M. Hammon, a well-known business man of Hillsboro, Va., sends the following testimony to the merits of Ayer's Sarsaparilla: "Several years ago, I hurt my leg, the injury leaving a sore which would not heal. My sufferings were extreme, my leg, from the knee to the ankle, was so swollen that it was difficult to extend to other parts of the body. After trying various remedies, I began taking Ayer's Sarsaparilla, and in a few days the sore healed, and I experienced great relief; the sore finally healed a complete cure."

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. An interesting letter from Bro. B. J. Harrison appears in the HERALD today, from the South Sixes mining section. As the HERALD mentioned before, Bro. Harrison and sons were reported to have "struck it rich," and now we get a confirmation of at least a "good strike" attending the old gentleman's prospecting and isolation from home and society, and for which we hope he may early reap a competency for the balance of his days. Bro. H's letter is interesting in another sense, wherein he describes the processes of nature in both hiding and manifesting the deposits of treasure in those rocky fastnesses and eternal hills. We thank him for his kind remembrance of us, and hope he will see fit to communicate further with us.

It is noted for its wisdom, and its fame has spread afar; It has fought many windy battles, But never received a scar.

It has settled all the merits Of the dishcloth and the broom, And decided the weighty question, Whether to marry late or soon.

Our officers have all been men Of brave and noble deeds; Our speakers' tongues like wheat, Without the chaff or weeds.

We sigh for worlds to conquer, With our silvery, eloquent words, As our speakers soar aloft Like the eagle, king of birds.

Our recitations will amuse you, And perhaps will make you laugh; But if I should rhyme forever, I could not tell you that.

And so we kindly invite you To come, and keep quite still; Each take his own position And that alone fulfill.

The president is the president, And one at a time is enough, And if you don't get an office, Don't go off in a huff.

Let each one keep his temper; Don't quarrel nor get mad; If we talk like a lot of lawyers, You must not get angry or sad.

So now for a winter of pleasure, Of knowledge, and profit and gain; Let our society gather up laurels To wear as a crown of fame.

ED. HERALD: We do not claim any literary merit for these rhymes, and they were merely written for the diversion of our society, but we were requested by the Fishtrap Literary Society to send them to you for publication, which we were reluctant to do. EVA M. PAULL, Fishtrap, Or., Oct. 12, 1895.

Again we're all assembled In the schoolhouse, as of yore, And we bid each other welcome, As we enter the open door.

There is youth and beauty greeting, And a host of valiant men; Gravelly older ones are talking Of the weather's cold or heat.

We are glad no face is missing— That grim death has passed us by; And that people on the Fishtrap Ha. e no cause to weep or sigh.

We gather for improvement, And to stimulate the brain; To learn to formulate our speeches And for good oratory train.

If you have a difficult question, Give us by any means; The Fishtrap Society Literary For its solving will engage.

poems by Mrs. Paull. Excellent music was furnished by Messrs. George Clinton and Ernest Stauff, two accomplished musicians of this place.

The following officers were installed: John Lamb, president; Sherman Paull, vice-president; Ralph Edmunds, secretary.

At the close of the meeting the Willowdale and Fishtrap subject was brought up. A large representation of the residents was present. After a short discussion, in which no unkind words were spoken, a vote was taken to legally decide whether this locality should in future be recognized as Fishtrap or Willowdale. The vote resulted in a glorious victory for Fishtrap—without a single dissenting vote. This proves that the name was never changed "by the expressed wish of the people of this place."

This disputed question is now settled forever. Willowdale has sunk into nothingness, and the voice that brought it forth is forever stilled. All discord is now lalled to rest.

Mr. Sargent has purchased Mr. Mudd's place and is now a resident of beautiful "Fishtrap."

Mr. Roberts is now residing on the ranch which he bought of David Stone, formerly of this place. If you wish to enjoy yourself come up to the Lyceum some Saturday evening.

Another Free Offer.

The long winter evenings can be very profitably devoted to reading, but there are some things that we must read the year round. One of these is a local paper: the best in the county is before you—the HERALD. Another is a good home paper of general circulation, such as "Womankind," for instance, which comes once a month filled with the best things for a busy housewife. We are able by special arrangements with the publishers, to offer "Womankind" free for a year to every paid-in-advance subscriber to our paper, and are glad to do so, for we are convinced that no home paper in America contains more of practical value to women.

Bright stories, clever poems, the latest fashions, news of woman's work everywhere, articles on "Motherhood," "Cultivation of Flowers," a woman's parliament for the discussion of matters of interest. Are a few of the bright features of "Womankind."

To the head of the house we offer on the same terms "Farm News," an agricultural paper, edited by a practical farmer (Miller Purvis, esq., late state lecturer of the Ohio Farmer's Alliance), and filled each month with suggestions from able correspondents, that make it an absolute necessity to every wide awake farmer. This paper is yours for the asking, provided you are a subscriber to our paper.

Remember every paid-in-advance subscriber to the HERALD is entitled to his choice in either of these papers. Tell your neighbors about this offer. A sample copy of both papers may be obtained by addressing the Hosterman Publishing Co., Springfield, Ohio.

Come in and pay a year in advance to the HERALD and get one of these attractive papers free.

G. A. R. NOTICE.

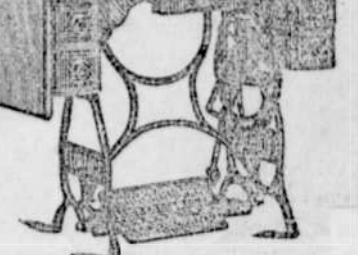

We take this opportunity of informing our subscribers that the new Commission of Pensions has been appointed. He is an old soldier, and we believe that soldiers and their heirs will receive justice at his hands. We do not anticipate that there will be any radical changes in the administration of pension affairs under the new regime. We would advise, however, that U. S. soldiers, sailors, and their heirs, take steps to make application at once, if they have not already done so, in order to secure the benefit of the early filing of their claims in case there should be any future pension legislation. Such legislation is seldom retroactive. Therefore it is of great importance that applications be filed in the department at the earliest possible date. If U. S. soldiers, sailors or their widows, children or parents, desire information in regard to pension matters, they should write to THE PRESS CLAIMS COMPANY, at Washington, D. C., and they will be prepared to send the necessary application, if they find them entitled under the numerous laws enacted for their benefit. ADDRESS: PRESS CLAIMS COMPANY, P. O. PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.
