marked advantage for the wide tires, in addition to which they become rollers, and smooth and level the road, and so make it better the more it is used, instead of cutting it into ruts, as is well known the narrow tires do on soft roads."

Warfare has its romance; even the dip of battle has a sort of an engagement ring.

Wife—You say that you were detained at the office over a will case? Great Lawyer—Yes. A consultation with the heir. Wife—Ah, yes; I see you've brought it home on your shoulder. Blond, too, wasn't it?

Doctor—I would advise you, dear madam, to take frequent baths, plenty of fresh air and dress in cool gowns. Husband (an hour later)—What did the doctor say? Wife—He said I ought to go to a watering place and afterwards to the mountains and to get some light new gowns at once.
