HICKS' GREAT WORKS.

Rev. Irl R. Hicks, the celebrated storm prophet, of St. Louis, is now a household name in nearly every home in America. His wonderful Almanac predicts the weather for a year ahead more correctly and accurately than any other publication or any other system. The testimony of a large number of careful observers is that 99 per cent of Hicks' predictions are fulfilled to the letter. His series of annual Almanacs are now well and favorably known in all parts of this country and in foreign lands. The new Almanac for 1896 is the most practical and instructive as well as the prettiest of this splendid series. It contains 100 pages, printed on fine book paper, with covers elegantly printed in colors. The matter, although scientific, is written in popular style, there being nothing difficult to understand about it. It is also finely illustrated. Don't confound this with some patent medicine pamphlet. It is nothing of the kind, but is a fine book, which sells at all news stands for 25 cents. This fine Almanac is given as a premium to every yearly subscriber to the Rev. Irl R. Hicks' well-known and deservedly popular paper, Word and Works. This unique journal is a peerless educator of the masses, and is fast becoming a household guardian and necessity in the homes of America. Those who want to keep up with the advanced thought of the age in science, religion and all social, commercial, intellectual and domestic subjects, should subscribe for Word and Works. Subscription only $1 a year. You can send for both direct to Word and Works Publishing Co., St. Louis, Mo. Single copies of Word and Works, 10 cents.

They tell us that no one is injured by low wages, so long as prices of other commodities are proportionally low. And yet, business of all kinds (except foreclosing of mortgages) is dead and the working people are everywhere suffering. Why is this if it makes no difference about low wages? Bah!

"What fools we mortals be." The money-kings control the old parties, and through them control the government, whereby they levy heavy tribute upon the producers of wealth, the laborers, and yet we continue to vote for the old parties. Say, friend, think before you vote.

Say, Christian brother, what use is it to pray for better times and vote for the same old kind? Hadn't you better help answer your prayer by casting a few votes for the benefit of the people as against the corporations? Try it awhile.

The Populist party is gaining the past few months beyond all precedent. Business men of all classes are beginning to see the necessity of reforming our monetary system, and as fast as they see it they flop over.

There is one medicine which every family should be provided with. We refer to Chamberlain's Pain Balm. When it is kept at hand the severe pain of a burn or scald may be promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflamation sets in, which insures a cure in about one-third the time otherwise required. Cuts and bruises should receive immediate attention, before the parts become swollen, and when Chamberlain's Pain Balm is applied it will heal them without matter being formed, and without leaving a scar. A sore throat may be cured in one night. A piece of flannel dampened with this liniment and bound on over the seat of pain, will cure lame back or pain in the side or chest in twenty-four hours. It is the most valuable, however, for rheumatism. Persons afflicted with this disease will be delighted with the prompt relief from pain which it affords, and it can be depended upon to effect a complete cure. For sale by Dr. S. L. Leneve, druggist.

ALL OFF! GOING—GOING—

It appears an opportunity is still afforded to such American ladies as prefer a "title" to love and affection, or merit, or the ordinary chances for such common-place attractions at home. In mentioning the matter, the Oregonian recently said:

"It may be of interest for ladies to know that one need not be very much of an heiress these days to catch a nobleman, even of some of the most ancient houses in France. Before the revolution there were some 50,000 noble families that flourished in that country, but it is said that today less than half of them have the means to live up to their titles, while many of them are in absolute poverty. Among the savants, artists, mechanics—everywhere there are hundreds of noblemen without means of whom might no doubt be had for the asking by appreciable parties. The Comte de St. Megrin drives a cab in Paris; the Comte Jean de Retz is a gravedigger in the Normandie; a descendent of the Valois is a letter-carrier in Saint Chamas; the Comte de Saint Jean peddles mousetraps, etc. Of course, the newly rich in France are as ambitious as those elsewhere, and generally endeavor to ally themselves with some noble family; but the supply of marriageable noblemen and noblewomen is not exhausted by this demand."

There seems to be a spark of "anarchy" and "antagonism to capital" manifested among some of our business men. From a discussion that was overheard between a couple of them a few days ago, specially directed against the Standard Oil combine, and incidentally against trusts and combines in general, the Herald "Old Whiskers" can take consolation that he isn't the only anarchist in these diggins, but can also congratulate himself that he has been right on the subject all along, from principle, and not because he had been pinched and compelled to squeal. Welcome, brethren. You'll learn something while your beards grow, whether you want to or not.

Does the capitalist support the laborer, or the laborer the capitalist, which? Stop and think about it.

THE N. P. RECEIVERS

Could not Resign, But Are Discharged—Probably Only a Tool of the Corporations.

Seattle, Oct. 2.—In the federal court this morning and in the presence of the largest aggregation of lawyers that ever assembled in this city, Federal Judge C. H. Hanford with State supreme Judge John P. Hoyt, by his side' refused to accept the resignations of Oakes, House and Payne as receivers of the Northern Pacific Railroad Co., and removed them because of their failure to comply with an order made in a case a few weeks ago. The court named Andrew T. Burleigh, of this city, counsel for the Oregon Improvement Co., as receiver of the Northern Pacific property in this state. He directed Burleigh to give a bond in the sum of $300,000 and to take charge of the company's affairs at once.

ANOTHER SENSATION.

Brayton Ives filed a new and sensational affidavit, charging that Henry Villard, one month before the Northern Pacific was placed in the hands of a receiver, had authorized his personal counsel to take steps to place it in the hands of receivers, and had given it out that Henry S. Payne would be one of them.

Corvallis Times: Five hundred dollars per month for Charles Clark, receiver, and $150 per month for W. S. McFadden, receiver's attorney, were the salaries paid by the court during the receivership of Charles Clark, from January 7th to December 22d, 1894. The information is vouchsafed in an order by Judge Fullerton made Thursday, approving the act of Receiver Clark in paying himself and his attorney such salaries. Attorney McFadden also received $250 for his services in the Alice Blanchard case in the U. S. court at Portland, and Page, Ellis and Wheeler, San Francisco lawyer, received $450 on account, for services rendered in the litigation over the Willamette valley.

One of the most picturesque figures in England is Lucy Lee, the now wealthy and celebrated gypsy, who lives near Brighton. She has told the fortunes of all the members of the royal family and most of the nobility. She is remarkably intelligent, dresses neatly and lives in a house during the winter season. She is 62 years old and has 11 grown-up children.

John Pulliam, of Wichita, Kan., was arrested a few days ago for kissing a neighbor's wife in a "loud boisterous, felonious, malicious and unseemly manner, against the peace and dignity of the state of Kansas." Pulliam aggravated his offense by weighing 300 pounds.

Henry Veazie, of Tacoma, aged 23, has made a sensation by marrying Kittie Kugensmith, 46, supposed until recently to be his stepmother. Old man Veazie had given all his property to Henry, and told the woman to go, as he had never married her legally.

Inflamation, resulting from a stubbed toe, caused the death of Rev. James Polk Gammon, pastor of the Third Presbyterian church of Richmond, Va., Wednesday. Dr. Polk Gammon was named after President Polk, who was an intimate friend of his father.

THE MYSTERIOUS DADDY.

San Jose, Cal., Oct. 5.—Letters and telegrams continue to pour into the telegraph and postoffice addressed to Hip Sing Lee, the mythical Chinese merchant prince in whose name an advertisement recently appeared in a San Francisco paper, offering flattering inducements to any respectable white man who would marry his daughter, Moi Lee. There are at present nearly 500 letters in the postoffice for the mysterious Hip Sing Lee, all presumably in answer to the advertisement referred to.
